Subject: Phase I Environmental Site Assessment, 1600 Harrison Street, Oakland, California

Dear Mr. Pineda:

This report presents the findings of a Phase I Environmental Site Assessment (ESA) completed by Rincon Consultants, Inc. (Rincon) for the property located at 1600 Harrison Street in Oakland, California. The Phase I ESA was performed in accordance with our proposal dated November 29, 2022 and contract dated December 1, 2022.

The accompanying report presents our findings and provides an opinion regarding the presence of recognized environmental conditions in connection with the subject property. Our work program for this project, as referenced in our contract, is intended to meet the guidelines outlined in the American Society for Testing and Materials (ASTM), Standard Practice for Environmental Site Assessments: *Phase I Environmental Site Assessment Process* (ASTM Standard E1527-13 and E1527-21). Our scope of services, pursuant to ASTM practice, did not include any inquiries with respect to asbestos-containing building materials unrelated to releases into the environment; biological agents; cultural and historic resources; ecological resources; endangered species; health and safety; indoor air quality unrelated to releases of hazardous substances or petroleum products into the environment; industrial hygiene; lead-based paint unrelated to releases into the environment; lead in drinking water; mold or microbial growth conditions; polychlorinated biphenyl-containing building materials (e.g., interior fluorescent light ballasts, paint, and caulk); naturally-occurring radon; regulatory compliance; substances not defined as hazardous substances (including some substances sometimes generally referred to as emerging contaminants) unless or until such substances are classified as a Comprehensive Environmental Response, Compensation, and Liability Act hazardous substance; and wetlands.

Thank you for selecting Rincon for this project. If you have any questions, or if we can be of any future assistance, please contact us.

Sincerely,

Rincon Consultants, Inc.

Julie Lynne Welch
Director of Due Diligence

Janey Lange
Environmental Scientist

Ryan Thacher, PhD, PE
Director of Site Assessment and Remediation

Executive Summary

This report presents the findings of a Phase I Environmental Site Assessment (ESA) for the property located at 1600 Harrison Street in Oakland, California (subject property). The Phase I ESA was performed for the Oakland Housing Authority (OHA) by Rincon Consultants, Inc. (Rincon). OHA has requested this assessment and will use the information for the purpose of purchasing the subject property. The subject property is currently developed with a vacant commercial structure. It is our understanding that the proposed future use of the subject property includes utilization as office space with potential for redevelopment as residential housing.

The subject property is located in an area that is primarily composed of residential and commercial land uses. Properties in the vicinity of the subject property include offices and multi-family residences.

During the completion of this Phase I ESA, Rincon performed a site reconnaissance and interviews with the user of the report (OHA), and the owner of the subject property (Carolanne Montgomery). In addition, Rincon reviewed potential vapor migration sources, online agency records, and historical records, including aerial photographs, topographic maps, city directories, and fire insurance maps. A environmental lien search was not provided by the User (OHA).

Deviations and/or data gaps were not encountered during the preparation of this report.

Based on the findings of this Phase I ESA, it is our opinion that there are Recognized Environmental Conditions (RECs), in connection with the subject property as follows.

Recognized Environmental Conditions

1. Former use of subject property as an automotive repair shop (1600 Harrison Street)

Notable Findings

- Several nearby and adjacent automotive repair shops and dry cleaner facilities
- Potential asbestos-containing materials (ACM) and lead-based paint (LBP)
- PFAS reported in nearby groundwater monitoring wells

We recommend a review of building permits from the 1930s through at least 1992 to identify the former locations of onsite subsurface features such as, but not limited to sumps, drains, and hoists.

To evaluate the potential subject property impact associated with the onsite former automotive repair shop and nearby automotive repair shops and dry cleaners, we recommend that a subsurface investigation be conducted.

Although not considered an REC, based on the age of the on-site structure (constructed as early as 1919), we recommend that an ACM and LBP survey be conducted.

In addition, although not considered a REC, based on the potential presence of PFAS in groundwater beneath the subject property if redevelopment is planned and dewatering is required groundwater treatment may be necessary.

1 Introduction

This report presents the findings of a Phase I Environmental Site Assessment (ESA) conducted for the property located at 1600 Harrison Street in Oakland, California (subject property; Figure 1). The Phase I ESA was performed by Rincon Consultants, Inc. (Rincon) for the Oakland Housing Authority (OHA) in general conformance with American Society for Testing and Materials (ASTM) E1527-13 and E1527-21, our proposal dated November 29, 2022, and our contract dated December 1, 2022. The following sections present our findings and provide our opinion as to the presence of recognized environmental conditions (RECs) on the subject property.

1.1 Purpose and Definitions

OHA has requested this assessment and will use the information for the purpose of purchasing the subject property. The purpose of this Phase I ESA was to determine if there are RECs on the subject property, taking into account commonly and reasonably ascertainable information, and to qualify for Landowner Liability Protections under the Brownfields Amendments to the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA).

Recognized Environmental Condition (REC)

A REC is defined pursuant to ASTM E1527-21 as,

- “(1) the presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment;
- (2) the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release or likely release to the environment; or
- (3) the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment”.

As stated in ASTM E1527-21,

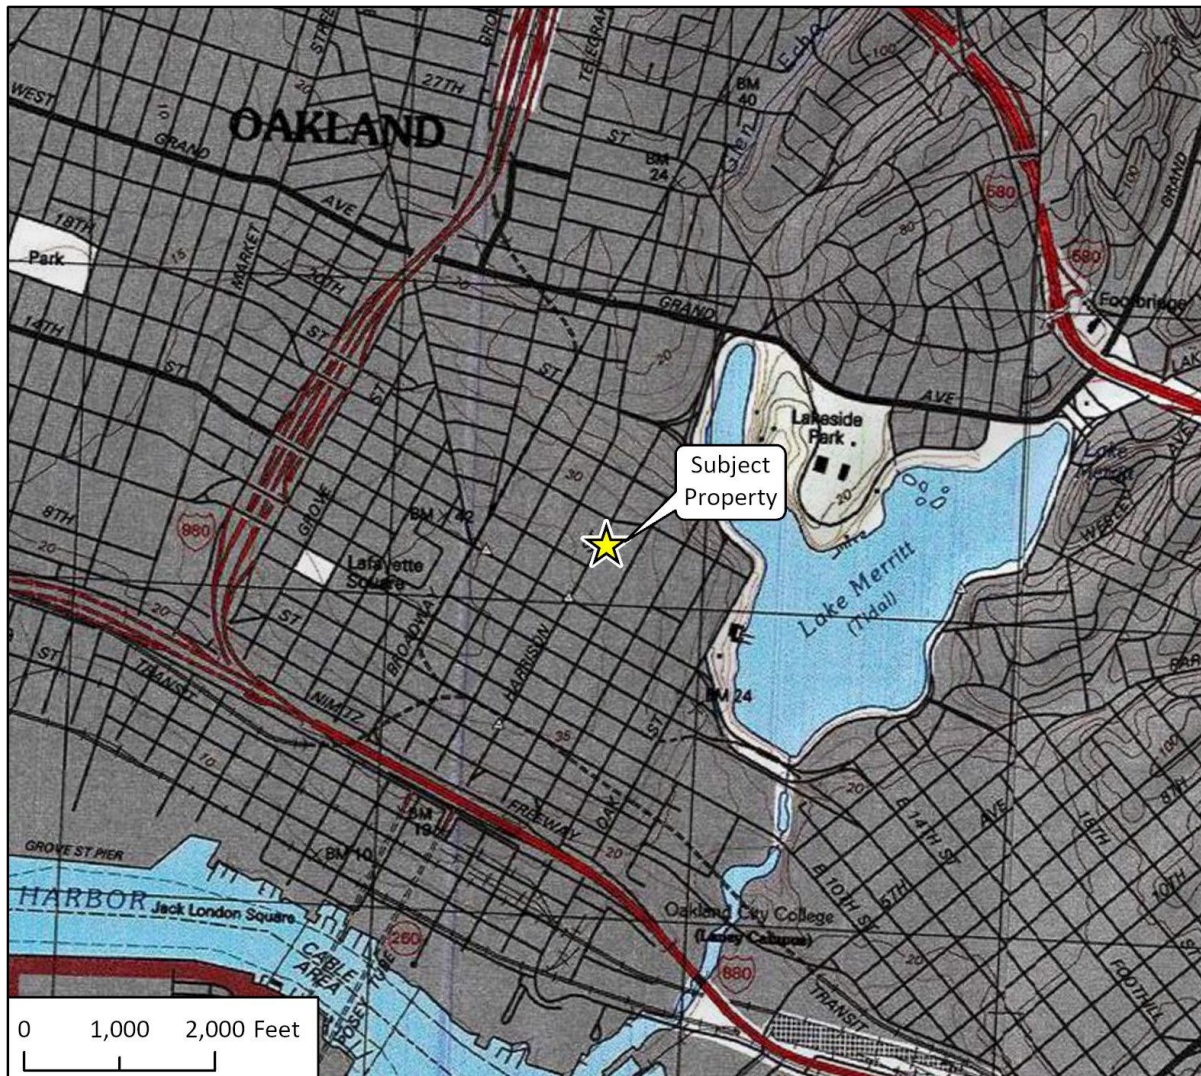

“likely is that which is neither certain nor proved, but can be expected or believed by a reasonable observer based on the logic and/or experience of the environmental professional, and/or available evidence, as stated in the report to support the opinions given therein”.

Controlled REC

A Controlled REC is defined pursuant to ASTM E1527-21 as,

“recognized environmental condition affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities with hazardous substances or petroleum products allowed to remain in place subject to implementation of required controls (for example, activity and use limitations or other property use limitations)”.

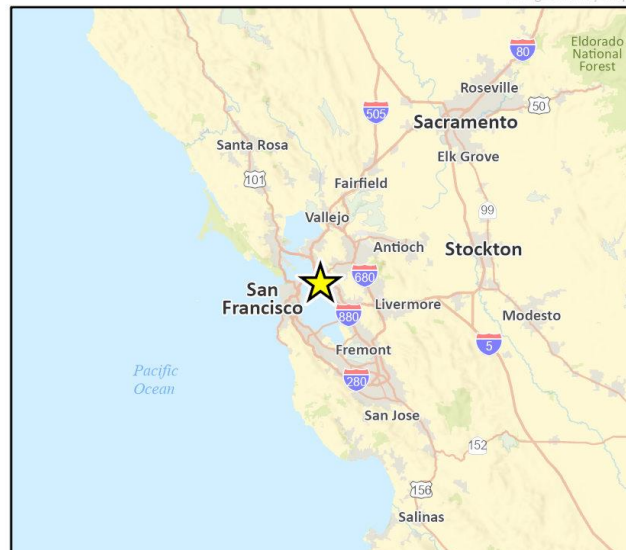

Figure 1 Vicinity

Imagery provided by National Geographic Society, Esri and its licensors © 2022. The topographic representation depicted in this map may not portray all of the features currently found in the vicinity today and/or features depicted in this map may have changed since the original topographic map was assembled.

22-13845 ESA
PhiFig 1 Vicinity Map

★ Project Location

Historical REC

A Historical REC is defined pursuant to ASTM E1527-21 as,

“a previous release of hazardous substances or petroleum products affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted use criteria established by the applicable regulatory authority or authorities without subjecting the subject property to any controls (for example, activity and use limitations or other property use limitations). A historical recognized environmental condition is not a recognized environmental condition”.

De minimis

A *de minimis* condition is defined pursuant to ASTM E1527-21 as,

“a condition related to a release that generally does not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. A condition determined to be a *de minimis* condition is not a recognized environmental condition nor a controlled recognized environmental condition”.

Property Use Limitation

A Property Use Limitation (PUL) is defined pursuant to ASTM E1527-21 as,

“a limitation or restriction on current or future use of a property in connection with a response to a release, in accordance with the applicable regulatory authority or authorities that allows hazardous substances or petroleum products to remain in place at concentrations exceeding unrestricted use criteria”.

Significant Data Gap

A Significant Data Gap is defined pursuant to ASTM E1527-21 as,

“a data gap that affects the ability of the environmental professional to identify a recognized environmental condition”.

Notable Finding

Although not defined by ASTM E1527-13 or E1527-21, Rincon utilizes the term *Notable Finding* for potential environmental concerns present at or possibly present at a property that do not specifically fit one of the above ASTM-defined situations, yet may impact current or future use of the subject property.

1.2 Scope of Services

The scope of services conducted during this study is outlined below:

- Performed a reconnaissance of the subject property to identify obvious indicators of the existence of hazardous materials.
- Observed adjacent or nearby properties from public thoroughfares in an attempt to see if such properties are likely to use, store, generate, or dispose of hazardous materials.

- Obtained and reviewed an environmental records database search to obtain information about the potential for hazardous materials to exist at the subject property or at properties located in the vicinity of the subject property.
- Reviewed files for the subject property and immediately adjacent properties as identified in the database report, as applicable.
- Reviewed the current United States Geological Survey (USGS) topographic map to obtain information about the subject property and regional topography and uses of the subject property and surrounding sites.
- Reviewed additional pertinent record sources (e.g., California Geologic Energy Management Division [CalGEM] records, online databases of hazardous substance release sites), as necessary, to identify the presence of RECs at the subject property.
- Reviewed the California State Water Resources Control Board (SWRCB) Statewide Per- and Polyfluoroalkyl Substances (PFAS) Investigation online Public Map Viewer regarding current PFAS orders issued to facilities located in the vicinity of the subject property.
- Reviewed reasonably ascertainable historical resources (e.g., aerial photographs, topographic maps, fire insurance maps, city directories) to assess the historical land use of the subject property and adjacent properties.
- Provided a user interview questionnaire to a representative of OHA, the user of the Phase I ESA.
- Provided a property owner interview questionnaire to the property owner or a designated subject property representative identified to Rincon by OHA.
- Conducted interviews with other property representatives (e.g., key site manager, occupants), as applicable.
- Reviewed available OHA-provided information (e.g., previous environmental reports, title documentation).
- Requested Title Search Information Reports from the User of the report.

1.3 Significant Assumptions, Limitations, Deviations, Exceptions, Special Terms, and Conditions

This work is intended to adhere to good commercial, customary, and generally accepted environmental investigation practices for similar investigations conducted at this time and in this geographic area. No guarantee or warranties, expressed or implied, are provided. The findings and opinions conveyed in this report are based on findings derived from a site reconnaissance, review of an environmental database report, specified regulatory records and historical sources, and comments made by interviewees. This report is not intended as a comprehensive site characterization and should not be construed as such. Standard data sources relied upon during the completion of Phase I ESAs may vary with regard to accuracy and completeness. Although Rincon believes the data sources are reasonably reliable, Rincon cannot and does not guarantee the authenticity or reliability of the data sources it has used. Additionally, pursuant to our contract, the data sources reviewed included only those that are practically reviewable without the need for extraordinary research.

Rincon has not found evidence that hazardous materials or petroleum products exist at the subject property at levels likely to warrant mitigation. Rincon does not under any circumstances warrant or guarantee that not finding evidence of hazardous materials or petroleum products means that

hazardous materials or petroleum products do not exist on the subject property. Additional research, including surface or subsurface sampling and analysis, can reduce OHA's risks, but no techniques commonly employed can eliminate these risks altogether.

In addition, pursuant to ASTM E1527-13 and E1527-21 practice, our scope of services did not include any inquiries with respect to asbestos-containing building materials unrelated to releases into the environment; biological agents; cultural and historic resources; ecological resources; endangered species; health and safety; indoor air quality unrelated to releases of hazardous substances or petroleum products into the environment; industrial hygiene; lead-based paint unrelated to releases into the environment; lead in drinking water; mold or microbial growth conditions; polychlorinated biphenyl (PCB)-containing building materials (e.g., interior fluorescent light ballasts, paint, and caulk); naturally-occurring radon; regulatory compliance; substances not defined as hazardous substances (including some substances sometimes generally referred to as emerging contaminants) unless or until such substances are classified as a CERCLA hazardous substance; and wetlands.

1.4 ASTM Deviations

Deviations from ASTM E1527-13 and E1527-21 practice were not encountered during the completion of this Phase I ESA. An environmental lien search was not completed as part of this assessment; however, one was requested from the user.

1.5 User Reliance

OHA has requested this assessment and will use the information for the purpose of purchasing or acquiring the subject property. This Phase I ESA was prepared for use solely and exclusively by OHA. No other use or disclosure is intended or authorized by Rincon. Also, this report is issued with the understanding that it is to be used only in its entirety. It is intended for use only by OHA, and no other person or entity may rely upon the report without the express written consent of Rincon.

1.6 Site Description

Location

The subject property is a 0.27-acre parcel located east of Harrison Street and northwest of Alice Street in Oakland, California (

Figure 2). The property is identified as 1600 Harrison Street and Assessor's Parcel Number (APN) 8-828-30-1.

Subject Property and Vicinity General Characteristics

The subject property is currently a vacant commercial structure that was formerly utilized as an automotive repair facility.

The subject property is located in an area that is primarily composed of residential and commercial land uses. Properties in the vicinity of the subject property include offices and multi-family residences. The current adjacent land uses are described in Table 1 and depicted on Figure 3.

Table 1 Current Uses of Adjacent Properties

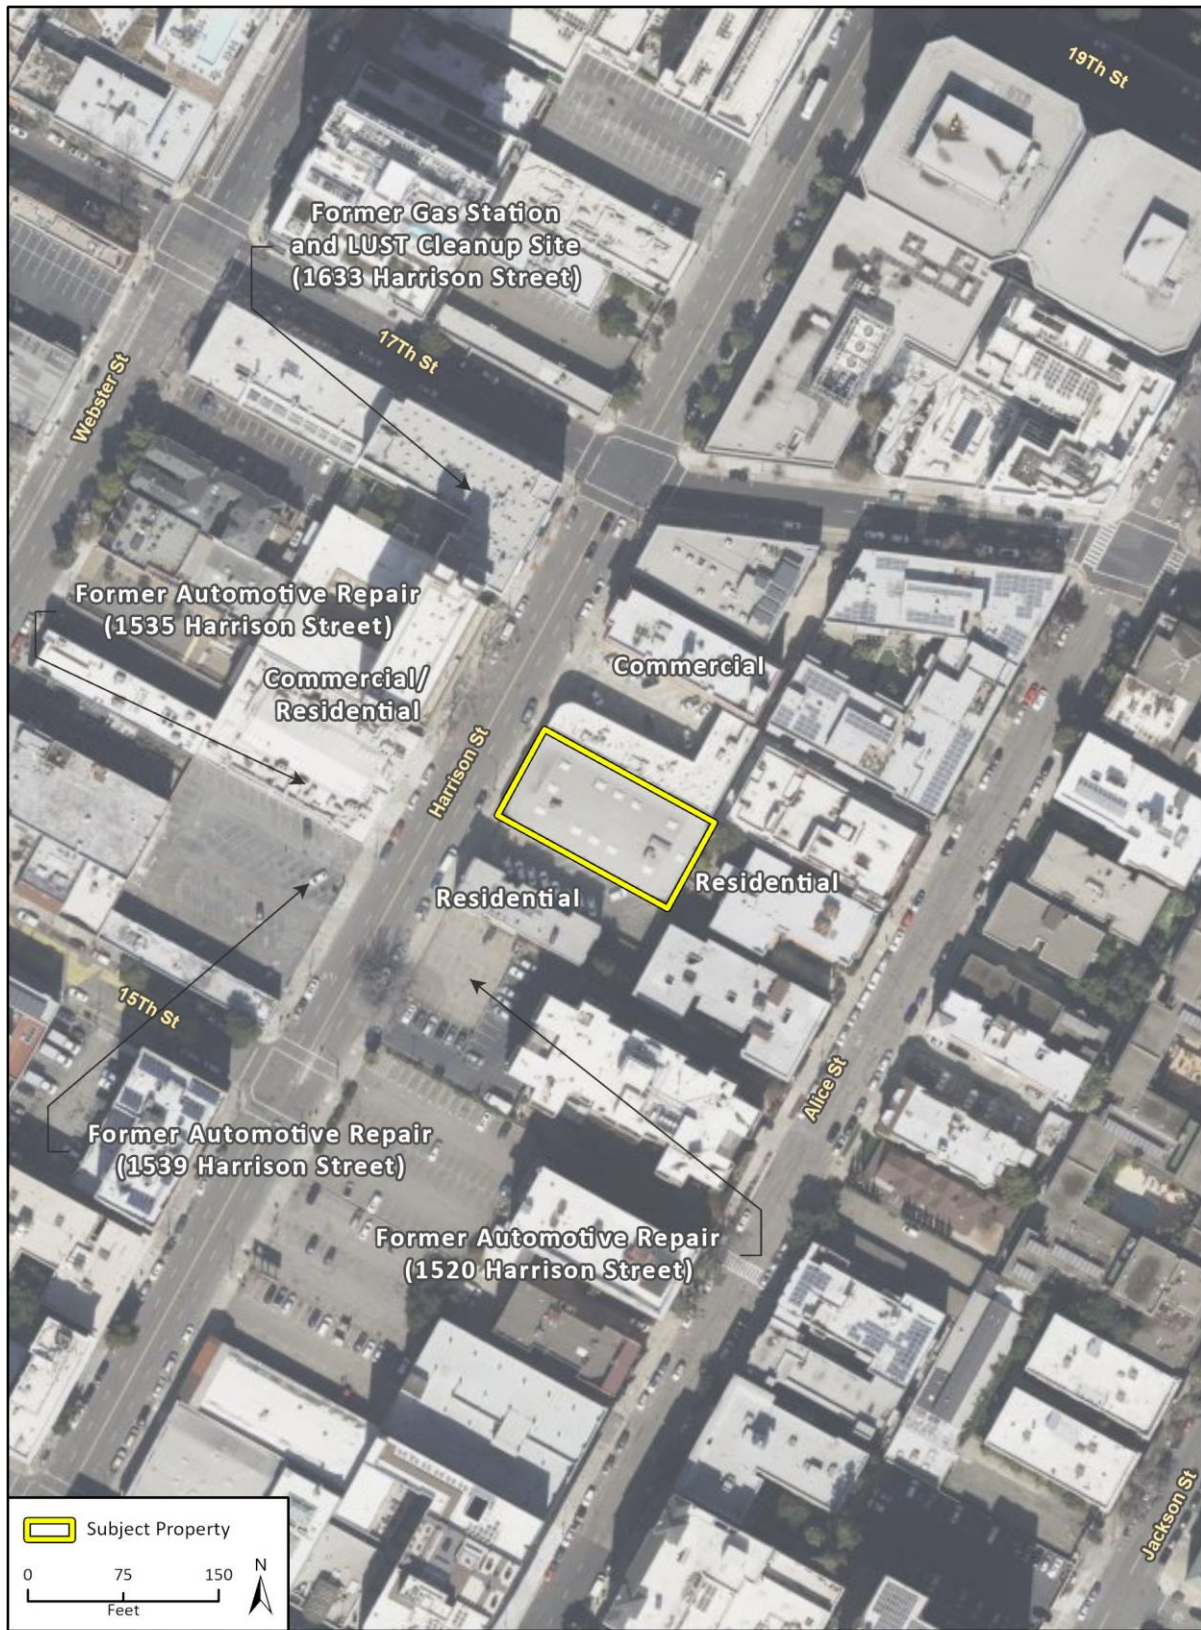

Area	Use
Northwestern Properties	Harrison St. followed by multi-family residences and offices (1535-1621 Harrison Street)
Northeastern Properties	Offices and an associated parking lot (1610 Harrison Street)
Eastern Properties	Multi-family residences (1529 Alice Street) followed by Alice Street
Southeastern Properties	Multi-family residences (1519 Alice Street) followed by Alice Street
Southern Properties	Multi-family residences (1515 Alice Street)
Southwestern Properties	Multi-family residences (1530 Harrison Street)

Figure 2 Subject Property

Figure 3 Adjacent Land Use

Imagery provided by Microsoft Bing and its licensors © 2022.

