To the PEC:

None of the dismissal letters, or responses to dismissal letters were included in the agenda packet. I am the complainant in PEC #24-17 involving Michael Hunt of the Fire Department. In July I submitted a response to the dismissal with a clear explanation of why a violation occurred and that the remedy is a cure and correct for the meeting. At the July meeting Chair Micik suggested this item might be discussed at a future meeting. In the past the agenda has included dismissal letters, and in this case it should include the response to a dismissal letter that has a flawed analysis of the law.