22-1-35945 ESA
PhiFig 3 Adj Land Use Map

Descriptions of Structures, Roads, and Other Improvements on the Subject Property

During the site reconnaissance, one structure was observed on the subject property consisting of 14 vacant office spaces, a kitchen/break area, and two restrooms. Access to the subject property is available from Harrison Street.

The following utility providers service the subject property/area:

- Electrical Service – Pacific Gas and Electric
- Natural Gas Service – Pacific Gas and Electric
- Water Service – East Bay Municipal Utility District
- Sewer Service – East Bay Municipal Utility District
- Solid Waste Service – Waste Management of Alameda County

2 User-Provided Information and Responsibilities

2.1 Review Land Title Records and Judicial Records for Environmental Liens and Activity and Use Limitations

Rincon requested lien and title search information reports from the User of the report. Pursuant to ASTM E1527-21,

“the title search information reports shall identify environmental covenants, environmental easements, land use covenant and agreements, declaration of environmental land use restrictions, environmental land use controls, environmental use controls, environmental liens, or any other recorded instrument that restricts, affects, or encumbers the title to the subject property due to restrictions or encumbrances associated with the presence of hazardous substances or petroleum products. Title search information reports shall review land title records for documents recorded between 1980 and the present. If judicial records are not reviewed, the title search information report shall include a statement providing that the law or custom in the jurisdiction at issue does not require a search for judicial records in order to identify environmental liens”.

As stated in ASTM E1527-21 it is the “user’s responsibility to search for environmental liens and activity and land use limitations (AULs)”. This is in “addition to the environmental professional’s search of institutional control and engineering control registries described in” ASTM E1527-21 Section 8.2.

A copy of the title search information records provided by the User is included in Appendix A. Based on our review of the title search information records:

- The title of the subject property is vested in Carolanne Montgomery, Trustee, Trust one under Lee and Carolanne Montgomery Living Trust as of December 7, 2000
- There are no easements or land use covenants for the subject property.

2.2 User Questionnaire

As described in ASTM E1527-13 Section 6 and E1527-21 Section 6, a User Questionnaire as provided by ASTM E1527-13 Appendix X3 and E1527-21 Appendix X3 was provided to OHA. The purpose of the User Questionnaire is for the User of the Phase I ESA to provide actual knowledge pertaining to the subject property to help identify RECs. Jonathan Young, Senior Development Program Manager with OHA, completed the User Questionnaire on December 7, 2022. A copy of the completed questionnaire is included as Appendix A.

Based on our review of the completed questionnaire, the user indicated the following:

- The Phase I ESA is required/being performed for the potential purchase of the subject property
- A purchase transaction is planned for the subject property.

- The purchase price being paid for the subject property reasonably reflects the fair market value of the property.
- A Preliminary Title Report is available for the subject property.

Based on our review of the completed questionnaire, the user reviewed the following sources of information and is unaware of information regarding the following:

- Recorded land title records (or judicial records, where appropriate) that identify any environmental liens filed or recorded against the subject property
- Recorded land title records (or judicial records, where appropriate) that identify any AULs, such as engineering controls, land use restrictions or institutional controls that are in place at the property and/or have been filed or recorded against the subject property under federal, tribal, state, or local law
- Title Report that identifies information pertaining to environmental cleanup liens or AULs for the subject property

Based on our review of the completed questionnaire, the user is unaware of information regarding the following:

- Reduction in value for the subject property relative to any known environmental issues
- Commonly known or reasonably ascertainable information about the subject property that would help the environmental professional to identify conditions indicative of releases or threatened releases
- Obvious indicators that point to the presence or likely presence of releases at the subject property
- Pending, threatened, or past litigation relevant to hazardous substances or petroleum products, in, on, or from the subject property
- Pending, threatened, or past administrative proceedings relevant to hazardous substances or petroleum products in, on, or from the subject property
- Notice from any government entity regarding any possible violation of environmental laws or possible liability relating to hazardous substances or petroleum products

Based on our review of the completed questionnaire, the user identified information pertaining to the subject property that may help identify RECs in connection with the subject property. This information is summarized below:

- The user also owns property across Harrison Street to the northwest at 1619-1621 Harrison Street. Environmental assessments have been conducted for 1619-1621 Harrison Street.
- Environmental assessments and remediation has been conducted for the former gasoline station located at 1633 Harrison Street, located to the north-northwest across Harrison Street.

The following document regarding the subject property was provided by OHA:

- *Preliminary Title Report, Chicago Title Company, October 7 2022.* Based on our review of this document the title of the subject property is vested in Carolanne Montgomery, Trustee, Trust one under Lee and Carolanne Montgomery Living Trust as of December 7, 2000. Additionally, there are no easements or land use covenants for the subject property.

2.3 User-Provided Information of Concern

Based on the information obtained during our review of user-provided documents, the following conditions have the potential to impact the subject property:

Adjacent Properties

- 1633 Harrison Street – remediation has been conducted for this site which is located to the north-northwest of the subject property

3 Records Review

3.1 Physical Setting Resources

Topography

The current USGS topographic map (Oakland West Quadrangle) indicates that the subject property is situated at an elevation of approximately 38 feet above mean sea level with topography sloping down to the southwest. The adjacent topography is relatively flat. A copy of the current USGS topographic map is included in Appendix B (EDR 2022).

Geology and Hydrogeology

Based on information provided by OHA and the property owners, there are no site-specific geotechnical or geologic reports available for the subject property.

According to the current USGS Geologic Map (Radbruch 1957), the subject property is underlain by beach or near shore deposits of slightly clayey, silty sand.

During the preparation of this Phase I ESA, we reviewed the California SWRCB's online GeoTracker database to determine groundwater flow direction in the vicinity of the subject property. Groundwater is reported to be between 11 and 22 feet below ground surface and flows toward the northeast at a site located approximately 0.12 mile to the northwest of the subject property (Conestoga-Rovers & Associates 2009).

3.2 Government Record Sources

Rincon outsourced with a regulatory database search contractor to obtain records of sites that generate, store, treat, or dispose of hazardous materials and sites for which a hazardous material release incident has occurred. The regulatory database search was conducted for the subject property and included data from surrounding sites within specified radii of the subject property. A copy of the database report, which specifies the ASTM E1527-13 and ASTM E1527-21 search distance for each public list, is included as Appendix B. As shown in the database report, federal, state, and county lists were reviewed as part of the research effort. Please refer to Appendix B for a complete listing of sites reported by Environmental Database Resources (EDR) and a description of the databases reviewed.

The Map Findings Summary, included in the database report, provides a summary of the databases searched, the number of reported facilities within the search radii, and whether the facility is located on-site or adjacent to the subject property. The following information is based on our review of the Map Findings Summary and the information contained in the database report.

Subject Property

The subject property (1600 Harrison Street) was listed on the following databases:

- Hazardous Waste Tracking System (HWTS) database as Geomatrix Inc., Jaico, and Amec Foster Wheeler Environmental
- Hazardous Waste Manifests (HAZNET) database as Jaico
- EDR Hist Auto as Tranpro of Walnut Creek Inc.

Regulatory agency files reviewed for the subject property are discussed in the Review of Agency Files section of this report.

Offsite Properties

Offsite properties listed in the database report fall under two general categories of databases: those reporting unauthorized releases of hazardous substances (e.g., Leaking Underground Storage Tank [LUST], National Priority List [a.k.a. Superfund sites], and corrective action facilities), and those reported as businesses permitted to use hazardous materials or generate hazardous wastes, for which an unauthorized release has not been reported to a regulatory agency.

Rincon reviewed the database maps and select detailed listings to evaluate their potential to impact the subject property, based on the following factors:

- Reported distance of the facility from the subject property;
- The nature of the database on which the facility is listed, and/or whether the facility was listed on a database reporting unauthorized releases of hazardous materials, petroleum products, or hazardous wastes;
- Reported case type (e.g., soil only, failed underground storage tank [UST] test only);
- Reported substance released (e.g., chlorinated solvents, gasoline, metals);
- Reported regulatory agency status (e.g., case closed, “no further action”); and,
- Location of the facility with respect to the reported groundwater flow direction (discussed in the Geology and Hydrogeology section of this report)

Facilities/properties that were interpreted by Rincon to be of potential environmental concern to the subject property, based on one or more of the factors listed above, are summarized in Table 2. In accordance with ASTM E1527-13 and E1527-21, contamination migration pathways in soil, groundwater, and soil vapor were considered in our analysis of offsite properties of potential environmental concern.

Orphan Listings

The database report identified 11 orphan or unmapped site listings, which were unable to be plotted due to insufficient address information. Based on Rincon’s review of the limited address information or site descriptions for the orphan listings, none of the listings are expected to impact the subject property based on distance from the subject property and the nature of the listings.

Table 2 Database Listing Summary of the Subject Property and Select Sites Within One-Eighth Mile of the Subject Property

Site Name	Database Site ID	Site Address	Distance from Subject Property	Database Reference	Comments
Subject Property					
Geomatrix Inc./Jaico/ AMEC Foster Wheeler Env./Tranpro of Walnut Creek Inc.	A1-A5	1600 Harrison Street	Subject Property	HWTS	The facility is listed in the hazardous waste tracking system and was active from 1994 to 2000, 2007-2008, 2009, and 2016
				HAZNET	The facility generated onsite and recycled offsite, various quantities of hazardous waste, including empty containers in 1995.
				EDR Hist Auto	The facility is listed as a historical automotive repair shop and automotive transmission repair shop from 1973 to 1992.
Adjacent Properties					
Rodgers E C	A6	1539 Harrison Street	Adjacent Property – Northwest	EDR Hist Auto	The facility is listed as a historical automotive repairing and service station in 1928.
Oakland Housing Authority	A7	1619 Harrison Street	Adjacent Property – Northwest	RCRA NON GEN/NLR	The facility did not generate hazardous waste in 2019.
Alexander W C	A8	1535 Harrison Street	Adjacent Property – Northwest	EDR Hist Auto	The facility is listed as a historical automobile repairing shop in 1925 and 1943.
Peter Shiu	A11-A12	1519 Alice Street	Adjacent Property – Southwest	RCRA NON GEN/NLR	The facility did not generate hazardous waste in 2020.
Dunsmuir Apartments LLC	A13	1515 Alice Street	Adjacent Property – South	RCRA NON GEN/NLR	The facility did not generate hazardous waste in 2021.
Upgradient Release Sites					
Schauer Karl	A10	1520 Harrison Street	Approximately 90 Feet – Southeast	EDR Hist Auto	The facility is listed as a historical automobile repairing shop in 1933.

Site Name	Database Site ID	Site Address	Distance from Subject Property	Database Reference	Comments
Crossgradient Release Sites (within 150 feet)					
Chevron 90020, Collier A F, Chevron	A16-A19	1633 Harrison Street	Approximately 115 Feet – Northwest	RCRA-SQG	The facility generated a small quantity of hazardous waste in 2011.
				HAZNET	The facility generated onsite and disposed of offsite of various quantities of hazardous waste, including organic solids, and waste oil/mixed oil in 2011.
				HWTS	The facility is listed in the hazardous waste tracking system and was active in 2011.
				EDR Hist Auto	The facility is listed as a historical gasoline and oil service station in 1943 and from 1969-1972.
				LUST, Cortese, HIST Cortese, Alameda County CS, CERS	The facility is associated with a closed Leaking Underground Storage Tank (LUST) cleanup site that reported an undocumented release of total petroleum hydrocarbons gasoline (TPHg) and total petroleum hydrocarbons diesel (TPHd) that received case closure in 2015. According to the site history available on GeoTracker several soil vapor surveys were conducted from 1988 to 1992 as well as a limited soil excavation in 1992. Additionally, a SVE system operated onsite in 1993 with minimal effectiveness. In 2007 a soil vapor survey found elevated concentrations of benzene, methyl-tert-butyl-ether (MTBE), and naphthalene in all vapor points.
Dave's Service Garage, a. Bacharach Trust & B. Borsuk, Roy's Auto Body, Harrison Street Garage	G37-G42	1432 Harrison Street	Approximately 380 Feet – Southwest	EDR Hist Auto	The facility is listed as a historical automotive repair shop from 1967 to 1970.
				LUST, Cortese, CERS, Alameda County CS, HIST Cortese	The facility is associated with a closed LUST Cleanup Site that reported an undocumented release of TPHg to groundwater and soil and received case closure in 2019. According to the site history available on GeoTracker site investigations were conducted between 1990 and 1996, and in 1993 two TPHg USTs were removed beneath the sidewalk along Harrison Street. A total of 240 cubic yards of TPHg impacted soil was removed from the site, and soil vapor and air sparging was conducted at the site from 2001 to 2005.
				SWEEPS UST, HIST UST, CA FID UST	The facility had at least three 1,000 gasoline USTs that were last active in 1985.
				RCRA-SQG	The facility generated a small quantity of hazardous waste in 1996.
				FINDS, ECHO	The facility is enrolled in a State-managed program for hazardous materials/waste.

Site Name	Database Site ID	Site Address	Distance from Subject Property	Database Reference	Comments
				HAZNET	The facility generated on-site and disposed offsite of various quantities of hazardous waste, including oxygenated solvents from 1987 to 1993.
				HWTS	The facility has an inactive status as of 1993.
				HIST UST	The facility had at least one waste tank in 1981.

***Bold** listings indicate a release database

Regulatory agency information reviewed for the listings in the table above are summarized in the Review of Agency Files section of this report.

In addition, although not listed as release sites, several nearby properties within 1/8 mile of the subject property were listed on the historical auto stations or historical cleaner databases. Please note that the auto stations database listings may include parking garages, occupations of residents, auto stations, gas stations, repair stations, etc. and the cleaners database listings may include dry cleaning facilities, occupations, coin operated laundromats, home businesses, etc. A list of the historical auto stations and historical cleaners in the vicinity of the subject property is included beginning on page 107 of the EDR report (Appendix B).

3.3 Review of Agency Files

As a follow-up to the database search, Rincon reviewed regulatory information for the subject property and facilities within the specified search radii that were interpreted to have the potential to impact the subject property, based on one or more factors previously discussed (e.g., distance, open case status, upgradient location, soil vapor migration).

The following is a summary of our review of regulatory information obtained from online sources (e.g., SWRCB GeoTracker database, Department of Toxic Substances Control [DTSC] EnviroStor database, local fire department) and/or files requested from the applicable regulatory agency, as described below.

Subject Property

The subject property was listed in three non-release databases: HWTS, HAZNET, and EDR Hist Auto. These listings indicate that hazardous materials are handled and stored on-site; however, no releases have been reported. However, since the subject property is associated with a former automotive repair shop there is potential for the subject property to be impacted by petroleum hydrocarbons.

Geomatrix Inc., Jaico, AMEC Foster Wheeler Environmental, Tranpro of Walnut Creek Inc.– 1600 Harrison Street

Databases:	HTWS, HAZNET, EDR Hist Auto
Agency Lead:	None
Listing/Case Status:	None
Soil Impacts/COCs:	Unknown
Soil Vapor Impacts/COCs:	Unknown
Groundwater Impacts/COCs:	Unknown
Groundwater Depth/Flow Direction:	Unknown
Site Distance from Subject property:	Subject Property
Release Distance from Subject Property:	Subject Property
Potential Impacts to Soil, Soil Vapor, or Groundwater at Subject Property:	Yes – See Table 5

Adjacent Properties

Five adjacent properties were listed in databases searched. Two of the adjacent properties have potential to impact the subject property, as summarized below:

Rodgers E C at 1539 Harrison Street

This property is located adjacent to the northwest of the subject property.

Databases:	EDR Hist Auto Station
Agency Lead:	None
Listing/Case Status:	None
Soil Impacts/COCs:	Unknown
Soil Vapor Impacts/COCs:	Unknown
Groundwater Impacts/COCs:	Unknown
Groundwater Depth/Flow Direction	Unknown
Site Distance from Subject Property:	Immediately adjacent to the northeast
Release Distance from Subject Property:	Unknown
Potential Impacts to Soil, Soil Vapor, or Groundwater at Subject Property:	Unknown – See Table 5

Alexander W C at 1535 Harrison Street

This property is located adjacent to the northwest of the subject property.

Databases:	Hist Automotive Repair
Agency Lead:	None
Listing/Case Status:	None
Soil Impacts/COCs:	Unknown
Soil Vapor Impacts/COCs:	Unknown
Groundwater Impacts/COCs:	Unknown
Groundwater Depth/Flow Direction	Unknown
Site Distance from Subject Property:	Immediately adjacent to the northwest
Release Distance from Subject Property:	Unknown
Potential Impacts to Soil, Soil Vapor, or Groundwater at Subject Property:	Unknown – See Table 5

Nearby Release Sites

Chevron 90020, Collier A F, Chevron – 1633 Harrison Street

Databases:	LUST, Cortese, HIST Cortese, Alameda County CS, CERS, EDR Hist Auto
Agency Lead:	Alameda County LOP
Listing/Case Status:	Closed, 2015
Soil Impacts/COCs:	Yes/TPHg/TPHd/VOCs
Soil Vapor Impacts/COCs:	Yes/VOCs/TPHg
Groundwater Impacts/COCs:	Yes
Groundwater Depth/Flow Direction:	11-22 feet bgs, northeast
Site Distance from Subject Property:	115 feet northwest
Release Distance from Subject Property:	Unknown
Potential Impacts to Soil, Soil Vapor, or Groundwater at Subject Property:	Yes – See Table 5

Dave's Service Garage, a. Bacharach Trust & B. Borsuk, Roy's Auto Body, Harrison Street Garage– 1432 Harrison Street

Databases:	LUST, Cortese, CERS, Alameda County CS, HIST Cortese, EDR Hist Auto
Agency Lead:	San Francisco Bay RWQCB
Listing/Case Status:	Closed, 2019
Soil Impacts/COCs:	Yes/TPHg
Soil Vapor Impacts/COCs:	Yes/TPHg
Groundwater Impacts/COCs:	Yes/TPHg
Groundwater Depth/Flow Direction:	25 feet bgs
Site Distance from Subject Property:	Approx. 380 feet southwest
Release Distance from Subject Property:	Unknown
Potential Impacts to Soil, Soil Vapor, or Groundwater at Subject Property:	No – See Table 5

3.4 Review of State of California Geologic Energy Management Division (CalGEM) Records

A review of the CalGEM Online Mapping System indicates that no oil wells are located on the subject property or adjacent properties, or within 0.25 mile of the subject property (CalGEM 2022).

3.5 Review of National Pipeline Mapping System Records

A review of the National Pipeline Mapping System (NPMS) online Public Map Viewer indicates that no natural gas transmission pipelines or hazardous liquid pipelines are located on the subject property or adjacent properties. Additionally, no pipeline-related accidents or incidents are mapped within 0.25 mile of the subject property (United States Department of Transportation 2022).

3.6 Review of California Statewide PFAS Investigation

Beginning in 2019, the SWRCB sent assessment requirements to property owners of sites that may be potential sources of PFAS. These sites currently include select airports, chrome plating facilities, Department of Defense (DoD) sites, landfills, publicly owned treatment works facilities, and bulk fuel storage terminals and refineries. According to the SWRCB, “PFAS are a large group of human-made substances that do not occur naturally in the environment and are resistant to heat, water, and oil” (SWRCB 2022).

Our December 2, 2022 review of the California Statewide PFAS Investigation online Public Map Viewer indicates that there are no current airport, chrome plating, DoD, landfill, or publicly owned treatment works facilities with PFAS orders listed as located within 0.5 mile of the subject property (SWRCB 2022). Based on our review of the SWRCB’s March 12, 2021 Bulk Fuel Terminal/Refinery Investigative Order, the subject property is not listed on the Bulk Fuel Storage Terminals and Refineries List (Attachment 1 of the Order). In addition, none of the Bulk Fuel Storage Terminals or Refineries on the list are located within 0.5 mile of the subject property (SWRCB 2021).

Our December 2, 2022 review of the California Statewide Drinking Water System Quarterly Testing Results online Public Map Viewer indicates that perfluorooctanoic acid (PFOA) and perfluorooctanesulfonic acid (PFOS) were not detected in City of Daly drinking water wells located approximately 13 miles to the southwest of the subject property and tested quarterly as part of a PFAS investigative order (SWRCB 2022). Additionally, PFOA and PFOS were detected in groundwater monitoring wells associated with the Francis Plating Frog Pond Cleanup Program site located approximately 0.8 miles to the southwest of the subject property and at levels greater than their respective response and notification levels (GeoTracker 2020). Groundwater beneath the subject property may be impacted with PFAS based on proximity to the Francis Plating Frog Pond Cleanup Program site.

3.7 Records Review Information of Concern

Based on the information obtained during our records review documented above, the following conditions have the potential to impact the subject property:

Subject Property

- 1600 Harrison Street– former automotive repair shop (1972-1993)

Adjacent Properties

- Several nearby properties within 1/8 mile of the subject property were listed on the historical auto stations or historical cleaner databases. Please note that the auto stations database listings

may include parking garages, occupations of residents, auto stations, gas stations, repair stations, etc. and the cleaners database listings may include dry cleaning facilities, occupations, coin operated laundromats, home businesses, etc. These facilities have the potential to impact the subject property.

Nearby Properties

- 1633 Harrison Street – closed LUST Cleanup Site, former gasoline station (1943, 1969-1972), known soil, soil vapor, and groundwater impacts
- PFAS reported in groundwater at a nearby release site

4 Historical Records

The historical records review completed for this Phase I ESA includes aerial photographs, topographic maps, fire insurance maps, city directories, and building permits as detailed in the following sections. Copies of the historical resources reviewed are included in Appendix C. Table 3 provides a summary of the historical use information available for the subject property and adjacent properties.

4.1 Methodology

Review of Aerial Photographs

Aerial photographs from EDR's aerial photograph collection were obtained. In addition, a current aerial photograph from Google Earth was reviewed. The aerial photographs were reviewed on December 2, 2022.

Review of Historical Topographic Maps

Historical topographic maps from EDR's map collection were obtained. The historical topographic maps were reviewed on December 2, 2022.

Review of City Directory Listings

EDR was contracted to provide copies of city directory listings for the subject property. The city directory listings were reviewed on December 7, 2022.

Review of Fire Insurance Maps

EDR was contracted to provide copies of fire insurance maps (i.e., Sanborns) for the subject property. The fire insurance maps were reviewed on December 5, 2022.

Review of City of Oakland Building Permit Records

Based on the sufficient amount of information obtained from the above sources, building permit records were not reviewed.

Other Historical Sources

Based on the sufficiency of historical information obtained for the purposes of this report, no additional historical sources were reviewed.

4.2 Summary of Subject Property and Adjacent Historical Uses

Table 3 Historical Use of the Subject Property and Adjoining Properties

Year	Source	Subject Property Use	Adjoining Property Use
1889	Sanborn Map (SM)	Vacant land	Northeast (NE): Two dwellings and two detached garages/sheds East (East): A dwelling, stable, and several additional structures Northwest (NW): Harrison Street followed by several dwellings, a shed, an automotive house, and a stable. ***Bold** listings indicate land uses with the potential to impact the subject property

4.3 Gaps in Historical Sources

One gap of greater than five years was identified in the historical records reviewed, from 1903 to 1911. This gap is considered insignificant because the subject property use appears to be similar prior to and following the gaps.

4.4 Historical Use Information of Concern

Based on Table 3 above, the following historical uses of the subject property have the potential to impact the subject property:

- Automotive Repair: 1938-1980

Based on Table 3 above, the following historical uses of the northwestern adjacent properties have the potential to impact the subject property:

- Gasoline Station (1633 Harrison Street): 1933-1970
- Automotive Repair (1519 Harrison Street): 1928
- Automotive Repair (1535 Harrison Street): 1943

5 Interviews

Rincon performed interviews regarding the subject property and surrounding areas. The purpose of the interviews was to discuss current and historical conditions and to obtain information indicating the presence of RECs in connection with the subject property.

5.1 Interview Summary

Interview with Owner

An interview questionnaire was provided to the property owner prior to the site reconnaissance. Carolanne Montgomery completed the Owner Questionnaire on December 9, 2022. A copy of the completed questionnaire is included in Appendix A. The following information is based on our review of the questionnaire completed by the property owner.

The property owner indicated the following:

- The subject property is currently a vacant commercial building.
- The subject property was formerly used as a transmission shop, warehouse for an engineering firm, and an office/warehouse for a general contractor.
- There are no hazardous materials or petroleum products stored or used on the subject property.
- No hazardous wastes are generated at the subject property.
- A title report is available for the subject property.

The property owner indicated that they are unaware of the presence of industrial drums, storage tanks (above or below ground), fill dirt, pits, ponds, lagoons, sumps, clarifiers, solvent degreasers, stained soil, vent pipes, fill pipes, or access ways, stained surfaces, private wells, non-public water systems, transformers, capacitors, or hydraulic equipment, records indicating the presence of polychlorinated biphenyls, or records indicating the presence of pesticides or herbicides at the subject property.

The property owner indicated that they are not aware of any pending, threatened, or past litigation or administrative proceedings relevant to hazardous substances or petroleum products in, on, or from the subject property. In addition, they are not aware of any notice from any government entity regarding any possible violation of environmental laws or possible liability relating to hazardous substances or petroleum products at the subject property.

Interview with Site Manager

A site manager was not identified to Rincon.

Interviews with Occupants

Because the on-site property is currently vacant, no occupants were interviewed as part of this research effort.

Interviews with Local Government Officials

Based on the sufficient amount of information obtained from various sources, no local government officials were interviewed as part of this Phase I ESA.

Interviews with Others

Rincon did not attempt to interview neighboring property owners or others as part of this Phase I ESA.

5.2 Interview Information of Concern

Based on the information obtained during interviews, no environmental concerns have been identified.

6 Site Reconnaissance

Rincon performed a reconnaissance of the subject property on November 13, 2022 accompanied by Jerry Young, Broker. The purpose of the reconnaissance was to observe existing subject property conditions and to obtain information indicating the presence of RECs in connection with the subject property.

6.1 Methodology and Limiting Conditions

The site reconnaissance was conducted by:

1. Observing the subject property from public thoroughfares,
2. Observing the adjacent properties from public thoroughfares,
3. Observing the interior of the on-site structures,
4. Observing the exterior of the structures,
5. Backtracking to correlate exterior features with interior features, as necessary, and
6. Observing the subject property from roads.

6.2 General Subject Property Information

Current Use of Property and Adjacent Properties

The subject property is currently a vacant commercial structure that was formerly utilized as an office space. Adjacent businesses/properties include parking lots, office spaces, and multi-family residences.

Past Use of Property and Adjacent Properties

Based on our site reconnaissance, the subject property appears to have several features along Harrison Street that could formerly have been rollup automotive doors. Past uses at the adjacent properties are not readily apparent.

Current or Past Uses in the Surrounding Areas

The subject property is surrounded by residential and commercial land uses as detailed in the Site Description section of this report. Past uses of the surrounding area are not readily apparent based on the site reconnaissance.

Geologic, Hydrogeologic, Hydrologic, and Topographic Conditions

Geologic, hydrogeologic, hydrologic, and topographic information are as previously stated in the Physical Setting Sources section of this report.

General Description of Structures

The subject property is currently a vacant commercial structure that was formerly utilized as an automotive repair facility, and more recently as offices and a warehouse.

Roads

Harrison Street is located adjacent to the northwest of the subject property.

Potable Water Supply

The East Bay Municipal Utility District currently supplies potable water to the subject property.

Sewage Disposal System

The subject property is connected to the East Bay Municipal Utility District sewer system.

Stormwater Runoff

Surface water runoff at the subject property appears to trend toward Harrison Street where storm drains are located.

6.3 Interior and/or Exterior Observations

Table 4 provides details regarding the interior and/or exterior observations noted during the site reconnaissance. Photographs 1 through 12 are shown below.

Table 4 Interior and/or Exterior Observations

Item	Observed	Photograph Number	Description
Hazardous Substances and Petroleum Products in Connection with Identified Uses	No	Not Applicable (N/A)	<i>None observed</i>
Aboveground or Underground Storage Tanks	No	N/A	<i>None observed</i>
Odors	No	N/A	<i>None noted</i>
Pools of Liquid	No	N/A	<i>None observed</i>
Drums	No	N/A	<i>None observed</i>
Hazardous Substances and Petroleum Products Containers Not in Connection with Identified Uses	No	N/A	<i>None observed</i>
Unidentified Substance Containers	No	N/A	<i>None observed</i>
Indications of Polychlorinated Biphenyls (PCBs)	No	N/A	<i>None observed</i>
Heating/Cooling Systems	No	N/A	<i>None observed</i>
Stains or Corrosion	Yes	7-9	Two potential oil stains observed in the southeastern corner of the structure and one potential water stain observed along the northeastern edge of the structure
Drains, Clarifiers, and Sumps	Yes	11	One floor drain located in the central portion of the structure. As well as one unknown feature with a wooden cover.
Degreasers/Parts Washers	No	N/A	<i>None observed</i>

Item	Observed	Photograph Number	Description
Pits, Ponds, and Lagoons	No	N/A	<i>None observed</i>
Stained Soil or Stained Pavement	Yes	7-9	Two potential oil stains observed in the southeastern corner of the structure and one potential water stain observed along the northeastern edge of the structure
Stressed Vegetation	No	N/A	<i>None observed</i>
Solid Waste/Debris	No	N/A	<i>None observed</i>
Wastewater	No	N/A	<i>None observed</i>
Wells	No	N/A	<i>None observed</i>
Septic Systems/Effluent Disposal Systems	No	N/A	<i>None observed</i>
Soil Piles	No	N/A	<i>None observed</i>
Fill Material	No	N/A	<i>None observed</i>

6.4 Site Reconnaissance Information of Concern

Based on the information obtained during the site reconnaissance, the following concerns have the potential to impact the subject property:

- Former automotive repair usage with unknown former features including, but not limited to, sumps, drains, hoists, etc.

Photographs 1-4

Photograph 1. Northeastern adjacent commercial offices

Photograph 2. Northwestern adjacent multi-family residences

Photograph 3. Northwestern adjacent commercial offices

Photograph 4. Southwestern adjacent parking lot followed by multi-family residences

Photographs 5-8

Photograph 5. Southeastern adjacent courtyard associated with adjacent multi-family residences

Photograph 6. Interior vacant office space

Photograph 7. Unknown staining in southeastern corner of commercial office space

Photograph 8. Potential water staining along the northeastern property boundary

Photographs 9-12

Photograph 9. Unknown staining in southeastern corner of commercial office space

Photograph 10. Unknown floor marking located in southeastern corner of commercial office space

Photograph 11. Floor drain in the central area of the commercial office space

Photograph 12. Utility hookups on subject property

7 Potential Vapor Migration

The database report and other resources were reviewed to identify nearby known or suspect contaminated sites that have the potential for contaminated vapor originating from the nearby sites to migrate beneath the subject property. Based on the ASTM E2600-15, *Standard Guide for Vapor Encroachment Screening on Property Involved in Real Estate Transactions*, the following minimum search distances were initially used to determine if contaminated soil vapors from a nearby known or suspect contaminated site have the potential to be migrating beneath the subject property:

- 1/10 mile (528 feet) for petroleum hydrocarbons
- 1/3 mile (1,760 feet) for other contaminants of concern (COCs)

Groundwater depth and flow direction is also utilized to determine risk of vapor migration. Groundwater in the vicinity of the subject property is reportedly present between 11 and 22 feet and flows to the northeast (Section 3.1).

If known or suspect contaminated sites are located:

- On-site or adjacent to the subject property,
- Within 100 feet, or
- Within the above referenced distances from the subject property and upgradient or crossgradient to the subject property,

Then, online resources are reviewed to determine the extent of the contaminated plume at those sites.

The following describes search distances for contaminated plumes of petroleum hydrocarbons (30 feet from the subject property) and other COCs (100 feet from the subject property). Per ASTM E2600-15, vapors associated with impacted soil or groundwater present within these distances have the potential to migrate beneath the subject property.

7.1 Petroleum Hydrocarbons

Known Petroleum Hydrocarbon Release Sites

Based on our review of the information gathered as part of this report, known on-site, adjacent, upgradient, and/or crossgradient release sites identified within 1/10 mile of the subject property are as follows:

Adjacent or Within 100 Feet

- 1633 Harrison Street – Former gasoline station (1933-1972), known closed LUST release case, soil and groundwater impacts, closed Alameda County LOP case; contamination identified at the site 115 feet from subject property

Nearby

- 1432 Harrison Street – Former automotive repair (1967-1970), known closed LUST release case, soil and groundwater impacts, closed San Francisco Bay RWQCB case; contamination identified at the site 380 feet from subject property

Suspect Petroleum Hydrocarbon Release Sites

Based on our review of the information gathered as part of this report, on-site, adjacent, upgradient, and/or crossgradient suspect release sites identified within 1/10 mile of the subject property are as follows:

Subject Property

- 1600 Harrison Street – Former automotive repair shop (1933-1992), unknown soil vapor, soil, and groundwater impacts

Nearby Properties

- Although not listed as release sites, several nearby properties within 1/8 mile of the subject property were listed on the historical auto stations or historical cleaner databases. Please note that the auto stations database listings may include parking garages, occupations of residents, auto stations, gas stations, repair stations, etc. and the cleaners database listings may include dry cleaning facilities, occupations, coin operated laundromats, home businesses, etc. A list of the historical auto stations and historical cleaners in the vicinity of the subject property is included beginning on page 107 of the EDR report (Appendix B).

7.2 Other COCs

Based on our review of the database report, there are no known or suspect sites impacted with other COCs within 1,760 feet of the subject property. Therefore, per ASTM E2600-15, as this distance exceeds the 100-foot distance considered the critical distance wherein such migration may pose a threat to the subject property, there are no potential threats to the subject property posed by the potential migration of other COC vapors from listed sites.

Suspect COC Release Sites

Based on our review of the information gathered as part of this report, on-site, adjacent, upgradient, and/or crossgradient suspect release sites identified within 1/3 mile of the subject property are as follows:

Adjacent or Within 100 Feet

- Although not listed as release sites, several nearby properties within 1/8 mile of the subject property were listed on the historical auto stations or historical cleaner databases. Please note that the auto stations database listings may include parking garages, occupations of residents, auto stations, gas stations, repair stations, etc. and the cleaners database listings may include dry cleaning facilities, occupations, coin operated laundromats, home businesses, etc. A list of the historical auto stations and historical cleaners in the vicinity of the subject property is included beginning on page 107 of the EDR report (Appendix B).

7.3 Vapor Intrusion Information of Concern

Based on the information above, petroleum hydrocarbons within 30 feet and other COCs within 100 feet have the potential to impact the subject property:

- 1600 Harrison Street – Former automotive repair shop (1933-1993), unknown soil vapor, soil, and groundwater impacts
- Although not listed as release sites, several nearby properties within 1/8 mile of the subject property were listed on the historical auto stations or historical cleaner databases. Please note that the auto stations database listings may include parking garages, occupations of residents, auto stations, gas stations, repair stations, etc. and the cleaners database listings may include dry cleaning facilities, occupations, coin operated laundromats, home businesses, etc. A list of the historical auto stations and historical cleaners in the vicinity of the subject property is included beginning on page 107 of the EDR report (Appendix B).

8 Evaluation

Rincon has performed a Phase I ESA in conformance with the scope and limitations of ASTM Practice E1527-13 and E1527-21 for the subject property located at 1600 Harrison Street, in Oakland, California. Any exceptions to, or deletions from, this practice are described in the Deviations section of this report. This assessment has revealed RECs in connection with the subject property, as detailed below in Table 5.

8.1 Significant Data Gaps

No significant data gaps were identified during the preparation of this report.

Table 5 Findings, Opinions, Conclusions, and Recommendations

No.	Finding	Opinion	Conclusion	Recommendations
1	Former use of subject property as automotive repair facility (1600 Harrison Street)	The subject property was formerly used as an automotive repair shop from at least 1938 to 1992. The former automotive repair usage may have included the use of subsurface features including, but not limited to, sumps, drains, hoists, etc. Because petroleum hydrocarbons and solvents are often associated with automotive repair shops, it is unknown if the former use of the subject property has impacted the site. Therefore, the former use of the subject property for automotive repair is considered a REC.	REC	Building Permit Review for Former Subsurface Feature Information Subsurface Investigation
2	Several nearby sites with potential vapor intrusion concerns	Although not listed as release sites, several nearby properties within 1/8 mile of the subject property were listed on the historical auto stations or historical cleaner databases. Therefore, the former nearby presence of automotive repair facilities and dry cleaners are considered a Notable Finding.	Notable Finding	Subsurface Investigation
3	Potential asbestos-containing materials and lead-based paint	Based on the age of the on-site structure (constructed as early as 1919), asbestos-containing materials (ACM) and lead-based paint (LBP) may be present on the subject property.	Notable Finding	ACM and LBP Survey
4	PFAS reported in groundwater at a nearby release site	Although PFAS was not reported in drinking water wells within 13 miles of the subject property, PFAS was detected in groundwater monitoring wells at levels above their respective notification and response levels at a Cleanup Program site located approximately 0.8 miles to the southwest of the subject property. Therefore, groundwater impacted with PFAS has the potential to be present beneath the subject property.	Notable finding	None however if redevelopment is planned and dewatering is required groundwater treatment may be necessary

We recommend a review of building permits from the 1930s through at least 1992 to identify the former locations of onsite subsurface features such as, but not limited to sumps, drains, and hoists.

To evaluate the potential subject property impact associated with the onsite former automotive repair shop and nearby automotive repair shops and dry cleaners, we recommend that a subsurface investigation be conducted.

Although not considered an REC, based on the age of the on-site structure (constructed as early as 1919), we recommend that an ACM and LBP survey be conducted.

In addition, although not considered a REC, based on the potential presence of PFAS in groundwater beneath the subject property if redevelopment is planned and dewatering is required groundwater treatment may be necessary.

10 Signatures of Environmental Professionals

The qualified environmental professionals that are responsible for preparing the report include Ryan Thacher and Julie Lynne Welch. Their qualifications are summarized in the following section.

“We declare that, to the best of our professional knowledge and belief, we meet the definition of Environmental Professional as defined in 312.10 of 40 CFR 312. We have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. We have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.”

11 Qualifications of Environmental Consultants

The environmental consultants responsible for conducting this Phase I ESA and preparing the report include Ryan Thacher, Julie Lynne Welch, and Janey Lange. Their qualifications are summarized below.

Environmental Professional Qualifications	X2.1.1 (2) (i) - Professional Engineer or Professional Geologist License or Registration, and 3 years of full-time relevant experience	X2.1.1 (2) (ii) - Licensed or certified by the Federal Government, State, Tribe, or U.S. Territory to perform environmental inquiries	X2.1.1 (2) (iii) – Baccalaureate or Higher Degree from and accredited institution of higher education in a discipline of engineering or science and the equivalent of 5 years of full-time relevant experience	X2.1.1 (2) (iii) – Equivalent of 10 years of full-time relevant experience
Ryan Thacher	PE		PhD Environmental Engineering	12 years
Julie Lynne Welch			BS Environmental Engineering	26 years
Tyler Sinnott			MS Environmental Sciences and Management	1 year
Janey Lange			BA Environmental Studies	< 1 year

Dr. Ryan Thacher, PE, is a Director of Site Assessment and Remediation with Rincon Consultants. He holds a Bachelor of Science degree in Chemical Engineering from the University of California, Santa Barbara and a Doctorate degree in Environmental Engineering from the University of Southern California. He has 12 years of experience conducting research related to chemical contaminant fate and transport in soil and groundwater and developing and implementing site assessments and remediation for contaminated sites in California, including the preparation of Phase I and Phase II Environmental Site Assessments. Dr. Thacher is a Professional Engineer (#87757) with the State of California.

Julie Lynne Welch serves as the Director of Rincon’s Due Diligence team, which involves the execution of hundreds of Phase I and II ESAs annually. Ms. Welch has 26 years of professional experience in the field of environmental science and assessment, during which time she has managed and contributed to a variety of successful land use, water and energy planning, and residential, commercial, industrial, and infrastructure projects.

She holds a Bachelor of Science degree in environmental engineering from Rensselaer Polytechnic Institute, Troy, New York, a Hazardous Materials Management Certificate from the University of California, Santa Barbara Extension program, and a Business Management Certificate from the University of California, San Diego Extension program.

Ms. Welch was also a member of the ASTM Committee E50 on Environmental Assessment, Risk Management and Corrective Action (2021) and routinely attends webinars and conferences regarding ASTM E1527-21 Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process.

Tyler Sinnott is an Environmental Scientist with Rincon Consultants. He holds a Bachelor of Science degree in Environmental Earth and Soil Sciences with a concentration in Hydrology and a Master of Science degree in Environmental Sciences and Management from California Polytechnic State University, San Luis Obispo. As an undergraduate and graduate student, Mr. Sinnott specialized in the topics of watershed hydrology, groundwater hydrology, soil sciences, and GIS. Mr. Sinnott's responsibilities at Rincon include working in the field and in the office on Phase I and Phase II Environmental Site Assessments, which includes collecting, analyzing, and reporting environmental data.

Janey Lange is an Environmental Scientist with Rincon Consultants. She holds a Bachelor of Arts degree in Environmental Studies from the University of San Diego. Ms. Lange's responsibilities at Rincon include implementation of Phase I ESAs and preparation of other environmental reports for a variety of commercial, rural, and industrial properties.

Appendix A

Interview Documentation

User Questionnaire

Rincon Project Number: _____

Site Name and Full Address: _____

To qualify for one of the Landowner Liability Protections (LLPs) offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the “Brownfields Amendments”), the user must provide the following information to the environmental professional. Failure to conduct these inquiries could result in a determination that “all appropriate inquiries” is not complete.

We respectfully request that you fill out this form and email it to Janey Lange at jlange@Rinconconsultants.com within one week from the date of this transmittal.

Project Description

1. Why is the Phase I ESA required or being performed?

2. What type of property transaction is planned? (i.e. sale, purchase, exchange)

3. What is the entire site address?

4. What is the Assessor’s Parcel Number(s)?

5. Are any considerations beyond the requirements of Practice E1527 to be considered? (i.e. lien search, asbestos & lead based paint, radon)

Rincon Project Number: _____

Site Name and Full Address: _____

6. Identify all parties who will rely on the Phase I report.

7. Identify the Site Manager/Contact and how the contact can be reached.

8. Identify the Site Owner and how the owner can be reached.

9. Do you have copies of any available prior environmental site assessment reports, documents, correspondence, etc., concerning any other knowledge or experience with the property that may be pertinent to the environmental professional (i.e. lien search, title report, chain of title, previous Ph I and II ESAs, Environmental Impact Studies)?

Rincon Project Number: _____

Site Name and Full Address: _____

Subject Property Information

1. Did a search of recorded land title records (or judicial records, where appropriate) identify any environmental liens filed or recorded against the property?

Please mark the box with the most appropriate response:

- I **have not** reviewed the records and **do not know** if there are any filed or recorded environmental liens.
- I **have** reviewed the records, and **No, there aren't any** filed or recorded environmental liens.
- I **have** reviewed the records, and **Yes, there are** environmental liens. Explain:

2. Did a search of recorded land title records (or judicial records, where appropriate) identify any activity and land use limitations (AULs), such as engineering controls, land use restrictions or institutional controls that are in place at the property and/or have been filed or recorded against the property under federal, tribal, state or local law?

Please mark the box with the most appropriate response:

- I **have not** reviewed the records and **do not know** if there are any filed/recorded AULs or any AULs in place at the site.
- I **have** reviewed the records, and **No, there aren't any** filed/recorded AULs or any AULs in place at the site.
- I **have** reviewed the records, and **Yes, there are** AULs filed, recorded, and/or in place at the site. Explain:

3. Does the Title Report provide any information pertaining to environmental cleanup liens or activity and use limitations (AULs) for the subject property?

Please mark the box with the most appropriate response:

- I **have not** reviewed the Title Report and **do not know** if it provides environmental cleanup liens or AULs information.
- I **have** reviewed the Title Report, and **No, it does not provide** environmental cleanup liens or AULs information..
- I **have** reviewed the Title Report, and **Yes, it does provide** environmental cleanup liens or AULs information. Explain:

Rincon Project Number: _____

Site Name and Full Address: _____

4. Do you have any specialized knowledge or experience related to the property or nearby properties? For example, are you involved in the same line of business as the current or former **occupants** of the **property** or an **adjoining property** so that you would have specialized knowledge of the chemicals and processes used by this type of business?

Please mark the box with the most appropriate response:

- No, I do not** have any specialized knowledge and/or experience related to the property or nearby properties.
- Yes, I **do** have specialized knowledge and/or experience related to the property or nearby properties. Explain:

5. As the user of this ESA, based on your knowledge and experience related to the property, are you aware of any information pertaining to a reduction in value for the subject property relative to any known environmental issues?

Please mark the box with the most appropriate response:

- No, I do not** have any information about a reduction in property value relative to environmental issues.
- Yes, I do** have information about a reduction in property value relative to environmental issues. Explain:

6. Does the purchase price being paid for this property reasonably reflect the fair market value of the property?

Please mark the box with the most appropriate response:

- Yes, I do** believe the purchase price being paid for this property reasonably reflects the fair market value of the property. Skip to question #7.
- No, I do not** believe the purchase price being paid for this property reasonably reflects the fair market value of the property. Proceed to question #6a.

- a. If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the property? (40 CFR 312.29)

Please mark the box with the most appropriate response

- No, I have not** considered the idea that known or believed contamination at the site has caused the lower purchase price.
- Yes, I have** considered the idea that known or believed contamination at the site has caused the lower purchase price. Explain:

Rincon Project Number: _____

Site Name and Full Address: _____

7. Are you aware of commonly known or reasonably ascertainable information about the property that would help the environmental professional to identify conditions indicative of releases or threatened releases? For example:

Please mark the box with the most appropriate response:

a. Do you know the past uses of the property?

I **do not** know.

I **do** know. Explain:

b. Do you know of specific chemicals are present or once were present at the property?

I **do not** know.

I **do** know. Explain:

c. Do you know of any spills or other chemical releases that have taken place at the property?

I **do not** know.

I **do** know. Explain:

d. Do you know of any environmental cleanups have taken place at the property?

I **do not** know.

I **do** know. Explain:

8. Based on your knowledge and experience related to the property are there any obvious indicators that point to the presence or likely presence of releases at the property?

Please mark the box with the most appropriate response:

No, I do not know and/or do not have any experience with any obvious indicators that point to the presence or likely presence of contamination at the property.

Yes, I do know of and/or do have experience with obvious indicators that point to the presence or likely presence of contamination at the property. Explain:

Rincon Project Number: _____

Site Name and Full Address: _____

9. Are you aware of any pending, threatened, or past litigation relevant to hazardous substances or petroleum products, in, on, or from the site?

Please mark the box with the most appropriate response:

No, I am not aware of any pending, threatened, or past litigation relevant to hazardous substances or petroleum products, in, on, or from the site.

Yes, I am aware of pending, threatened, or past administrative proceedings relevant to hazardous substances or petroleum products in, on, or from the site. Explain:

10. Are you aware of any pending, threatened, or past administrative proceedings relevant to hazardous substances or petroleum products in, on, or from the site?

Please mark the box with the most appropriate response:

No, I am not aware of any pending, threatened, or past administrative proceedings relevant to hazardous substances or petroleum products in, on, or from the site.

Yes, I am aware of pending, threatened, or past administrative proceedings relevant to hazardous substances or petroleum products in, on, or from the site. Explain:

11. Are you aware of any notice from any government entity regarding any possible violation of environmental laws or possible liability relating to hazardous substances or petroleum products?

Please mark the box with the most appropriate response:

No, I am not aware of any notice from any government entity regarding any possible violation of environmental laws or possible liability relating to hazardous substances or petroleum products..

Yes, I am aware of a notice, or notices, from a government entity (or multiple government entities) regarding a possible violation of environmental laws or possible liability relating to hazardous substances or petroleum products. Explain:

PRELIMINARY REPORT

*In response to the application for a policy of title insurance referenced herein, **Chicago Title Company** hereby reports that it is prepared to issue, or cause to be issued, as of the date hereof, a policy or policies of title insurance describing the land and the estate or interest therein hereinafter set forth, insuring against loss which may be sustained by reason of any defect, lien or encumbrance not shown or referred to as an exception herein or not excluded from coverage pursuant to the printed Schedules, Conditions and Stipulations or Conditions of said policy forms.*

The printed Exceptions and Exclusions from the coverage and Limitations on Covered Risks of said policy or policies are set forth in Attachment One. The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than that set forth in the arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties. Limitations on Covered Risks applicable to the CLTA and ALTA Homeowner's Policies of Title Insurance which establish a Deductible Amount and a Maximum Dollar Limit of Liability for certain coverages are also set forth in Attachment One. Copies of the policy forms should be read. They are available from the office which issued this report.

This report (and any supplements or amendments hereto) is issued solely for the purpose of facilitating the issuance of a policy of title insurance and no liability is assumed hereby. If it is desired that liability be assumed prior to the issuance of a policy of title insurance, a Binder or Commitment should be requested.

The policy(s) of title insurance to be issued hereunder will be policy(s) of Chicago Title Insurance Company, a Florida Corporation.

Please read the exceptions shown or referred to herein and the exceptions and exclusions set forth in Attachment One of this report carefully. The exceptions and exclusions are meant to provide you with notice of matters which are not covered under the terms of the title insurance policy and should be carefully considered.

It is important to note that this preliminary report is not a written representation as to the condition of title and may not list all liens, defects and encumbrances affecting title to the land.

- 4. The lien of supplemental or escaped assessments of property taxes, if any, made pursuant to the provisions of Chapter 3.5 (commencing with Section 75) or Part 2, Chapter 3, Articles 3 and 4, respectively, of the Revenue and Taxation Code of the State of California as a result of the transfer of title to the vestee named in Schedule A or as a result of changes in ownership or new construction occurring prior to Date of Policy.
- 5. Prior to close of escrow, please contact the Tax Collector's Office to confirm all amounts owing, including current fiscal year taxes, supplemental taxes, escaped assessments and any delinquencies.

**EXCEPTIONS
(Continued)**

6. Matters contained in that certain document

Entitled: Postponement of Mandatory Requirements of the Unreinforced Masonry Hazard Mitigation Ordinance/Hold Harmless Agreement
Dated: September 22, 1994
Executed by: Lee Montgomery and the City of Oakland
Recording Date: October 11, 1994
[Recording No: 94-329564, of Official Records](#)

Reference is hereby made to said document for full particulars.

7. Matters contained in that certain document

Entitled: Encroachment Agreement
Dated: October 19, 2006
Executed by: Lee Montgomery, et ux and Crescendo LLC, a California limited liability company, et al
Recording Date: August 7, 2007
[Recording No: 2007-291687, of Official Records](#)

Reference is hereby made to said document for full particulars.

8. A notice that said Land is included within a project area of the Redevelopment Agency shown below, and that proceedings for the redevelopment of said project have been instituted under the Redevelopment Law (such redevelopment to proceed only after the adoption of the redevelopment plan) as disclosed by a document

Recording Date: December 3, 2007
[Recording No: 2007-409569, of Official Records](#)
Redevelopment Agency: City of Oakland Central District Redevelopment Project

9. Any rights of the parties in possession of a portion of, or all of, said Land, which rights are not disclosed by the public records.

The Company will require, for review, a full and complete copy of any unrecorded agreement, contract, license and/or lease, together with all supplements, assignments and amendments thereto, before issuing any policy of title insurance without excepting this item from coverage.

The Company reserves the right to except additional items and/or make additional requirements after reviewing said documents.

10. Any invalidity or defect in the title of the vestees in the event that the trust referred to herein is invalid or fails to grant sufficient powers to the trustee(s) or in the event there is a lack of compliance with the terms and provisions of the trust instrument.

If title is to be insured in the trustee(s) of a trust, (or if their act is to be insured), this Company will require a Trust Certification pursuant to California Probate Code Section 18100.5.

The Company reserves the right to add additional items or make further requirements after review of the requested documentation.

**EXCEPTIONS
(Continued)**

- 11. The search did not disclose any open mortgages or deeds of trust of record, therefore the Company reserves the right to require further evidence to confirm that the property is unencumbered, and further reserves the right to make additional requirements or add additional items or exceptions upon receipt of the requested evidence.
- 12. The Company will require that an Owner's Affidavit be completed by the party(s) named below before the issuance of any policy of title insurance.

Party(s): Carolanne Montgomery, Trustee, Trust one under Lee and Carolanne
Montgomery Living Trust, dated December 7, 2000

The Company reserves the right to add additional items or make further requirements after review of the requested Affidavit.

END OF EXCEPTIONS

NOTES SECTION

1. Note: The Company is not aware of any matters which would cause it to decline to attach CLTA Endorsement Form 116 indicating that there is located on said Land a Commercial Property, known as 1600 Harrison Street, Oakland, CA, to an Extended Coverage Loan Policy.
2. Note: The name(s) of the proposed insured(s) furnished with this application for title insurance is/are:
 Name(s) furnished: Oakland Housing Authority
 If these name(s) are incorrect, incomplete or misspelled, please notify the Company.
3. Note: There are NO conveyances affecting said Land recorded within 24 months of the date of this report.
4. Effective January 1, 2019, as mandated through local ordinance, the transfer tax rates are as follows:

Full Value of Real Property Conveyed	Transfer Tax Rate
\$300,000 and less	1%
\$300,001 to \$2,000,000	1.5%
\$2,000,001 to \$5,000,000	1.75%
\$5,000,001 and above	2.5%

NOTE: These rates are for documents recorded on or after January 1, 2019, regardless of when the instrument was executed.
5. Notice: Please be aware that due to the conflict between federal and state laws concerning the cultivation, distribution, manufacture or sale of marijuana, the Company is not able to close or insure any transaction involving Land that is associated with these activities.
6. The application for title insurance was placed by reference to only a street address or tax identification number. The proposed Insured must confirm that the legal description in this report covers the parcel(s) of Land requested to be insured. If the legal description is incorrect, the proposed Insured must notify the Company and/or the settlement company in order to prevent errors and to be certain that the legal description for the intended parcel(s) of Land will appear on any documents to be recorded in connection with this transaction and on the policy of title insurance.
7. Note: If a county recorder, title insurance company, escrow company, real estate broker, real estate agent or association provides a copy of a declaration, governing document or deed to any person, California law requires that the document provided shall include a statement regarding any unlawful restrictions. Said statement is to be in at least 14-point bold face type and may be stamped on the first page of any document provided or included as a cover page attached to the requested document. Should a party to this transaction request a copy of any document reported herein that fits this category, the statement is to be included in the manner described.
8. Note: Any documents being executed in conjunction with this transaction must be signed in the presence of an authorized Company employee, an authorized employee of a Company agent, an authorized employee of the insured lender, or by using Bancserv or other Company-approved third-party service. If the above requirement cannot be met, please call the Company at the number provided in this report.
9. Pursuant to Government Code Section 27388.1, as amended and effective as of 1-1-2018, a Documentary Transfer Tax (DTT) Affidavit may be required to be completed and submitted with each document when DTT is being paid or when an exemption is being claimed from paying the tax. If a governmental agency is a party to the document, the form will not be required. DTT Affidavits may be available at a Tax Assessor-County Clerk-Recorder.

**NOTES
(Continued)**

10. Note: The policy of title insurance will include an arbitration provision. The Company or the insured may demand arbitration. Arbitrable matters may include, but are not limited to, any controversy or claim between the Company and the insured arising out of or relating to this policy, any service of the Company in connection with its issuance or the breach of a policy provision or other obligation. Please ask your escrow or title officer for a sample copy of the policy to be issued if you wish to review the arbitration provisions and any other provisions pertaining to your Title Insurance coverage.
11. Due to the special requirements of SB 50 (California Public Resources Code Section 8560 et seq.), any transaction that includes the conveyance of title by an agency of the United States must be approved in advance by the Company's State Counsel, Regional Counsel, or one of their designees.

END OF NOTES

Kevin Davis/555

Wire Fraud Alert

This Notice is not intended to provide legal or professional advice. If you have any questions, please consult with a lawyer.

All parties to a real estate transaction are targets for wire fraud and many have lost hundreds of thousands of dollars because they simply relied on the wire instructions received via email, without further verification. **If funds are to be wired in conjunction with this real estate transaction, we strongly recommend verbal verification of wire instructions through a known, trusted phone number prior to sending funds.**

In addition, the following non-exclusive self-protection strategies are recommended to minimize exposure to possible wire fraud.

- **NEVER RELY** on emails purporting to change wire instructions. Parties to a transaction rarely change wire instructions in the course of a transaction.
- **ALWAYS VERIFY** wire instructions, specifically the ABA routing number and account number, by calling the party who sent the instructions to you. **DO NOT** use the phone number provided in the email containing the instructions, use phone numbers you have called before or can otherwise verify. **Obtain the phone number of relevant parties to the transaction as soon as an escrow account is opened.** **DO NOT** send an email to verify as the email address may be incorrect or the email may be intercepted by the fraudster.
- **USE COMPLEX EMAIL PASSWORDS** that employ a combination of mixed case, numbers, and symbols. Make your passwords greater than eight (8) characters. Also, change your password often and do **NOT** reuse the same password for other online accounts.
- **USE MULTI-FACTOR AUTHENTICATION** for email accounts. Your email provider or IT staff may have specific instructions on how to implement this feature.

For more information on wire-fraud scams or to report an incident, please refer to the following links:

Notice of Available Discounts

Pursuant to Section 2355.3 in Title 10 of the California Code of Regulations Fidelity National Financial, Inc. and its subsidiaries ("FNF") must deliver a notice of each discount available under our current rate filing along with the delivery of escrow instructions, a preliminary report or commitment. Please be aware that the provision of this notice does not constitute a waiver of the consumer's right to be charged the filed rate. As such, your transaction may not qualify for the below discounts.

You are encouraged to discuss the applicability of one or more of the below discounts with a Company representative. These discounts are generally described below; consult the rate manual for a full description of the terms, conditions and requirements for such discount. These discounts only apply to transactions involving services rendered by the FNF Family of Companies. This notice only applies to transactions involving property improved with a one-to-four family residential dwelling.

Not all discounts are offered by every FNF Company. The discount will only be applicable to the FNF Company as indicated by the named discount.

FIDELITY NATIONAL FINANCIAL, INC. PRIVACY NOTICE

Effective August 1, 2021

Fidelity National Financial, Inc. and its majority-owned subsidiary companies (collectively, “FNF,” “our,” or “we”) respect and are committed to protecting your privacy. This Privacy Notice explains how we collect, use, and protect personal information, when and to whom we disclose such information, and the choices you have about the use and disclosure of that information.

A limited number of FNF subsidiaries have their own privacy notices. If a subsidiary has its own privacy notice, the privacy notice will be available on the subsidiary’s website and this Privacy Notice does not apply.

Collection of Personal Information

FNF may collect the following categories of Personal Information:

- contact information (e.g., name, address, phone number, email address);
- demographic information (e.g., date of birth, gender, marital status);
- identity information (e.g. Social Security Number, driver’s license, passport, or other government ID number);
- financial account information (e.g. loan or bank account information); and
- other personal information necessary to provide products or services to you.

We may collect Personal Information about you from:

- information we receive from you or your agent;
- information about your transactions with FNF, our affiliates, or others; and
- information we receive from consumer reporting agencies and/or governmental entities, either directly from these entities or through others.

Collection of Browsing Information

FNF automatically collects the following types of Browsing Information when you access an FNF website, online service, or application (each an “FNF Website”) from your Internet browser, computer, and/or device:

- Internet Protocol (IP) address and operating system;
- browser version, language, and type;
- domain name system requests; and
- browsing history on the FNF Website, such as date and time of your visit to the FNF Website and visits to the pages within the FNF Website.

Like most websites, our servers automatically log each visitor to the FNF Website and may collect the Browsing Information described above. We use Browsing Information for system administration, troubleshooting, fraud investigation, and to improve our websites. Browsing Information generally does not reveal anything personal about you, though if you have created a user account for an FNF Website and are logged into that account, the FNF Website may be able to link certain browsing activity to your user account.

Other Online Specifics

Cookies. When you visit an FNF Website, a “cookie” may be sent to your computer. A cookie is a small piece of data that is sent to your Internet browser from a web server and stored on your computer’s hard drive. Information gathered using cookies helps us improve your user experience. For example, a cookie can help the website load properly or can customize the display page based on your browser type and user preferences. You can choose whether or not to accept cookies by changing your Internet browser settings. Be aware that doing so may impair or limit some functionality of the FNF Website.

Web Beacons. We use web beacons to determine when and how many times a page has been viewed. This information is used to improve our websites.

Do Not Track. Currently our FNF Websites do not respond to “Do Not Track” features enabled through your browser.

Links to Other Sites. FNF Websites may contain links to unaffiliated third-party websites. FNF is not responsible for the privacy practices or content of those websites. We recommend that you read the privacy policy of every website you visit.

Use of Personal Information

FNF uses Personal Information for three main purposes:

- To provide products and services to you or in connection with a transaction involving you.
- To improve our products and services.
- To communicate with you about our, our affiliates’, and others’ products and services, jointly or independently.

When Information Is Disclosed

We may disclose your Personal Information and Browsing Information in the following circumstances:

- to enable us to detect or prevent criminal activity, fraud, material misrepresentation, or nondisclosure;
- to nonaffiliated service providers who provide or perform services or functions on our behalf and who agree to use the information only to provide such services or functions;

- to nonaffiliated third party service providers with whom we perform joint marketing, pursuant to an agreement with them to jointly market financial products or services to you;
- to law enforcement or authorities in connection with an investigation, or in response to a subpoena or court order; or
- in the good-faith belief that such disclosure is necessary to comply with legal process or applicable laws, or to protect the rights, property, or safety of FNF, its customers, or the public.

The law does not require your prior authorization and does not allow you to restrict the disclosures described above. Additionally, we may disclose your information to third parties for whom you have given us authorization or consent to make such disclosure. We do not otherwise share your Personal Information or Browsing Information with nonaffiliated third parties, except as required or permitted by law. We may share your Personal Information with affiliates (other companies owned by FNF) to directly market to you. Please see "Choices with Your Information" to learn how to restrict that sharing.

We reserve the right to transfer your Personal Information, Browsing Information, and any other information, in connection with the sale or other disposition of all or part of the FNF business and/or assets, or in the event of bankruptcy, reorganization, insolvency, receivership, or an assignment for the benefit of creditors. By submitting Personal Information and/or Browsing Information to FNF, you expressly agree and consent to the use and/or transfer of the foregoing information in connection with any of the above described proceedings.

Security of Your Information

We maintain physical, electronic, and procedural safeguards to protect your Personal Information.

Choices With Your Information

If you do not want FNF to share your information among our affiliates to directly market to you, you may send an "opt out" request as directed at the end of this Privacy Notice. We do not share your Personal Information with nonaffiliates for their use to direct market to you without your consent.

Whether you submit Personal Information or Browsing Information to FNF is entirely up to you. If you decide not to submit Personal Information or Browsing Information, FNF may not be able to provide certain services or products to you.

For California Residents: We will not share your Personal Information or Browsing Information with nonaffiliated third parties, except as permitted by California law. For additional information about your California privacy rights, please visit the "California Privacy" link on our website (<https://fnf.com/pages/californiaprivacy.aspx>) or call (888) 413-1748.

For Nevada Residents: You may be placed on our internal Do Not Call List by calling (888) 714-2710 or by contacting us via the information set forth at the end of this Privacy Notice. Nevada law requires that we also provide you with the following contact information: Bureau of Consumer Protection, Office of the Nevada Attorney General, 555 E. Washington St., Suite 3900, Las Vegas, NV 89101; Phone number: (702) 486-3132; email: BCPINFO@ag.state.nv.us.

For Oregon Residents: We will not share your Personal Information or Browsing Information with nonaffiliated third parties for marketing purposes, except after you have been informed by us of such sharing and had an opportunity to indicate that you do not want a disclosure made for marketing purposes.

For Vermont Residents: We will not disclose information about your creditworthiness to our affiliates and will not disclose your personal information, financial information, credit report, or health information to nonaffiliated third parties to market to you, other than as permitted by Vermont law, unless you authorize us to make those disclosures.

Information From Children

The FNF Websites are not intended or designed to attract persons under the age of eighteen (18). We do not collect Personal Information from any person that we know to be under the age of thirteen (13) without permission from a parent or guardian.

International Users

FNF's headquarters is located within the United States. If you reside outside the United States and choose to provide Personal Information or Browsing Information to us, please note that we may transfer that information outside of your country of residence. By providing FNF with your Personal Information and/or Browsing Information, you consent to our collection, transfer, and use of such information in accordance with this Privacy Notice.

FNF Website Services for Mortgage Loans

Certain FNF companies provide services to mortgage loan servicers, including hosting websites that collect customer information on behalf of mortgage loan servicers (the "Service Websites"). The Service Websites may contain links to both this Privacy Notice and the mortgage loan servicer or lender's privacy notice. The sections of this Privacy Notice titled When Information is Disclosed, Choices with Your Information, and Accessing and Correcting Information do not apply to the Service Websites. The mortgage loan servicer or lender's privacy notice governs use, disclosure, and access to your Personal Information. FNF does not share Personal Information collected through the Service Websites, except as required or authorized by contract with the mortgage loan servicer or lender, or as required by law or in the good-faith belief that such disclosure is necessary: to comply with a legal process or applicable law, to enforce this Privacy Notice, or to protect the rights, property, or safety of FNF or the public.

Your Consent To This Privacy Notice; Notice Changes

By submitting Personal Information and/or Browsing Information to FNF, you consent to the collection and use of the information in accordance with this Privacy Notice. We may change this Privacy Notice at any time. The Privacy Notice's effective date will show the last date changes were made. If you provide information to us following any change of the Privacy Notice, that signifies your assent to and acceptance of the changes to the Privacy Notice.

Accessing and Correcting Information; Contact Us

If you have questions, would like to correct your Personal Information, or want to opt-out of information sharing for affiliate marketing, visit FNF's [Opt Out Page](#) or contact us by phone at (888) 714-2710 or by mail to:

ATTACHMENT ONE (Revised 05-06-16)

CALIFORNIA LAND TITLE ASSOCIATION STANDARD COVERAGE POLICY – 1990

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance or governmental regulation (including but not limited to building or zoning laws, ordinances, or regulations) restricting, regulating, prohibiting or relating (i) the occupancy, use, or enjoyment of the land; (ii) the character, dimensions or location of any improvement now or hereafter erected on the land; (iii) a separation in ownership or a change in the dimensions or area of the land or any parcel of which the land is or was a part; or (iv) environmental protection, or the effect of any violation of these laws, ordinances or governmental regulations, except to the extent that a notice of the enforcement thereof or a notice of a defect, lien, or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
- (b) Any governmental police power not excluded by (a) above, except to the extent that a notice of the exercise thereof or notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
2. Rights of eminent domain unless notice of the exercise thereof has been recorded in the public records at Date of Policy, but not excluding from coverage any taking which has occurred prior to Date of Policy which would be binding on the rights of a purchaser for value without knowledge.
3. Defects, liens, encumbrances, adverse claims or other matters:
 - (a) whether or not recorded in the public records at Date of Policy, but created, suffered, assumed or agreed to by the insured claimant;
 - (b) not known to the Company, not recorded in the public records at Date of Policy, but known to the insured claimant and not disclosed in writing to the Company by the insured claimant prior to the date the insured claimant became an insured under this policy;
 - (c) resulting in no loss or damage to the insured claimant;
 - (d) attaching or created subsequent to Date of Policy; or
 - (e) resulting in loss or damage which would not have been sustained if the insured claimant had paid value for the insured mortgage or for the estate or interest insured by this policy.
4. Unenforceability of the lien of the insured mortgage because of the inability or failure of the insured at Date of Policy, or the inability or failure of any subsequent owner of the indebtedness, to comply with the applicable doing business laws of the state in which the land is situated.
5. Invalidity or unenforceability of the lien of the insured mortgage, or claim thereof, which arises out of the transaction evidenced by the insured mortgage and is based upon usury or any consumer credit protection or truth in lending law.
6. Any claim, which arises out of the transaction vesting in the insured the estate of interest insured by this policy or the transaction creating the interest of the insured lender, by reason of the operation of federal bankruptcy, state insolvency or similar creditors' rights laws.

EXCEPTIONS FROM COVERAGE - SCHEDULE B, PART I

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of:

1. Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the public records.
Proceedings by a public agency which may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the public records.
2. Any facts, rights, interests, or claims which are not shown by the public records but which could be ascertained by an inspection of the land or which may be asserted by persons in possession thereof.
3. Easements, liens or encumbrances, or claims thereof, not shown by the public records.
4. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other facts which a correct survey would disclose, and which are not shown by the public records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b) or (c) are shown by the public records.
6. Any lien or right to a lien for services, labor or material not shown by the public records.

CLTA HOMEOWNER'S POLICY OF TITLE INSURANCE (12-02-13) ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE

EXCLUSIONS

In addition to the Exceptions in Schedule B, You are not insured against loss, costs, attorneys' fees, and expenses resulting from:

1. Governmental police power, and the existence or violation of those portions of any law or government regulation concerning:
 - a. building;
 - b. zoning;
 - c. land use;
 - d. improvements on the Land;
 - e. land division; and
 - f. environmental protection.This Exclusion does not limit the coverage described in Covered Risk 8.a., 14, 15, 16, 18, 19, 20, 23 or 27.
2. The failure of Your existing structures, or any part of them, to be constructed in accordance with applicable building codes. This Exclusion does not limit the coverage described in Covered Risk 14 or 15.
3. The right to take the Land by condemning it. This Exclusion does not limit the coverage described in Covered Risk 17.
4. Risks:
 - a. that are created, allowed, or agreed to by You, whether or not they are recorded in the Public Records;
 - b. that are Known to You at the Policy Date, but not to Us, unless they are recorded in the Public Records at the Policy Date;

- c. that result in no loss to You; or
 - d. that first occur after the Policy Date - this does not limit the coverage described in Covered Risk 7, 8.e., 25, 26, 27 or 28.
5. Failure to pay value for Your Title.
 6. Lack of a right:
 - a. to any land outside the area specifically described and referred to in paragraph 3 of Schedule A; and
 - b. in streets, alleys, or waterways that touch the Land.
 This Exclusion does not limit the coverage described in Covered Risk 11 or 21.
 7. The transfer of the Title to You is invalid as a preferential transfer or as a fraudulent transfer or conveyance under federal bankruptcy, state insolvency, or similar creditors' rights laws.
 8. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake, or subsidence.
 9. Negligence by a person or an Entity exercising a right to extract or develop minerals, water, or any other substances.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows:

- For Covered Risk 16, 18, 19, and 21 Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.

The deductible amounts and maximum dollar limits shown on Schedule A are as follows:

	Your Deductible Amount	Our Maximum Dollar Limit of Liability
Covered Risk 16:	1.00% of Policy Amount Shown in Schedule A or \$2,500.00 (whichever is less)	\$ 10,000.00
Covered Risk 18:	1.00% of Policy Amount Shown in Schedule A or \$5,000.00 (whichever is less)	\$ 25,000.00
Covered Risk 19:	1.00% of Policy Amount Shown in Schedule A or \$5,000.00 (whichever is less)	\$ 25,000.00
Covered Risk 21:	1.00% of Policy Amount Shown in Schedule A or \$2,500.00 (whichever is less)	\$ 5,000.00

2006 ALTA LOAN POLICY (06-17-06)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
 - (i) the occupancy, use, or enjoyment of the Land;
 - (ii) the character, dimensions, or location of any improvement erected on the Land;
 - (iii) the subdivision of land; or
 - (iv) environmental protection;
 or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
- (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
 - (a) created, suffered, assumed, or agreed to by the Insured Claimant;
 - (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
 - (c) resulting in no loss or damage to the Insured Claimant;
 - (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 13 or 14); or
 - (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury or any consumer credit protection or truth-in-lending law.
6. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
 - (a) a fraudulent conveyance or fraudulent transfer, or
 - (b) a preferential transfer for any reason not stated in Covered Risk 13(b) of this policy.
7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the Insured Mortgage in the Public Records. This Exclusion does not modify or limit the coverage provided under Covered Risk 11(b).

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

{Except as provided in Schedule B - Part II, {t{or T}his policy does not insure against loss or damage, and the Company will not pay costs, attorneys' fees or expenses, that arise by reason of:

{PART I

{The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor or material not shown by the Public Records.}

PART II

In addition to the matters set forth in Part I of this Schedule, the Title is subject to the following matters, and the Company insures against loss or damage sustained in the event that they are not subordinate to the lien of the Insured Mortgage:}

2006 ALTA OWNER'S POLICY (06-17-06)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
 - (i) the occupancy, use, or enjoyment of the Land;
 - (ii) the character, dimensions, or location of any improvement erected on the Land;
 - (iii) the subdivision of land; or
 - (iv) environmental protection;or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
- (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
 - (a) created, suffered, assumed, or agreed to by the Insured Claimant;
 - (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
 - (c) resulting in no loss or damage to the Insured Claimant;
 - (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 9 and 10); or
 - (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Title.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction vesting the Title as shown in Schedule A, is
 - (a) a fraudulent conveyance or fraudulent transfer; or
 - (b) a preferential transfer for any reason not stated in Covered Risk 9 of this policy.
5. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage, and the Company will not pay costs, attorneys' fees or expenses, that arise by reason of:

{The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown in the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and that are not shown by the Public Records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor or material not shown by the Public Records. }
7. {Variable exceptions such as taxes, easements, CC&R's, etc. shown here.}

ALTA EXPANDED COVERAGE RESIDENTIAL LOAN POLICY – ASSESSMENTS PRIORITY (04-02-15)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
 - (i) the occupancy, use, or enjoyment of the Land;
 - (ii) the character, dimensions, or location of any improvement erected on the Land;
 - (iii) the subdivision of land; or
 - (iv) environmental protection;or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.
- (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
 - (a) created, suffered, assumed, or agreed to by the Insured Claimant;
 - (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
 - (c) resulting in no loss or damage to the Insured Claimant;
 - (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 16, 17, 18, 19, 20, 21, 22, 23, 24, 27 or 28); or
 - (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury, or any consumer credit protection or truth-in-lending law. This Exclusion does not modify or limit the coverage provided in Covered Risk 26.
6. Any claim of invalidity, unenforceability or lack of priority of the lien of the Insured Mortgage as to Advances or modifications made after the Insured has Knowledge that the vestee shown in Schedule A is no longer the owner of the estate or interest covered by this policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11.
7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching subsequent to Date of Policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11(b) or 25.
8. The failure of the residential structure, or any portion of it, to have been constructed before, on or after Date of Policy in accordance with applicable building codes. This Exclusion does not modify or limit the coverage provided in Covered Risk 5 or 6.
9. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
 - (a) a fraudulent conveyance or fraudulent transfer, or
 - (b) a preferential transfer for any reason not stated in Covered Risk 27(b) of this policy.
10. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake, or subsidence.
11. Negligence by a person or an Entity exercising a right to extract or develop minerals, water, or any other substances.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

EXECUTIVE SUMMARY

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

A review of the SEMS-ARCHIVE list, as provided by EDR, and dated 10/27/2022 has revealed that there is 1 SEMS-ARCHIVE site within approximately 0.5 miles of the target property.

Lists of Federal RCRA facilities undergoing Corrective Action

CORRACTS: CORRACTS is a list of handlers with RCRA Corrective Action Activity. This report shows which nationally-defined corrective action core events have occurred for every handler that has had corrective action activity.

A review of the CORRACTS list, as provided by EDR, and dated 06/20/2022 has revealed that there are 2 CORRACTS sites within approximately 1 mile of the target property.

EXECUTIVE SUMMARY

Lists of Federal RCRA generators

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 06/20/2022 has revealed that there are 4 RCRA-LQG sites within approximately 0.25 miles of the target property.

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 06/20/2022 has revealed that there are 12 RCRA-SQG sites within approximately 0.25 miles of the target property.

Lists of state- and tribal hazardous waste facilities

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information

EXECUTIVE SUMMARY

that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 07/25/2022 has revealed that there are 23 ENVIROSTOR sites within approximately 1 mile of the target property.

CPS-SLIC: Cleanup Program Sites (CPS; also known as Site Cleanups [SC] and formerly known as Spills, Leaks, Investigations, and Cleanups [SLIC] sites) included in GeoTracker. GeoTracker is the Water Boards data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

A review of the CPS-SLIC list, as provided by EDR, has revealed that there are 35 CPS-SLIC sites within approximately 0.5 miles of the target property.

Alameda County CS: A listing of contaminated sites overseen by the Toxic Release Program (oil and groundwater contamination from chemical releases and spills) and the Leaking Underground Storage Tank Program (soil and ground water contamination from leaking petroleum USTs).

A review of the Alameda County CS list, as provided by EDR, and dated 01/09/2019 has revealed that there are 62 Alameda County CS sites within approximately 0.5 miles of the target property.

Lists of state and tribal registered storage tanks

UST: The Underground Storage Tank database contains registered USTs. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the State Water Resources Control Board's Hazardous Substance Storage Container Database.

A review of the UST list, as provided by EDR, has revealed that there are 11 UST sites within approximately 0.25 miles of the target property.

Lists of state and tribal voluntary cleanup sites

VCP: Contains low threat level properties with either confirmed or unconfirmed releases and the project proponents have request that DTSC oversee investigation and/or cleanup activities and have agreed to provide coverage for DTSC's costs.

A review of the VCP list, as provided by EDR, and dated 07/25/2022 has revealed that there are 2 VCP sites within approximately 0.5 miles of the target property.

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 06/20/2022 has revealed that there are 108 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

DRYCLEANERS: A list of drycleaner related facilities that have EPA ID numbers. These are facilities with certain SIC codes: power laundries, family and commercial; garment pressing and cleaners' agents; linen supply; coin-operated laundries and cleaning; drycleaning plants except rugs; carpet and upholster cleaning; industrial launderers; laundry and garment services.

A review of the DRYCLEANERS list, as provided by EDR, has revealed that there are 2 DRYCLEANERS sites within approximately 0.25 miles of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

A review of the EDR MGP list, as provided by EDR, has revealed that there is 1 EDR MGP site within approximately 1 mile of the target property.

<u>Lower Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
PG AND E GAS PLANT O	FIRST AND WASHINGTON	SW 1/2 - 1 (0.841 mi.)	398	1515

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 22 EDR Hist Auto sites within approximately 0.125 miles of the target property.

EDR Hist Cleaner: EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Cleaner list, as provided by EDR, has revealed that there are 14 EDR Hist Cleaner sites within approximately 0.125 miles of the target property.

Name: CHEVRON #9-0020
Address: 1633 HARRISON STREET
City,State,Zip: OAKLAND, CA 94612
Lead Agency: ALAMEDA COUNTY LOP
Case Type: LUST Cleanup Site
Geo Track: http://geotracker.waterboards.ca.gov/profile_report.asp?global_id=T0600100304
Global Id: T0600100304
Latitude: 37.8051642137941
Longitude: -122.266503721475
Status: Completed - Case Closed
Status Date: 01/27/2015
Case Worker: MD
RB Case Number: 01-0331
Local Agency: ALAMEDA COUNTY LOP
File Location: All Files are on GeoTracker or in the Local Agency Database
Local Case Number: RO0000143
Potential Media Affect: Other Groundwater (uses other than drinking water)
Potential Contaminants of Concern: Gasoline, Waste Oil / Motor / Hydraulic / Lubricating
Site History: Not all historic documents for the fuel leak case may be available on GeoTracker. A complete case file for this site is located on the Alameda County Environmental Health website at: <http://ehgis.acgov.org/dehpublic/dehpublic.jsp>. The subject site was used as a service station until 1972 when the site was demolished and the tanks removed. The station building, two dispenser islands, one waste oil UST, and two gasoline USTs were removed. An earlier generation of USTs had previously been removed. Since 1975 it has been used as a parking lot. A soil vapor survey was conducted in 1988 to determine if the site had been impacted, three wells were installed in October 1988, four wells were installed in 1989, four wells were installed offsite in June 1990, two offsite wells were installed in October 1991, and another two wells were installed offsite in late 1992, for a total of 16 wells. Limited soil excavation was conducted in January 1992. An SVE system operated onsite in 1993, but showed minimal effectiveness. In June 2004 the first generation UST pit was investigated and impacts were discovered. In April 2007 four bores were installed to investigate the extent of contamination associated with the first generation USTs. In June 2007 a vapor survey was conducted and elevated concentrations were detected in all vapor points. In early 2008 105 bucket auger bores were installed to remove impacted soil associated with the first generation USTs. A report on the installation of a post-remediation groundwater monitoring well and the installation of several soil bores to infill a data gap in the downgradient extent of the groundwater plume was generated. Well MW-17 was installed in October 2010. Additional excavation of soil impacted by the second generation USTs and the waste oil UST was conducted between January and June 2011 as part of the redevelopment project for the subject site.

 Region: STATE
Facility Status: Open - Remediation
 Status Date: 10/20/2021
 Global Id: T10000014018
 Lead Agency: ALAMEDA COUNTY LOP
 Lead Agency Case Number: RO0003417
 Latitude: 37.8045
 Longitude: -122.26773
 Case Type: Cleanup Program Site
 Case Worker: DY
 Local Agency: ALAMEDA COUNTY LOP
 RB Case Number: Not reported
 File Location: All Files are on GeoTracker or in the Local Agency Database
 Potential Media Affected: Other Groundwater (uses other than drinking water), Soil, Soil Vapor
 Potential Contaminants of Concern: Tetrachloroethylene (PCE), Trichloroethylene (TCE), Benzene, Ethylbenzene, Toluene, Xylene
 Site History: Site Cleanup Program Case No. RO0003417 was opened by Alameda County Department of Environmental Health (ACDEH) in February 2020 to provide regulatory oversight of the investigation and cleanup of subsurface contamination at the Site to facilitate redevelopment by 1510 Webster Street GP LLC. The Site is located in a mixed residential and commercial area of downtown Oakland and consists of two rectangular parcels (Alameda County Assessor Parcel Numbers (APN) 8-625-34-1 and 8-625-32 totaling approximately 0.33-acres located at the northeast corner of the intersection between Webster Street and 15th Street. The current configuration of the Site includes a large Warehouse/office building located at 1510 Webster St. (APN 8-625-34-1) and a smaller warehouse located at 344 15th Street (APN 8-625-32). Both buildings are currently unoccupied. There is a one-level basement which is approximately 10 feet below existing street grade at the uilding located at 1510 Webster Street. Conceptual redevelopment plans include the construction of a 3 to 4 story commercial/office building with ground floor retail/restaurants. Future development may consist of residential units above the commercial/office space. The subterranean floor is also conceptually planned. The Site is accessed via Webster Street to the west and 15th Street to the south and is bound to the north by a coffee roasters; to the east by a public parking lot and retail/office spaces; to the south by office spaces and 15th Street, followed by a mixed-use office/retail building; to the west by office buildings; and to the southwest by an office building across the intersection of Webster Street and 15th Street. Review of available Sanborn Fire Maps identify the Site as consisting of dwellings from 1887 until at least 1911. An auto repair building was observed from around 1925 through 1943, as well as a restaurant from the 1930s until 1943. In the early 1950s, the current larger building was built

and occupied by offices through the 1980s. A knitting company operated at the Site from approximately 1992 to 2015. The smaller parcel became a parking lot from at least 1950 through 1993. In 1995, the newer/smaller building was built and occupied by various offices up to mid 2010s. Subsurface investigations were conducted in May and June 2019 and included the collection of soil, grab-groundwater, soil gas, and sub-slab vapor samples to evaluate potential subsurface impacts and vapor intrusion concerns. Soil and grab groundwater were collected from three borings (SB-1 through SB-3). Soil samples were collected from 5 feet below the building floor slab and analyzed for volatile organic compounds (VOCs) by U.S. Environmental Protection Agency (EPA) Method 8260B. One sample was analyzed for Title 22 Metals. Grab groundwater collected from first encountered groundwater using temporary slotted PVC casing and analyzed for VOCs by EPA Method 8260B and gasoline-, diesel-, and motor-oil-range total petroleum hydrocarbons (TPHg/d/mo) by EPA Method 8015. Soil results indicate VOCs were detected including tetrachloroethene (PCE) and methyl- ethyl- ketone (MEK) with concentrations up to 0.00166 milligrams per kilogram (mg/kg) and 0.0404 mg/kg, respectively. Grab-groundwater was only collected from two locations and detected PCE concentrations up to 8.8 micrograms per liter (ug/L). Three temporary soil gas locations (SG-1 through SG-3) were advanced to a depth of 5 feet bgs and analyzed for VOCs including isopropyl alcohol (IPA) by EPA Method TO-15. Analytical results indicated PCE at concentrations ranging from 21 to 230 micrograms per cubic meter (a%g/m3) were detected in the soil gas probes. Additionally, benzene, toluene, and ethylbenzene was also detected in the soil gas probes. Five sub-slab vapor pins was advanced inside the building located at 1510 Webster Street only. PCE, trichloroethene (TCE), and benzene were detected above applicable regulatory environmental screening levels in all locations for residential and commercial land use. Additional subsurface investigations in all media are warranted to evaluate data gaps, possible remediation of discovered VOCs, engineering controls (e.g., vapor intrusion mitigation system) and institutional controls (e.g., land use covenant). Prior to occupancy, indoor air sampling for PCE, TCE, and benzene would likely be required to evaluate potential vapor intrusion risk and to comply with regulatory residential screening levels.

Local Agency: Not reported
RB Case Number: 01S0772
File Location: All Files are on GeoTracker or in the Local Agency Database
Potential Media Affected: Other Groundwater (uses other than drinking water), Soil
Potential Contaminants of Concern: Tetrachloroethylene (PCE), Diesel, Ethylbenzene, Gasoline, Naphthalene, Toluene, Xylene
Site History: The site contained a parking lot with two fuel pumps in the southwestern corner in 1933. By 1957, a car wash was operating on the property. By 1965, a commercial office and warehouse were built on the site with covered parking (current). In preparation of redevelopment, a soil, soil vapor and groundwater investigation was implemented in 2016. Petroleum hydrocarbons and chlorinated volatile organic compounds have been found on the subsurface; soil cleanup was completed in 2017. Groundwater impacts have been addressed with a vapor barrier and institutional constraints (i.e., deed restriction, site management plan, vapor intrusion mitigation system and operation and maintenance plan . The site has been redeveloped into a mixed-use (commercial/residential) property. Building occupancy planned in February 2019.

 Local Agency: Not reported
 File Location: All Files are on GeoTracker or in the Local Agency Database
 Local Case Number: RO0000266
 Potential Media Affect: Other Groundwater (uses other than drinking water)
 Potential Contaminants of Concern: Gasoline
 Site History: Site investigations were conducted at various times from July 1990 to October 1996. In December 1993, two 1,000-gallon gasoline underground storage tanks were removed from beneath the sidewalk along Harrison Street. In addition, three hydraulic lifts, one vault, one wash rack sump, and associated piping were reportedly excavate and removed from the site. A total of approximately 240 cubic yards of hydrocarbon-impacted soil was reportedly removed from these areas. Soil vapor extraction and air sparging remediation was conducted from December 2001 through April 2005. Not all historic documents for the

File Location: All Files are on GeoTracker or in the Local Agency Database
Local Case Number: RO0002992
Potential Media Affect: Other Groundwater (uses other than drinking water)
Potential Contaminants of Concern: Gasoline
Site History: Two underground fuel tanks were closed in place beneath the sidewalk at 1424 Harrison Street in 1982. The tanks were filled with cement slurry. Site investigation activities conducted for a release from a UST system at the adjacent property at 1432 Harrison Street, detected petroleum hydrocarbons in soil adjacent to and beneath the USTs closed in place at 1424 Harrison Street. Further investigation of the site was requested. Not all historic documents for the fuel leak case may be available on GeoTracker. A more complete historic case file for this site is located on the Alameda County Environmental Health website at: <http://ehgis.acgov.org/dehpublic/dehpublic.jsp>.

Case Worker: Not reported
Local Agency: Not reported
RB Case Number: NA
File Location: All Files are on GeoTracker or in the Local Agency Database
Potential Media Affected: Under Investigation
Potential Contaminants of Concern: Not reported
Site History: In 1993 a proposed redevelopment project consisting of an open air multi-story parking structure at 1750 Webster Street prompted a Phase II investigation that identified contamination at the site. Subsequently, a case was opened and subsurface investigations were conducted at the site including installation of three groundwater monitoring wells (A-1, A-2 and A-3). Based on data collected during soil and groundwater investigations and a 1998 Risk-Based Corrective Action ACDEH and the Regional Water Board determined that contamination detected on the site appeared to be related to an up-gradient source and did not pose a risk to human health under the proposed redevelopment scenario or under the existing land use as an at-grade parking lot. In a letter dated February 9, 2000, ACDEH required recordation of a deed restriction for the site to ensure that the site was re-evaluated if the proposed development changed to include enclosed structures and directed that the three monitoring wells not be destroyed so the responsible party for the groundwater contaminant plume beneath the property could use the wells for future monitoring. The proposed open air parking structure failed to materialize and the site remained as an at-grade parking lot until 2017 when a new residential project was proposed. In 2017, Site Cleanup Program Case No. RO0002672 was administratively closed and the three groundwater monitoring wells transferred to a new Site Cleanup Program Case No. RO0003229 for the Lennar Multifamily Communities redevelopment project.

Site History: Alameda County Department of Environmental Health (ACDEH) issued a Remedial Action Completion Certification letter to the Responsible Parties Cleanup Program Site Case No. RO00003229 on August 30, 2022 confirming the completion of investigations and remedial actions at the Site carried out pursuant to a Voluntary Remedial Action

MAP FINDINGS

LENNAR MULTIFAMILY COMMUNITIES (Continued)

S11977534

Agreement (VRAA) between Lennar Multifamily Communities and ACDEH executed on January 11, 2017 for the Case. Based on information in the Case file on the State Water Resources Control Boards GeoTracker website, and with the provision that the information provided to ACDEH is accurate and representative of Site conditions, ACDEH has determined that no further remedial action or long-term management of environmental engineering controls related to subsurface contamination at the Site is required at this time and therefore closed the Case and terminated the VRAA. ACDEHs Case closure determination was based on an analysis of risk to human health and the environment under the current land use scenario as a seven story mixed use commercial and multi-family residential building and post-redevelopment sub-slab concentrations of volatile organic compounds beneath the new building that are below the San Francisco Bay Regional Water Quality Control Boards 2019 Environmental Screening Levels for Residential and Commercial Subslab/Soil Gas Vapor Intrusion: Human Health Risk Levels. Risk to receptors under different land use scenarios or Site configurations, were not considered in the closure determination of the Case. Due to residual subsurface contamination associated with historic land use and operations at and in the vicinity of the Site, ACDEH recommends the property owner comply with the following: Adherence to the Soil and Groundwater Management Plan dated August 28, 2020 prepared by Apex during future subsurface activities to provide protection to construction and landscape workers from direct contact exposure risk; and Maintenance of the vapor intrusion mitigation and migration engineering controls installed at Site including the vapor membrane barriers and passive vapor collection venting systems in the two elevator shafts, and trench dams/plugs in utility trenches and conduit seals in dry utilities penetrating the slab, in accordance with the Operation, Maintenance and Monitoring Plan, dated April 9, 2018 and revised on January 24, 2020 and August 3, 2020, prepared by Carlin Environmental Consulting, Inc., to provide protection to onsite receptors from potential vapor intrusion risk.

 Status: Completed - Case Closed
 Status Date: 05/10/2018
 Case Worker: KLD
 RB Case Number: 01-0151
 Local Agency: ALAMEDA COUNTY LOP
 File Location: All Files are on GeoTracker or in the Local Agency Database
 Local Case Number: RO0000129
 Potential Media Affect: Other Groundwater (uses other than drinking water), Soil
 Potential Contaminants of Concern: Benzene, Ethylbenzene, Gasoline, MTBE / TBA / Other Fuel Oxygenates, Naphthalene, Toluene, Xylene
 Site History: Not all historic documents for the fuel leak case may be available on GeoTracker. Additional documents can be viewed over the Internet on Alameda County Department of Environmental Health website (<http://www.acgov.org/aceh/lop/ust.htm>). Both databases should be reviewed to obtain a complete history. Please refer to the Case Closure Summary Form dated May 10, 2018 and the case file found on both Alameda County Department of Environmental Health website (<http://www.acgov.org/aceh/lop/ust.htm>) and on GeoTracker. Leaking Underground Storage Tank (LUST) Cleanup Site Case No. T0600100140/RO0000129 was opened in 1993 by ACDEH to investigate and evaluate impacts to human health and the environment associated with an unauthorized release from three USTs and associated UST system components that were removed from the site in 1992. Site investigation activities associated with the LUFT case were conducted from 1993 to 2017 to evaluate the extent of subsurface impacts to soil, soil vapor and groundwater from the UST system release. This UST release case has been evaluated for closure consistent with the

State Water Resource Control Boards Low-Threat Underground Storage Tank Closure Policy (LTCP) for petroleum related contaminants. ACDEH has determined that the site meets all the LTCP General Criteria and Media Specific Criteria and thus the site poses a low threat to human health and safety and to the environment under current and reasonably anticipated near-term future scenarios. Other potential chemicals of concern from historic land use and operations at the site were not evaluated in association with this LUST case. ACDEH recommends that during the environmental due diligence process (initiated as part of activities including, but not limited to, property transactions, bank refinancing, and redevelopment) that the site and parcels in the vicinity of the site be evaluated for risk from and exposure to potential chemicals of concern identified at this site. Please refer to the Case Closure Summary Form dated May 10, 2018 and the case file found on both Alameda County Department of Environmental Health website (<http://www.acgov.org/aceh/lop/ust.htm>) and on GeoTracker.

Case Worker: JES
Local Agency: ALAMEDA COUNTY LOP
RB Case Number: Not reported
File Location: Not reported
Potential Media Affected: Not reported
Potential Contaminants of Concern: Not reported
Site History:

Holland Partner Group (Holland) entered into a Voluntary Remedial Action Agreement with Alameda County Department of Environmental Health (ACDEH) to provide regulatory oversight of redevelopment of the former Douglas Parking Garage (Fuel Leak Case No. RO000129) into a twenty five story (including six levels of parking) mixed-use residential building due to the potential for soil and groundwater contamination from the former adjacent off-Site USTs and other potential off-Site groundwater contaminant sources. The 1721 Webster Street site redevelopment project will be from lot line to lot line across the property and consist of six levels of parking, one below grade and five above grade, with retail and office space fronting Webster Street on the ground and fourth floor, respectively. Above the sixth parking level is the amenities level containing a fitness center, party room, media center, conference rooms, lounge, and three residential units. Above the amenities level are eighteen floors of residential living spaces in different configurations (e.g., two-bedroom, one-bedroom, or studio apartments). Above the last residential level is a skylounge area with an upper and lower roof terrace, skylounge, and pool. A portion of this level also houses part of the mechanical roof deck. The top level houses more of the mechanical roof deck as well as the elevator mechanical control room. The Site comprises two separate lots that are currently developed from lot line to lot line. The southern portion of the property has been assigned Alameda County Assessors Parcel Number (APN): 008-0624-7, and the northern parcel is 008-0624-6. Existing site improvements include two slab on-grade buildings constructed in 1930. The southern half is two stories fronting Webster Street and a single story beyond that. The northern portion is two stories. The buildings are constructed of cinder block and brick walls and have wooden trusses supporting wooden roofing systems. The southern portion of the property is occupied by a 14,000-square foot structure that was mainly used for vehicle parking and was owned and operated by Douglas Parking Company. Former retail/commercial spaces along Webster Street frontage of the building included Coloso Coffee, Pablo Brady Hair Salon, RAWR (cat food), and Amanda Kate Hill (AKH) Fitness and Nutrition. Above the retail/commercial spaces along Webster Street frontage of the building were the offices of Douglas Parking Company. The northern portion of the property is occupied by a 7,500-square foot structure used mainly for vehicle parking though there is some storage space on the ground floor. Historical research documented that the subject property parcels were developed with a residence and a nursery including a greenhouse in the late 1800s, residences in the early 1900s, and by the 1930s with buildings in the approximate configuration of the present day. Vehicle parking and a

Status: Open - Site Assessment
Status Date: 05/22/2019
Lead Agency: SAN FRANCISCO BAY RWQCB (REGION 2)
Last Correspondence Date: 06/17/2022
Release Type: Other Type of Release
Contaminant(s) of Concern: Dichloroethene (DCE), Other Chlorinated Hydrocarbons, Other Solvent or Non-Petroleum Hydrocarbon
Media of Concern: Indoor Air, Other Groundwater (uses other than drinking water), Soil Vapor, Under Investigation

Past Use(s) that Caused Contamination: DRY CLEANING
Human Health Exposure Controlled: NO
Human Health Exposure Controlled Date: 01/29/2021
Groundwater Migration Controlled: NO
Groundwater Migration Controlled Date: 01/29/2021

FINDS:

Registry ID: 110070663345

[Click Here for FRS Facility Detail Report:](#)

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Registry ID: 110001173364

 Citation: HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)
 Violation Description: Failure to send hazardous waste offsite for treatment, storage, or disposal of acute/extremely hazardous waste after the first 1-kilogram threshold amount was accumulated within a 90 day period.
 Violation Notes: Returned to compliance on 05/19/2021. Owner/Operator who is a generator of <100 kg/mth failed to send hazardous waste offsite for treatment, storage, or disposal within 180/270 days of accumulating 100 kilograms, or within 90 days of accumulating 1 kg of extremely/acute hazardous waste. The hydrocarbon waste (dry cleaning waste) has been on site since October 24, 2018. Dispose of hazardous waste and submit a copy of the manifest/receipt to the CUPA. Ensure

Violation Date: 04-01-2021
Citation: HSC 6.95 25508.2 - California Health and Safety Code, Chapter 6.95, Section(s) 25508.2

Violation Description: Failure to annually review and electronically certify that the business plan is complete and accurate on or before the annual due date.

Violation Notes: The business failed to electronically submit and certify that the business plan is complete, accurate, and in compliance with EPCRA on or before the required due date. The HMBP inventory did not include the hydrocarbon waste and the site map did not include the hydrocarbon product. Electronically submit and certify that the business plan is complete, accurate, and in compliance with EPCRA within 30 days. On an ongoing basis, electronically submit and certify the business plan annually on or before the required due date.

Violation Date: 11-29-2017
Citation: 22 CCR 23 66273.34 - California Code of Regulations, Title 22, Chapter 23, Section(s) 66273.34

Violation Description: Failure to label or mark each individual or container or the designated area of universal waste as required. 1) Waste batteries shall be marked with "Universal Waste-Battery(ies) . 2) Mercury containing equipment shall be marked with "Universal Waste -Mercury-Containing Equipment . 3) Lamps shall be marked with Universal Waste-Lamp(s) . 4)Each electronic devices or the container or the designated area shall be marked with Universal Waste-Electronic Device(s) . 5) Each CRTs or the container or the designated area shall be marked with "Universal Waste-CRT(s) . 6) CRT glass or the designated area shall be marked with Universal Waste-CRT glass .

Violation Notes: Returned to compliance on 08/03/2018. OBSERVATIONS: Observed fluorescent lamps waste stored outdoors without containers or labels. A generator shall label or mark universal waste with the words 'Universal Waste' and the type of waste (batteries, mercury containing equipment, lamps/bulbs, electronic devices, CRTs, aerosol cans) in closed containers to minimize breakage and release to the environment. CORRECTIVE ACTION: Immediately label these wastes and ensure that all universal wastes are labeled with the required information.

Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Description: Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.
Violation Notes: Returned to compliance on 08/10/2018. OBSERVATIONS: For the following containers, required information was missing: 1. 30 gallon drum of waste hydrocarbon- missing 1)physical state 2) chemical properties on hazardous waste label 2. three empty 55 gallon drums of used oil filters- missing 1)the word "Empty" 2) the date the container was emptied 3. old paint and solvent cans in storage shed - missing 1)the word "Empty" 2) the date the container was emptied. Owner states that paint and solvent cans are empty, and the storage shed with all contents will be removed in the near future. Ensure empty cans are disposed of properly. All hazardous waste containers shall be marked with the following information: 1) the words Hazardous Waste ; 2) name and address of generator; 3) hazardous properties; 4) physical state; 5) composition (contents); 6) accumulation start date. CORRECTIVE ACTION: Immediately label these containers and ensure that all hazardous waste containers are marked with all the required [Truncated]

Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Description: Failure to annually review and electronically certify that the business plan is complete and accurate on or before the annual due date.
Violation Notes: Returned to compliance on 08/22/2018. OBSERVATION: Facility failed to annually review and electronically certify that the Hazardous Materials Business Plan (HMBP) is complete, accurate, and up to date. The annotated site map submitted in CERS is not accurate because it lists perchloroethylene as a hazardous material in the hazardous material/waste storage area. Facility no longer uses or stores perchloroethylene and instead now uses EcoSolv Dry Cleaning Fluid, a hydrocarbon solvent used in dry cleaning. CORRECTIVE ACTIONS: Remove perchloroethylene from the annotated site map. List EcoSolv Dry Cleaning Fluid in hazardous material/waste storage and submit changes electronically in the California Environmental Reporting System (CERS) at <http://cers.calepa.ca.gov/>.

Violations:

Site ID: 90485
Site Name: Alameda Contra Costa Transit District (General Office/GO)
Violation Date: 12-20-2017
Citation: HSC 6.7 25290.2(c) - California Health and Safety Code, Chapter 6.7, Section(s) 25290.2(c)
Violation Description: Failure to maintain secondary containment (e.g., failure of secondary containment testing).
Violation Notes: Returned to compliance on 12/18/2018. OBSERVATION: Secondary containment testing showed about 800 milliliters of Diesel in the secondary space. A vacuum test was conducted on 12/7/2017 by TEC Accutite and 12/20/2017. Vacuum held for both tests, but addition diesel fuel was found in the tank annular space. CORRECTIVE ACTION: Repair/Maintain secondary containment. Submit documentation. 12/18/18 - UST was removed
Violation Division: Alameda County Environmental Health
Violation Program: UST
Violation Source: CERS,

Site ID: 90485
Site Name: Alameda Contra Costa Transit District (General Office/GO)
Violation Date: 06-20-2016
Citation: 23 CCR 6.7 25284, 25286 - California Code of Regulations, Title 23, Chapter 6.7, Section(s) 25284, 25286
Violation Description: Failure to submit a complete and accurate application for a permit to operate a UST, or for renewal of the permit.
Violation Notes: Returned to compliance on 07/19/2016. OBSERVATION: UST facility operating permit information and UST tank information for the diesel tank and monitoring are not current in CERS. Any change of information must be updated in CERS within 30 days of the change. See Tank Information and Monitoring Plan with edits that ACDEH inspector provided. CORRECTIVE ACTION: Submit and maintain an accurate UST Operating Permit Application for Facility information and/or Tank information.
Violation Division: Alameda County Environmental Health
Violation Program: UST
Violation Source: CERS,

Site ID: 90485
Site Name: Alameda Contra Costa Transit District (General Office/GO)
Violation Date: 12-20-2017
Citation: 23 CCR 16 2635(a)(2)(A) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2635(a)(2)(A)
Violation Description: Failure to comply with one or more of the following requirements for the cathodic protection system: Have corrosion protection equipment turned on and functioning properly. Inspect the impressed-current system every 60 calendar days. Inspect the impressed-current system within six months of installation and at least every three years thereafter. Test sacrificial anodes once every three years in accordance with the manufacturer s instructions.
Violation Notes: Returned to compliance on 01/19/2018. OBSERVATION: Failure to comply with the following requirements: 1) Inspect the impressed-current

system every 60 calendar days; 2) Have corrosion protection equipment turned on and functioning properly; 3) Inspect the impressed-current system within six months of installation and at least every three years thereafter; 4) Test sacrificial anodes once every three years in accordance with the manufacturer s instructions. 23 CCR 16 2635(a)(2).

CORRECTIVE ACTION: Provide ACDEH with copies of inspections and have the impressed-current system maintained and inspected properly. If unable to provide documentation for above inspections, this means that there are multiple individual 60 calendar day violations for the past 6 1/2 years, that may result in a civil penalty between \$500 to \$5000 per day. It would also be assumed that the steel UST and UST piping have been without corrosion protection for 18 years. Provide a work plan UST modification permit within 30 days to have the [Truncated] Alameda County Environmental Health UST CERS,

Violation Division:
Violation Program:
Violation Source:

Site ID: 90485
Site Name: Alameda Contra Costa Transit District (General Office/GO)
Violation Date: 12-20-2017
Citation: 23 CCR 16 2712(b) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2712(b)

Violation Description: Failure to comply with one or more of the following corrosion protection record retention requirements: Maintain records of cathodic protection systems testing within six months of installation and at least every three years thereafter. Maintain records for the 60 calendar day inspection of the impressed-current system. Maintain records for sacrificial anodes testing every three years. Have written monitoring and maintenance records on-site or off-site at a readily available location if approved by the UPA.

Violation Notes: Returned to compliance on 01/19/2018. OBSERVATION: Observed that an impressed current cathodic protection system was installed and approved on March 30, 1999 by Mr. Graig Michel'S, C.P.E. according to Impressed Current Cathodic Protection System Installation Report dated 4/22/1999. The cathodic protection system does not appear to be operating and the installation report says that "readings indicated that the tank and piping were steel (non-coated) in bare soil/backfill." Failure to comply with one or more of the following corrosion protection record retention requirements: (1) Maintain records of cathodic protection systems testing within six months of installation and at least every three years thereafter, (2) Maintain records for the 60 calendar day inspection of the impressed-current system, (3) Maintain records for sacrificial anodes testing every three years, (4) Have written monitoring and maintenance records on-site or off-site at a readily available location if approved by the CUPA. 23 CCR 16 [Truncated]

Eval Notes: Onsite to conduct the Annual UST inspection during the Annual Monitoring System Certification at AC Transit General Office - 1600 Franklin St., Oakland, CA. Met with Tim Evans and Annie Tran from AC Transit. This UST is in the process of being removed soon due to a minor leak into the annular space. CSLD Test is passing on a daily basis and being recorded, but AC Transit already has a permit to have it removed.

Eval Division: Alameda County Environmental Health
Eval Program: UST
Eval Source: CERS,

Eval General Type: Compliance Evaluation Inspection
Eval Date: 06-20-2016
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: Onsite to conduct the Annual Underground Storage Tank Inspection during the Annual Monitoring System Certification test at AC Transit - 1600 Franklin St. Oakland, CA. CERTIFICATION OF RETURN TO COMPLIANCE I certify that the violation(s) noted in the Inspection Forms have been corrected. I have personally examined any documentation attached to the certification to establish that the violations have been corrected. PRINT: _____

Eval Division: Alameda County Environmental Health
Eval Program: UST
Eval Source: CERS,

Eval General Type: Other/Unknown
Eval Date: 12-20-2017
Violations Found: Yes
Eval Type: Other, not routine, done by local agency
Eval Notes: Onsite to observe the 3-year Secondary Containment Test for AC Transit General Office - 1600 Franklin St., Oakland, CA. Met with Dan Ruslen, Tim Evans, and Annie Tran of AC Transit. Ron Breckenridge was conducting the secondary containment test. Observing the listed violations today, the integrity of the double-walled steel tank is in question. There is Diesel fuel present in the interstitial space and no recorded inspections are available for the corrosion protection system, which was installed March 30, 1999. 6 1/2 years of corrosion protection inspections are required to be available and there are no observed records of these inspections between 1999 and now. The UST secondary containment is required to be repaired and the cathodic protection system inspected and maintained properly. AC Transit will

S112186515

Status Date: 12/28/2018
Case Worker: KLD
RB Case Number: Not reported
Local Agency: ALAMEDA COUNTY LOP
File Location: All Files are on GeoTracker or in the Local Agency Database
Local Case Number: RO0003100
Potential Media Affect: Other Groundwater (uses other than drinking water), Soil, Soil Vapor
Potential Contaminants of Concern: Lead, Benzene, Diesel, Ethylbenzene, Gasoline, Kerosene, MTBE / TBA / Other Fuel Oxygenates, Naphthalene, Stoddard solvent / Mineral Spruits / Distillates, Toluene, Total Petroleum Hydrocarbons (TPH), Waste Oil / Motor / Hydraulic / Lubricating, Xylene

Site History: The site is currently occupied by a two-story commercial building built in 1969 which occupies the entire parcel. The former gasoline service station was demolished and cleared in 1966, but no records were on file with the Oakland Building Department, Alameda County Environmental Health Services Department or Oakland Fire Department regarding the number of USTs, removal of the USTs, and/or confirmation sampling of the USTs. In July 2011, three soil borings were advanced around the site building. Concentrations up to, 59,000 parts per billion (ppb) Total Petroleum Hydrocarbons as gasoline (TPHg) and 200,000 ppb Total Petroleum Hydrocarbons as diesel (TPHd) were documented in grab groundwater samples. These concentrations indicate an unauthorized release has occurred from the UST(s) at the site and this Leaking Underground Fuel Tank (LUFT) case was opened to investigate the release. Environmental investigations have occurred from 2011 through 2017 and have included installation of four soil vapor points and the collection of soil, groundwater and soil gas samples. This LUST case was evaluated for closure consistent with the State Water Resource Control Boards Low-Threat Underground Storage Tank Closure Policy (LTCP) for petroleum-related contaminants. ACDEH has determined that the site meets the LTCP General Criteria and Media Specific Criteria for Groundwater and Vapor Intrusion but not Media Specific Criteria for Direct Contact and Outdoor Air. Although PAHs were not detected at/above the laboratory detection levels used by the laboratory in soil samples taken within the 0 to 5 foot depth interval in the building footprint, the laboratory detection levels used by the laboratory exceeded the Table 1 concentrations for residential and commercial/industrial worker exposure current maximum concentrations of PAHs as benzo(a)pyrene toxicity equivalent (BaPe). ACDEH has determined that there is low potential for direct contact exposure because of the current land use as a commercial building resulting in a low potential for direct contact exposure to shallow soil beneath the building footprint. Therefore, the site poses a low risk to human health and safety and the environment. The determination was based on receptors and environmental conditions identified at and in the vicinity of the site at the time of closure and reasonably anticipated near-term future scenarios. Therefore, case closure is granted for the current commercial land use as a two-story commercial building. If a change in land use to any residential, commercial other than as a two story commercial building, or conservative land use, or if any site redevelopment is planned, Alameda County Department of Environmental Health (ACDEH) must be notified as required by Government Code Section 65850.2.2. Any below grade work require planning and implementation of appropriate health and safety procedures by the responsible party prior to and during excavation and construction activities.

Case Type: Cleanup Program Site
Case Worker: KLD
Local Agency: ALAMEDA COUNTY LOP
RB Case Number: Not reported
File Location: Local Agency
Potential Media Affected: Under Investigation
Potential Contaminants of Concern: Heating Oil / Fuel Oil
Site History: Petroleum hydrocarbons were detected in soil samples collected during the removal of two underground storage tanks (USTs) from the site. The USTs were described as home heating oil tanks. The fuel leak was investigated. Not all historic documents for the fuel leak case may be available on GeoTracker. A more complete historic case file for this site is located on the Alameda County Environmental Health website at: <http://ehgis.acgov.org/dehpublic/dehpublic.jsp>

Environmental Interest/Information System:

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

STATE MASTER

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

Violations:

Site ID: 434507
Site Name: AT&T California - Q1002
Violation Date: 04-07-2021
Citation: HSC 6.7 25293 - California Health and Safety Code, Chapter 6.7, Section(s) 25293
Violation Description: Failure to maintain UST records in sufficient detail to enable the UPA to determine whether the UST systems are in compliance.
Violation Notes: Returned to compliance on 04/23/2021. The owner/operator has not complied with condition #1 in the UST operating permit: "A monthly log of daily inspections of the monitoring console shall be maintained on site (sample form enclosed)." Maintain a monthly log of daily inspections of the monitoring console (the Veeder Root TLS-350) on site, and submit a copy of the April 2021 log to Alameda County CUPA (dehust@acgov.org) no later than 5/7/2021.
Violation Division: Alameda County Environmental Health
Violation Program: UST
Violation Source: CERS,

Site ID: 434507
Site Name: AT&T California - Q1002
Violation Date: 04-07-2021
Citation: 23 CCR 16 2716(e) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2716(e)
Violation Description: For designated operator (DO) monthly inspections conducted before October 1, 2018, failure to comply with one or more of the following requirements: Be performed by an ICC certified DO. Inspect monthly alarm history report, check that alarms are documented and responded to appropriately, and attach a copy. Inspect for the presence of liquid/debris in spill containers. Inspect for the presence of liquid/debris in under dispenser containment (UDC) and ensure that the monitoring equipment is positioned correctly. Inspect for liquid or debris in containment sumps where an alarm occurred with no service visit. Check that all testing and maintenance has been completed and

documented. Verify that all facility employees have been trained in accordance with 23 CCR 2715(c). For designated operator (DO) 30 day inspections conducted on and after October 1, 2018, failure to conduct the designated UST operator visual inspection at least once every 30 days.

Violation Notes: Returned to compliance on 04/28/2021. 1. The Designated UST Operator Visual Inspection Report dated 12/8/2020 failed to document the L2 alarm recorded at 5:12 AM on 11/30/2020 (this should have been documented in Section 3). 2. The Yes/No checkboxes for the Spill Containment IDs in Section 9 of the Designated UST Operator Visual Inspection Reports dated 12/8/2020, 1/5/2021, and 3/22/2021 were not marked. 3. There are two (2) copies of each month's Designated UST Operator Visual Inspection Report on site. One copy has the alarm history/work orders attached, but no owner/operator signature... and the other copy has the owner/operator signature, but no alarm history/work orders. As a result, both copies are incomplete. 1. Ensure all alarms have been documented in Section 3 of the Designated UST Operator Visual Inspection Reports, and then document the follow-up actions required for these alarms in Section 5. 2. Ensure all applicable checkboxes in the Designated UST Operator ... [TRUNCATED: Refer to full Inspection Report]

Violation Description: Failure to maintain a list of employees trained by the designated operator on-site or off-site at a readily available location, if approved by the UPA. For training that occurs on or after October 1, 2018, failure to maintain a copy of the "Facility Employee Training Certificate" on-site or off-site at a readily available location, if approved by the UPA.

Violation Notes: Returned to compliance on 04/28/2021. Section III of the Facility Employee Training Certificate is filled out incorrectly: the date of the 12-month refresher training is entered as the "Initial Training Date" and the "Date of Assuming Responsibility as a Facility Employee" field for all employees. 1. Update the "Initial Training Dates" to the dates the employees were FIRST trained by a Designated UST Operator. 2. Update the "Date of Assuming Responsibility as a Facility Employee" to the date that the employees FIRST took responsibility as a facility employee. 3. Submit the updated Facility Employee Training Certificate(s) to Alameda County CUPA (dehust@acgov.org) no later than 5/7/2021.

Violation Description: Failure to have a properly qualified service technician test leak detection equipment as required every 12 months (vapor, pressure, hydrostatic (VPH) system, sensors, line-leak detectors (LLD), automatic tank gauge (ATG), etc.).
Violation Notes: Returned to compliance on 11/01/2017. OBSERVATION: Owner/Operator did not perform and pass annual line integrity test for pressurized piping that does not utilize fail safe or shut down. This tank system is being operated as an emergency generator system with line testing substituted for positive shutdown and the use of a pressurized line leak detector. CORRECTIVE ACTIONS: Perform an annual line test to a leak threshold of 0.1 gallons per hour. A State licensed tank tester shall conduct the testing using equipment certified to conduct this testing. Notify this office at least 48 hours prior to testing at

Eval Type: Routine done by local agency
Eval Notes: Annual routine UST monitoring system certification and spill bucket testing performed today. No line integrity tests performed during the inspection today. Historically only tank #Q1002U005 has had the line integrity testing performed. However, the other four USTs are required to have the testing performed. The four USTs are manifolded from two USTs into one line, for a total of two lines connected to the two day tanks for redundancy. The violation noted in this inspection for failure to perform a line test is for the USTs in the basement and numbered #Q1002U001 through Q1002U004. Testing the pressurized piping for the two lines is consistent with the requirement for tank Q1002U005. There are no records of testing being performed for the last 3 years. This testing is required since the Veeder Root is not programmed for positive shutdown and to satisfy provisions in Title 23, section 2636(f)(4). We are considering this system to have secondary containment for the piping the [Truncated]

CERTIFICATION THAT EXPIRES 2-20-21, THE VEEDER ROOT CERTIFICATION THAT EXPIRES 6-27-21 AND THE INCON CERTIFICATION THAT EXPIRES 9-17-21. ALL VIOLATIONS NOTED IN THE INSEPCION REPORT SHALL BE CORRECTED IMMEDIETLY. THE FACILITY HAS 5 DOUBLE WALL STEEL WITH FIBERGLASS CLADDING TANKS, AUDIBLE VISUAL ALARMS AS OVERFILL PROTECTION, DIRECT BURY SPILL BUCKET, NO LEAK DETECTOR AND NO DISPENSERS. THE LAST AMC WAS CONDUCTED ON 4-11-19, THE LAST OVERFILL PREVENTION INSPECTION WAS CONDUCTED ON 3-4-20 AND THE LAST SECONDARY CONTAINMENT TESTING WAS CONDUCTED ON 3-4-20.

Eval Division: Alameda County Environmental Health
Eval Program: UST
Eval Source: CERS,

Eval General Type: Compliance Evaluation Inspection
Eval Date: 04-12-2018
Violations Found: Yes
Eval Type: Routine done by local agency

Eval Notes: Certifications reviewed for John Cascio of Tait Environmental. ICC #5252167 expires 9/25/19, Veeder Root #B35337 expires 1/31/19 and Incon expires 1/3/19. UST Permit to Operate expires on December 29, 2022. Secondary containment testing is due in March 2020. Annual pipeline integrity testing occurred on November 29, 2017. The Veeder Root monitoring system is remotely monitored. All alarms are immediately responded to. All violations noted in this Underground Storage Tank inspection report are to be corrected within 30 days and proof of those corrections submitted to this office in the same time frame. CERTIFICATION OF RETURN TO COMPLIANCE I certify that the violation(s) noted in this UST inspection report have been corrected. I have personally examined any documentation attached to the certification to establish that the violations have been corrected. Facility Name: AT & T (Q1002) Facility Address: 1587 Franklin Street, Oakland, CA [Truncated]

Eval Notes:

Alameda County CUPA inspectors Luke Voropaeff and Fatinah Zareef were on site to witness the 4/7/2021 - 4/8/2021 Annual Monitoring Certification (AMC) and Annual Spill Bucket Certification Tests. Consent to inspect was granted by the Environmental Site Manager, Valerie Ingraham. Jaime Jauregui of Tait Environmental Services was on site to perform the testing outlined above. Mr. Jauregui's Veeder Root ATG, ICC California UST Service Technician, VMI LD Install and LDT-890, and Franklin Fueling Systems certifications were all up-to-date at the time of the testing. Alameda County CUPA was unable to obtain a signature on site due to Alameda County's social distancing policy during the COVID-19 pandemic. Inspection report emailed to g43573@att.com and vi1560@att.com on 4/13/2021.

Environmental Interest/Information System:
 RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

The Hotel Oakland (former Army Hospital building) has been renovated several times since Department of Defense (DoD) activity was terminated. Current owners of the associated parcels include Hotel Oakland Associates, ICH Associates, and four private owners.
History:	In 1943, the U.S. acquired 12 leases for a total of 4.259 acres. The site was used as a station hospital by the U.S. Army Medical Corps. In 1946, 1.377 acres were transferred to the Veterans Administration (VA). In 1947, the remaining acres were transferred to the VA. No potential hazards have been identified at this site.

ONE HOUR DRY CLEANER (Continued)

S122855447

Site History: One Hour Dry Cleaner business has been operating at 190 14th Street in Oakland from at least 2006. During environmental investigations conducted between 2006 and 2017 at the former Mobil site located at 160 14th Street in Oakland, located adjacent and down-gradient of the One Hour Dry Cleaner Site (see Figure below), the chlorinated solvents Tetrachloroethylene (PCE) and Trichloroethene (TCE) were detected in groundwater samples. The highest PCE and TCE concentrations were detected in Boring B-5 at the Mobile site at 820 micrograms per liter (a%g/L) and 42 a%g/L, respectively. Therefore, it appears that a release of PCE and TCE has occurred at the One Hour Dry Cleaner site, has reached the groundwater beneath the Dry Cleaner, and has been transported by the groundwater from the Dry Cleaner site to the, which has been redeveloped to residential housing in 2009. On December 10, 2018, ACDEH sent a Request for Site History to the dry cleaning facility operators. A response is due by February 6, 2019.

TUDOR HALL APARTMENTS (Continued)

S117896764

Ethylbenzene, Gasoline, Heating Oil / Fuel Oil, Methane, Naphthalene, Other Petroleum, Polynuclear aromatic hydrocarbons (PAHs), Toluene, Xylene

Site History:

Site is an apartment building located at the northern corner of the intersection of Madison Street and 17th Street, approximately 300 feet southwest of Lake Merritt. The apartment building was previously serviced by a 1,500-gallon heating oil UST (HOT). This case was opened following a transfer from the ACDEH CUPA on June 9, 2015 following the in-place closure of the HOT. Total petroleum hydrocarbons (C10-C28) were detected at concentrations up to 13,800 milligrams per kilogram in soil samples collected during the HOT closure of the HOT. Contractor reported holes observed in tank and odors/staining observed during sampling.

 Status: Completed - Case Closed
 Status Date: 01/28/2019
 Case Worker: KLD
 RB Case Number: NA
 Local Agency: ALAMEDA COUNTY LOP
 File Location: All Files are on GeoTracker or in the Local Agency Database
 Local Case Number: RO0002922
 Potential Media Affect: Other Groundwater (uses other than drinking water), Soil, Soil Vapor
 Potential Contaminants of Concern: Benzene, Diesel, Ethylbenzene, Gasoline, MTBE / TBA / Other Fuel Oxygenates, Naphthalene, Toluene, Waste Oil / Motor / Hydraulic / Lubricating, Xylene

Site History:

The site is currently a mixed-use commercial and residential multi-story building. The ground floor is occupied by commercial space and a podium-style parking structure with below-grade stacked parking. A 10,000-gallon gasoline UST, one 6,000-gallon gasoline UST, and one 550-gallon waste-oil USTs were removed from a commercial gas station in May 1986 and the station was permanently closed. Soil samples collected beneath both gasoline USTs did not detect TPHg at or above the laboratory detection limit of 2 mg/kg TPHg. TPH waste oil (TPH wo) was not detected at or above the laboratory detection limit of 10 mg/kg in the soil sample collected from the waste oil UST. None of the confirmation soil samples taken during the UST removal were analyzed for benzene, toluene, ethylbenzene and xylene (BTEX). In 2006, grab groundwater samples collected from three soil borings detected 18,000 ug/L TPHg and 690 ug/L benzene, indicating that an unauthorized release of petroleum hydrocarbons had occurred and this Leaking Underground Fuel Tank (LUFT) case was opened to investigate the release. Environmental investigations were conducted between 2001 and 2006, prior to and during site redevelopment into a mixed commercial and residential multi-story building. To accommodate the below-grade stacked parking associated with the podium-style parking structure on the ground floor, the northeastern portion of the property was excavated in a rectangular-shaped area measuring 150 feet in length by 20 feet width by 15 to 21 feet in depth. This excavation was oriented perpendicular to the two former gasoline USTs and possibly resulted in the partial removal of secondary source

associated with the former gasoline USTs. This LUST case was evaluated for closure consistent with the State Water Resource Control Boards Low-Threat Underground Storage Tank Closure Policy (LTCP) for petroleum related contaminants. ACDEH determined that the site meets all the LTCP General Criteria and the Media Specific Criteria for Direct Contact and Outdoor Air Exposure, but not the Media Specific Criteria for Groundwater or the Media Specific Criteria for Vapor Intrusion to Indoor Air. Although the site does not meet the distance criteria to the nearest surface water body, ACDEH has determined that the extent of dissolved petroleum hydrocarbons for the site should be expected to extend an average distance or less of approximately 250 feet. This estimate is conservative because the USTs were removed in 1986 and additional secondary source was removed during excavation and prior to development in 2006. Additionally, although the site does not meet the Media Specific Criteria for Vapor Intrusion to Indoor Air, documentation indicates that a vapor barrier was installed below the building. However, since the plans were not provided for ACDEHs review and approval or a record report of construction for the vapor barrier installation was not submitted, ACDEH cannot verify that the vapor barrier was installed to specifications. The ground floor is occupied by commercial space and a podium-style parking structure with below-grade stacked parking, ACDEH is reasonably confident that the site poses a low risk to human health and safety and the environment. The determination was based on receptors and environmental conditions identified at and in the vicinity of the site at the time of closure and reasonably anticipated near-term future scenarios. Therefore, case closure is granted for the current commercial land use as a mixed-use commercial and residential multi-story building. If a change in land use to any residential, commercial other than as a mixed-use commercial and residential multi-story building, or conservative land use, or if any site redevelopment is planned, Alameda County Department of Environmental Health (ACDEH) must be notified as required by Government Code Section 65850.2.2. Any below grade work require planning and implementation of appropriate healthand safety procedures by the responsible party prior to and during excavation and construction activities.

for the business and complied with all of its provisions. CORRECTIVE ACTION: Submit documentation to the CUPA demonstrating that you have complied with the requirement within 30 days. ACDEH will provide a form to be utilized to fulfill this requirement.

Site ID: 85484
Site Name: Western Dental
Violation Date: 05-01-2018
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)

Violation Description: Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.

Violation Notes: Returned to compliance on 05/01/2018. OBSERVATION: A clear 5 gallon container of used oil in the storage room did not have a start accumulation date. All hazardous waste containers shall be marked with the following information: 1) the words Hazardous Waste ; 2) name and address of generator; 3) hazardous properties; 4) physical state; 5) composition (contents); 6) accumulation start date. CORRECTED ON SITE. The Floor Supervisor Sandra Robles added the start accumulation date based on disposal records. This was corrected on site.

 Status: Open - Site Assessment
 Status Date: 12/03/2019
 Case Worker: DY
 RB Case Number: Not reported
 Local Agency: ALAMEDA COUNTY LOP
 File Location: All Files are on GeoTracker or in the Local Agency Database
 Local Case Number: RO0003295
 Potential Media Affect: Aquifer used for drinking water supply, Soil, Soil Vapor
 Potential Contaminants of Concern: 1,1,1-Trichloroethane (TCA), Acetone, Dichloroethane (DCA), Dichloroethene (DCE), Tetrachloroethylene (PCE), Benzene, Diesel, Ethylbenzene, Gasoline, Naphthalene, Toluene, Total Petroleum Hydrocarbons (TPH), Xylene

Site History: The Site is located in a mixed-use area of downtown Oakland and is currently developed as a 7,500 square foot building formerly doing business as Aqua Skin Care & Day Spa. Paved parking areas are located to the west and northeast of the Site building. The eastern and southern property lines are bound by 12th street and Alice Street, respectively. Historical records indicate that the Site was occupied by residential dwellings from 1889 to 1911 and from 1939 to 1974 by two different gas stations. From 1980 onwards the Site has been occupied with the present-day structure and two adjacent parking lots. Review of historical Sanborn Maps and aerial photographs indicate the former service stations included multiple fueling configurations. Results of recognized environmental conditions identified in the Phase I were further investigated as part of the Phase II subsurface investigation conducted at the Site without regulatory oversight during November and December 2017. Five borings and six sub-slab vapor pins were advanced for the collection of soil, soil vapor, sub-slab vapor, and groundwater samples. Data from the Phase II investigations indicate that total petroleum hydrocarbons as gasoline (TPH-g) was detected in soil located in the southern corner of the Site building. Grab groundwater samples collected from five borings reported detections of TPHg, TPH as diesel (TPH-d), and other

volatile organic compounds (VOCs) including chloroform, 1,1-dichloroethane, 1,1 dichloroethene, 1,2-dichloropropane, trans-1,2-dichloroethene, tetrachloroethene (PCE), 1,1,1 trichloroethane, and styrene. A potential new tenant is proposing to redevelop the Site into a Day Care Center which would include remodeling of the existing building and installation of new subsurface utilities and construction of a proposed outdoor play area in the western parking lot. The potential tenant will be conducting site investigations activities under agree with the property owner in order to evaluate potential human risk to occupants of the proposed Day Care Center. In July 2018 an additional subsurface investigation was conducted at the site and included the advancement of 12 indoor sub-slab vapor pins and 3 outdoor soil vapor probes. The sub-slab vapor pin locations were advanced in a 25-foot by 25-foot grid across the entire building footprint and generally located over or near former gas station subsurface infrastructure. Three soil vapor probes were advanced in the western parking area to evaluate subsurface vapor in this area. All sub-slab vapor and soil vapor samples were analyzed for TPH-g, VOCs, and fixed gases by EPA Method TO-15. Results from sub-slab vapor pins (SS-6 through SS-17) indicate total petroleum hydrocarbons as gasoline (TPH-g) was detected in all sub-slab pins at concentrations up to 890 micrograms per cubic meter (a%g/m3). Volatile organic compounds (VOCs) were also reported in sub-slab samples including acetone, 2 butanone, tetrahydrofuran, toluene, isopropyl alcohol, xylenes, and tetrachloroethene (PCE). Soil gas probes (SVP 1 through SVP-9), collected in the area of the proposed outdoor play area, reported TPH-g concentrations in all soil vapor probes with a maximum reported concentration of 770 a%g/m3. Soil and soil vapor samples collected at a depth of five foot below ground surface (bgs) or greater beneath the onsite building and adjacent vicinity indicate TPH concentrations remain low. Oxygen results reported from the sub-slab and soil vapor probes installed at the 5-foot bgs interval indicate the presence of a bioattenuation zone. Investigation results indicate media-specific criteria for vapor intrusion to indoor air criteria is considered low risk under the State Water Resources Control Board's Low Threat Underground Storage Tank Case Closure Policy (LTCP) under the current building configuration and outdoor air exposure in the proposed play area from residual contamination in the subsurface from historic use as a commercial fueling station. A soil and groundwater management plan (SGMP) was prepared to describe procedures to be followed by environmental consultants, construction contractors and workers, and other property owner representatives during any proposed property improvements. Furthermore, tenant improvements include the installation of new subsurface utilities, potentially affecting preferential pathway contaminant vapor migration from subsurface to indoor air, therefore, additional sub-slab vapor and indoor air samples will be collected post utility installation to insure vapor migration to indoor air is not a completed pathway. Case files also indicate additional soil and groundwater investigations are warranted to address LTCP General Criteria e (site conceptual model) , f (secondary source), and media specific criteria for groundwater.

Status Date: 02/10/2020
Global Id: T10000014012
Lead Agency: ALAMEDA COUNTY LOP
Lead Agency Case Number: RO0003413
Latitude: 37.8083507473531
Longitude: -122.268335104283
Case Type: Cleanup Program Site
Case Worker: DY
Local Agency: ALAMEDA COUNTY LOP
RB Case Number: Not reported
File Location: All Files are on GeoTracker or in the Local Agency Database
Potential Media Affected: Soil, Under Investigation
Potential Contaminants of Concern: Chlordane, Arsenic, Lead, Nickel, Total Petroleum Hydrocarbons (TPH)
Site History: Alameda County Department of Environmental Health (ACDEH) has been providing regulatory environmental oversight for the investigation and cleanup activities associated with Cleanup Site Program Case No. RO0003413 since February 2020 subsequent to referral by the City of Oakland Planning and Building Department. To redevelop the Site, environmental investigations are required to evaluate impacts to the subsurface from historic land use and develop corrective actions to reduce potential risk to construction workers, the surrounding community, and occupants of the new development. Subsurface investigations have been conducted to evaluate historical operations at the Site including but not limited to various commercial configurations such as dry-cleaning/laundry, blacksmith, wagon shop, and numerous retail such as physicians office, photo shop, jewelers. Results of these subsurface investigations has identified chemicals of concern (COCs) in environmental media (soil). To address this contamination prior to development, proposed corrective actions include remedial soil excavation and off-Site disposal of impacted soil at a permitted disposal facility. Proposed redevelopment of the Site includes a 39-story residential tower and a 4-story office retail building with one level of subsurface parking. Redevelopment will include the demolition of the existing commercial properties and excavation of soil to about 26-32 feet below ground surface for construction of a mat slab foundation. The 0.7-acre subject site consists of two land parcels associated with Assessor's Parcel Numbers (APNs) 008-0638-006-05 and 008-0638-007-10. The current site owner is 19th & BWAY Associates, LLC however a property transaction with Behring Capital is pending. Site redevelopment activities have been permitted by the City of Oakland and will include excavation of depths of up to 32 feet below ground surface (bgs) and construction of subsurface parking and an office/retail tower; Historic land use at the site dates back as early as 1889 and includes but is not limited to dry cleaning, blacksmith and wagon shop, office, typewriter and carbon ribbon company, physician offices, automotive, photoshop, theater, and parking lots. Historic land use at nearby properties include a brewery, planning mill, laundry, plating and polishing facility, paints, vulcanizing, plumbing supplies, and motorcycle repair. Undocumented fill material (including debris consisting of concrete, metal, glass, and wood) has been document to depths of approximately 12 feet bgs. Results from limited site investigations conducted in 2016 document chemicals of concern in soil and groundwater at concentrations above environmental risk based screening levels.

Violations:

Site ID: 127193
Site Name: Kaiser Permanente Regional offices
Violation Date: 01-14-2014
Citation: 23 CCR 16 2636(f) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2636(f)

Violation Description: Failure to continuously monitor the interstitial space of the tank, piping and/or sumps sump such that the leak detection activates an audible/visual alarm when a leak is detected.

Violation Notes: Returned to compliance on 03/27/2014. During the annual site inspection it was observed that the interstitial access drop tube has corroded to the point of chocking access to interstitial sensor. Technician could not retrieve the sensor to conduct a functionality test.

Violation Division: Oakland City Fire Department
Violation Program: UST
Violation Source: CERS,

Site ID: 127193
Site Name: Kaiser Permanente Regional offices
Violation Date: 01-31-2017
Citation: 22 CCR 12 66262.40(a) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.40(a)

Violation Description: Failure to keep a copy of each properly signed manifest for at least three years from the date the waste was accepted by the initial transporter. The manifest signed at the time the waste was accepted for transport shall be kept until receiving a signed copy from the designated facility which received the waste.

Violation Notes: Returned to compliance on 02/24/2017. OBSERVATION: Copies of designated facility signed hazardous waste disposal records for 2014, 2015, and 2016 were not found on site. Hazardous waste generators shall retain copies of all manifests signed off by the disposal facility and all receipts used in a consolidated manifesting procedure on site for three years and have them readily available for review. Designated Facility manifests copies are remitted to 1800 Harrison Kaiser Building for record keeping; this practice provides a centralized method of maintaining manifests. However, each generator location shall maintain a copy of the designated facility signed manifest that ensures cradle to grave tracking of all hazardous waste shipped. CORRECTIVE ACTION: Immediately locate a copy of all manifests and receipts for the last three years, maintain them on site. Inform

Eval Notes: Routine hazardous waste generator (HWG) inspection of Kaiser Permanente Regional offices at 1950 Franklin St, Oakland, CA 94612. Facility walk through and permission granted by David R Woods, Chief Engineer. This Kaiser location is a RCRA conditionally-exempt small quantity generator. California non-RCRA status is small quantity generator. The majority of hazardous waste (42% to 97%) is friable asbestos. The rest of the hazardous waste streams are generated periodically/episodically due to facility clean-outs of aged materials. Email inspection reports to: David R Woods (david.r.woods@kp.org). This facility is an office / administration building for Kaiser Permanente. The building has one UST located in the sidewalk along Webster St., a propane storage area in the loading bay / basement, an emergency backup generator and day tank located on the 21st floor, and a building engineering shop on the 21st floor. Environmental Interest/Information System:

AIR EMISSIONS CLASSIFICATION UNKNOWN
California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Violation Date: 07-23-2015
Citation: 23 CCR 16 2715 - California Code of Regulations, Title 23, Chapter 16, Section(s) 2715

Violation Description: Failure to comply with one or more of the designated operator monthly inspection requirements: failed to inspect the monthly alarm history report; attach a copy of the alarm history; failed to inspect for the presence of liquid or debris in the spill container/spill bucket and under dispenser containment; failed to inspect the under dispenser containment to ensure that monitoring equipment is placed in the proper position; failure to inspect for liquid or debris in the containment sump where an alarm occurred or for which there is no record of a service visit; or failure to check that all testing and maintenance has been completed and documented.

Violation Notes: Returned to compliance on 07/20/2017. OBSERVATION: JUNE 2015 REPORT DOES NOT INCLUDE ANY DOCUMENTATION OR RESPONSE TO TANK 1 BEING FILLED TO 100% OF CAPACITY IN VIOLATION FOR TITLE 23 AND THE H&SC.

Citation: 40 CFR 1 265.31 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.31

Violation Description: Failure to maintain and operate the facility to minimize the possibility of a fire, explosion, or any unplanned sudden or non-sudden release of hazardous waste or hazardous waste constituents to air, soil, or surface water which could threaten human health or the environment.

Violation Notes: Returned to compliance on 07/16/2018. OBSERVATIONS: Waste brake shavings are overflowing their container and are all over the floor. Facility has determined that this waste stream is a hazardous waste. CORRECTIVE ACTIONS: Immediately place all brake shavings into a closed metal drum and manage it as a hazardous waste. Submit a written statement on how this area will be managed. Dispose of the brake shavings and submit a copy of the disposal receipt to ACDEH.

Violation Notes: The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.
Returned to compliance on 07/16/2018. OBSERVATION: Facility last disposed of waste coolant on 1/11/17. Waste oily debris was last disposed of on 3/10/14. Facilities who generate less than 1000 kg of hazardous waste per month and do not exceed 6000 kg of waste stored on site at any time may store waste on site up to 180 days. All hazardous waste must be disposed of every six months. CORRECTIVE ACTION: Immediately contact a licensed hazardous waste hauler to dispose of this waste under manifest and submit a copy of the manifest to ACDEH.

Violation Description: For designated operator (DO) monthly inspections conducted before October 1, 2018, failure to comply with one or more of the following requirements: Be performed by an ICC certified DO. Inspect monthly alarm history report, check that alarms are documented and responded to appropriately, and attach a copy. Inspect for the presence of liquid/debris in spill containers. Inspect for the presence of liquid/debris in under dispenser containment (UDC) and ensure that the monitoring equipment is positioned correctly. Inspect for liquid or debris in containment sumps where an alarm occurred with no service visit. Check that all testing and maintenance has been completed and documented. Verify that all facility employees have been trained in accordance with 23 CCR 2715(c). For designated operator (DO) 30 day inspections conducted on and after October 1, 2018, failure to conduct the designated UST operator visual inspection at least once every 30 days.

Violation Notes: Returned to compliance on 08/05/2019. Facility did not comply with one or more of the following DO monthly inspection requirements; Check that all testing and maintenance has been completed and documented. DO inspections conducted after 9/30/2018 must be every 30 days and in accordance with sections 2716(a)-(e). The October 2018 through July 2019 DO reports were not signed. The DO reports shall be signed by the owner/operator or designated employee within 48 hours of the DO inspection. Ensure that DO is complying with all the requirements noted above. Submit copy of compliant DO inspection record.

Violation Date: 07-23-2019
Citation: 23 CCR 16 2712(b)(1)(G) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2712(b)(1)(G)
Violation Description: Failure to comply with one or more of the following overfill prevention equipment requirements: Alert the transfer operator when the tank is 90 percent full by restricting the flow into the tank or triggering an audible and visual alarm; or Restrict delivery of flow to the tank at least 30 minutes before the tank overfills, provided the restriction occurs when the tank is filled to no more than 95 percent of capacity; and activate an audible alarm at least five minutes before the tank overfills; or Provide positive shut-off of flow to the tank when the tank is filled to no more than 95 percent of capacity; or Provide positive shut-off of flow to the tank so that none of the fittings located on the top of the tank are exposed to product due to overfilling. Install/retrofit overfill prevention equipment that does not use flow restrictors on vent piping to meet overfill prevention equipment requirements when the overfill prevention equipment is installed, repaired, or replaced on and after October 1, 2018. For USTs installed before October 1, 2018, perform an inspection by October 13, 2018 and every 36 months thereafter. For USTs installed on and after October 1, 2018, perform an inspection at installation and every 36 months thereafter. Inspected within 30 days after a repair to the overfill prevention equipment. Inspected using an applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer. Inspected by a certified UST service technician. Maintain records of overfill prevention equipment inspection for 36 months.
Violation Notes: Returned to compliance on 09/04/2019. Owner/Operator failed to meet one or more of the requirements applicable to overfill prevention equipment. The overfill prevention was not conducted by October 13, 2018. Maintain overfill prevention system to comply with the deficiencies noted above. A UST Modification Permit has already been approved by the CUPA to replace the drop tubes.

Eval Notes: On site with Rick Salaverria, Lead Mechanic for GSA. Scot Allan previously granted permission to conduct this inspection. The Hazardous Waste Generator program was the only program inspected today. There is a sump near the waste coolant and new soap storage area that has liquid in it. According to Mr. Salaverria Safety-Kleen will be pumping it out later this week. Ensure that no liquid accumulated in that sump. Facility may want to consider moving all hazardous materials/waste from that area to avoid contaminating this sump. Facility is a Small Quantity Generator and thus all hazardous waste must be disposed of at least every six months (except for used oil filters and waste aerosols which must be disposed of annually). Ensure that all empty drums are labeled as "empty". All violations noted in this Hazardous Waste Generator inspection report are to be corrected within 30 days and proof of those corrections submitted to this office in the same time [Truncated]

S121738512

Eval Notes: ROUTINE INSPECTION- INVENTORY OF UNDER THRESHOLD CHEMICALS CAN BE REMOVED FROM THE INVENTORY, INCLUDING GASES LESS THAN 200 CU FT. ONE GALLON CONTAINERS OF COOLANT DO NOT NEED TO BE REPORTED SINCE LESS THAN 55 GALLONS. RECOMMEND SERVICING EYE WASH STATIONS ON A 30 DAY BASIS, AS THEY ARE NOT SERVICED CURRENTLY.

Eval Division: Alameda County Environmental Health
Eval Program: HMRRP
Eval Source: CERS,

Eval General Type: Compliance Evaluation Inspection
Eval Date: 07-26-2021
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: ALAMEDA COUNTY DEPARTMENT OF ENVIRONMENTAL HEALTH (ACDEH) ON SITE FOR ROUTINE HAZARDOUS WASTE GENERATOR (HWG) PROGRAM INSPECTION. ESCORTED BY RICKY SALAVERRIA, THE LEAD MECHANIC, JASON GARRISON, THE ENVIRONMENTAL PROGRAM MANAGER AND MIKE BISHOP, THE ENVIRONMENTAL PROJECT MANAGER. ALL VIOLATION NOTED IN THE INSPECTION REPORT SHALL BE CORRECTED IMMEDIATELY. THE FACILITY HAS LESS THAN 9 EMPLOYEES THAT HANDLE HAZARDOUS WASTE AFTER REVIEWING THE GENERATOR'S DISPOSAL RECORDS AND BUSINESS OPERATIONS, IT WAS OBSERVED THE FACILITY IS A SMALL QUANTITY HAZARDOUS WASTE GENERATOR WHO GENERATES MORE THAN 100 KG, BUT LESS THAN 1000 KG OF HAZARDOUS WASTE PER MONTH

Eval Division: Alameda County Environmental Health
Eval Program: HW
Eval Source: CERS,

Eval General Type: Other/Unknown
Eval Date: 09-06-2019
Violations Found: No
Eval Type: Other, not routine, done by local agency
Eval Notes: ALAMEDA COUNTY DEPARTMENT OF ENVIRONMENTAL HEALTH (ACDEH) ON SITE FOR SR0038040 TESTING SPILL BUCKETS AFTER BEING REPLACED. THE TECHNICIAN WAS MICK JORDAN OF ARMER/NORMAN & ASSOCIATES. BOTH SPILL BUCKETS PASSED TESTING.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Technical Workplan
Completed Date: 12/30/2020
Comments: The Memo summarizes previous Site environmental investigations conducted in 2015, 2016, 2017, and results from soil, soil gas, and groundwater sampling that Roux conducted in 2020. Environmental investigations indicate that the following contaminants of potential concern (COPCs) are present at the Site above applicable DTSC Human and Ecological Risk Office Note 3 screening levels, United States Environmental Protection Agency Regional Screening Levels, and/or San Francisco Bay Regional Water Quality Control Board Environmental Screening Levels: lead, benzo(a)pyrene, dibenzo(a,h)anthracene, total petroleum hydrocarbons as diesel (TPH-d), and TPH as motor oil (TPH-mo) in soil; 1,2-dichloroethane (1,2-DCA), and TPH-d in groundwater; and 1,2-DCA, benzene, chloroform, and trichloroethylene (TCE) in soil vapor. TCE is also found above the screening levels within 100-feet of distance from the property boundaries in groundwater. The memo outlines remediation activities that may be conducted to reduce risk to human health and the environment. Remediation activities and controls will likely include the following: soil excavation, importing clean fill, soil consolidation and stabilization, groundwater treatment and/or groundwater use restriction, vapor barrier, sub slab venting system and/or vapor mitigation system. An Operations and Maintenance plan will be required to ensure that the vapor barrier is effective, and a land use covenant may be necessary to ensure that all the environmental conditions at the site remain protective of human health and the

Environmental Interest/Information System:

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

 RB Case Number: Not reported
 Local Agency: ALAMEDA COUNTY LOP
 File Location: All Files are on GeoTracker or in the Local Agency Database
 Local Case Number: RO0003232
 Potential Media Affect: Other Groundwater (uses other than drinking water), Soil
 Potential Contaminants of Concern: Acetone, Benzene, Diesel, Ethylbenzene, Gasoline, Naphthalene, Toluene, Xylene
 Site History: Site is a 5-story multi-family mixed-use residential complex on Jackson between 11th and 12th Streets. The first floor of the building is commercial and on grade open ventilated parking with utility rooms and 2 elevators with retail suites along a portion of the Jefferson Street frontage. Previously, the site was developed with the Oakland Hospital as early as 1889. Residential structures were located on-site in the early 1900s, with an automobile repair garage present from at least 1911 through 1933. By the 1940s/1950s, a glass shop was present, as was a retail building and parking lots. By the 1960s/1970s, a store and warehouse were present, as was a private school. In 2005, site development included a warehouse, beauty salon, market, and offices. All historic on-site structures reportedly were demolished in January 2007. Construction of the current building was initiated in 2016. Three underground storage tanks (USTs) used for the storage of gasoline were removed from beneath the sidewalk adjacent to the site along Jackson St. during utility trench work associated with site redevelopment. The USTs, having capacities of 265 gallons, 265 gallons, and 110 gallons, were removed on April 15, 2016 and noted to be poor condition. Petroleum hydrocarbon contamination was observed in the tank pit. The laboratory analysis report for excavation samples included total petroleum hydrocarbons as gasoline (TPHg) to 2,480 milligrams per kilogram (mg/kg) and naphthalene to 4.59 mg/kg. On May 4, 2016 a limited excavation of the tank pit was performed with confirmation sample concentrations of TPHg reported to 6,320 mg/kg and benzene, toluene, ethyl benzene, and xylenes (BTEX) to 0.943 mg/kg, 0.805 mg/kg, 0.624 mg/kg, and 3.05 mg/kg, respectively, and naphthalene to 2.58 mg/kg. Additionally, several volatile organic compounds (VOCs) and semi-volatile organic compounds (SVOCs) were reported at concentrations above their

S112909506

respective reporting limits. A total of 78.20 tons soil manifested for off site disposal. A fourth sidewalk UST, having a capacity of 750 gallons, reported to be used for the storage of diesel fuel, was discovered and removed from beneath the sidewalk adjacent to the site along Jackson St. in November 2016. The tank was reported in poor condition with visible holes. In September 2016, a tank removal report was prepared documenting the activities associated with the April 2016 removal of 3 USTs. Tank contents samples T1-TC, T2-TC and T3-TC were collected from each tank for profiling. Additionally, discrete soil stockpile samples, 9669-SP1-DISCRETE, 9669-SP2-DISCRETE and 9669-SP3-DISCRETE and an additional 4-point composite sample from the drummed soil (9669-DRUM-COMP) were also collected for disposal profiling. Samples were analyzed for TPH-g, TPH-d, TPH-mo, TPH-k and VOCs. Confirmation soil samples T1-C-9, T2-C-9, and T3-C9 (all having the 9699 prefix) were collected from the beneath each of the USTs. The areas delineated by these samples were subsequently over excavated. Confirmation soil samples (having the 9699 prefix) P1-4, P2-3.3 and P3-4, were recovered from the piping runs. Over-excavation soil samples, also having the 9699 prefix, are bottom samples T1-C-12, T2-C-12.5 and T3-C-12 and sidewalls samples T1-NW-8, T1-EW-8, T1-WW-8, T2-SW-8, T2-EW-8, T2-WW-8, T3-NW-8, T3-SW-6.5, T3-EW-9 and T3-WW-8 were analyzed for TPH-g, TPH-d and TPH-mo, TPH-k, VOCs, SVOCs and the 5 LUFT metals. TPH-g was detected at concentrations ranging from 78.8 to 6,320 milligrams per kilogram (mg/kg). TPH-d was non-detect for the eight (8) sidewall and 3 bottom samples. TPH-mo concentrations were reported to range from non-detect to 135 mg/kg in the 8 sidewall samples and non-detect for the 3 bottom samples. TPH-k concentrations of up to 580 mg/kg were reported. Several VOCs were present, including benzene, butylbenzenes, ethyl benzene, propylbenzenes, p-isopropyltoluene, naphthalene, 1,2,4-trimethylbenzene, toluene and xylenes; however, none of the detected VOC concentrations were reported to exceed their respective screening levels. MTBE was not detected above laboratory limits in any soil samples collected. Concentrations of the SVOCs acenaphthene, anthracene, benzo(a)anthracene, benzo(a)pyrene, benzo(b)fluoranthene, benzo(g,h,i)perylene, benzo(k)fluoranthene, chrysene, fluoranthene, fluorene, 1-methylnaphthalene, 2-methylnaphthalene, naphthalene, and phenanthrene and pyrene were also reported. Additionally, none of the detected metals concentrations exceeded their respective environmental screening levels. On 11 August, 2016, four borings (EB-1 through EB-4) were advanced through the sidewalk to a maximum depth of 28 feet bgs to assess soil and groundwater conditions adjacent to the 3 USTs. Only soil samples from the bore EB-2 were submitted for laboratory analysis. Scope of the analysis was TPH-g, TPH-d and TPH-mo, VOCs and the 5 wear metals. TPH-g, TPH-d and TPH-mo were detected in all three soil samples (EB-2-13, EB-2-15.5, and EB-2-22.5) with TPH-g reported at concentrations ranging from 200 to 5,000 mg/kg. TPH-d concentrations ranged from 18 to 830 mg/kg and TPH-mo concentrations ranged from 5.5 to 14 mg/kg. The VOCs, ethylbenzene, xylenes, butyl-benzenes, propylbenzenes, trimethylbenzenes and naphthalene were detected at concentrations above the laboratory reporting limit in all three samples. Benzene and MTBE were not detected above laboratory limits in any soil samples collected during this investigation. Metals concentrations were reported within background levels. Groundwater was encountered at depths ranging from 20 to 22 feet bgs. EB-1-GW through EB-4-GW GW sample concentrations for TPH-g

1110 JACKSON ST (Continued)

S112909506

and TPH-d were reported at up to 30,000 "g/L and 55,000 "g/L, respectively. Concentrations of VOCs, including acetone, benzene, 2-butanone, sec-butyl benzene, cis-1,2-dichloroethene, ethylbenzene, naphthalene, isopropylbenzene, 4-isopropyl toluene, n-propyl benzene, trimethylbenzenes and xylenes, were also documented. The maximum benzene concentration of 320 "g/L was detected in the EB-2 GGW sample. In November 2016, a fourth UST was encountered during trenching for utility installation. Holes and stained soil were evident at the time of its removal. Two discrete soil samples, designated 9669-N-10 and 9660-S-10 were collected at a depth of 10 feet bgs from beneath each end of the tank. The samples were analyzed for TPH-d, BTEX and naphthalene. TPHd concentrations were reported at 1,400 mg/kg and 2,800 mg/kg, respectively, and naphthalene concentrations at 0.71 mg/kg and 3.1 mg/kg, respectively. Xylenes were reported in one sample, 9660-S-10 at 0.3 mg/kg. BTE compound concentrations were below their respective laboratory reporting limit. In November 2016, an on-site investigation consisting of installation and sampling six (6) sub-slab (SS-1 through SS-6) sample points and five (5) soil gas wells (SG-1 through SG-5) for the collection of soil vapor and 4 bores (EB-5 through EB-8) for the recovery of soil and GGW samples. Sub-slab sample point SS-6 was added to the investigation following the discovery of the fourth UST. The sub-slab and soil gas samples were analyzed for VOCs, methane, and the leak check gas helium. Soil and GGW samples were analyzed for TPH-g, TPH-d, and TPH-mo; VOCs and PAHs. Soil samples were additionally analyzed for LUFT metals. Of the six sub-slab vapor samples analyzed, a total of 12 VOCs, including acetone, benzene, 2-butanone or methyl ethyl ketone (MEK), carbon disulfide, cyclohexane, dichlorodifluoromethane (Freon 12), Freon 113, n-hexane, isopropanol, toluene, carbon disulfide, cyclohexane, dichlorodifluoromethane or Freon 12, Freon 113, n-hexane, isopropanol, and xylenes were detected. None of the VOCs concentrations reported for any of the six sub-slab samples analyzed exceeded Of the five soil gas samples analyzed, a total of 11 VOCs, including acetone, benzene, 2-butanone or MEK, carbon disulfide, cyclohexane, dichlorodifluoromethane or Freon 12, ethylbenzene, n-hexane, toluene, trichlorofluoromethane, and xylenes were detected. None of the VOCs detected in any of the five soil gas samples analyzed exceeded their respective Tier 1 ESLs, where established. Two of the five soil gas samples, SG3-2016-11-17 and SG5-2016-11-17, had detectable concentrations of methane at 1.22 %v and 1.21 %v, respectively. Soil samples were collected from depths of 4.5 and 8.5 feet bgs from each soil boring. TPH-d was detected in one (EB-6-4.5) of the eight samples analyzed, at a concentration of 15 mg/kg. TPH-mo was detected in two of the eight samples analyzed, at concentrations of 160 mg/kg (EB-6-4.5) and 5.1 mg/kg (EB-8-4.5). Naphthalene was the only VOC detected in the eight soil samples analyzed and was detected in a one sample, EB-6-4.5 at a concentration of 0.010 mg/kg. TPH-g was not detected at or above the laboratory reporting limit in any of the eight samples analyzed. Concentrations of PAHs were detected in two (EB-6-4.5 and EB-8-4.5) of the eight soil samples analyzed, with BaPe concentrations more than an order of magnitude below the LTCP Direct Contact and Outdoor Air threshold values. Four of the 5 LUFT metals were reported at concentrations within background levels. However, lead in 2 soil samples (EB-6-4.5 and EB-8-4.5) were detected concentrations above background at 150 mg/kg and 97 mg/kg, respectively. TPH-g was not detected in any of the 4 GGW samples

analyzed. TPH-d was detected two of the four samples analyzed, at concentrations of 70 "g/L (EB-8-GW) and 290 "g/L (EB-6-GW). TPH-mo was detected in each of the four samples at concentrations ranging from 100 "g/L to 2,800 "g/L. Concentrations of TBA and PCE were the only VOCs detected in the grab groundwater samples. Acenaphthylene, reported in three of the 4 GGW samples, was the only PAH detected. Acenaphthylene concentrations ranged from 0.133 "g/L to 0.607 "g/L. In December 2016, the tank pit for the fourth UST was over-excavated and confirmation samples (all having the 9669 prefix) recovered. Three bottom samples- C-14, C-17.5 and C-18.5, and four (4) sidewall samples (SW-9, EW-9, WW-8.5 and NW-9) were submitted for laboratory analysis for TPH-d, BTEX and naphthalene. Samples C-17.5 and C-18.5 were also analyzed for PAHs. Concentrations of TPH-d, ranging from 1,100 mg/kg to 11,000 mg/kg, were reported for the three bottom samples and ranged from 1.7 to 4,400 mg/kg for the 4 sidewall samples. Xylenes (1.2 mg/kg) and naphthalene (6.9 mg/kg) were reported for one bottom sample (C-14) and 2 sidewall samples, WW-8.5 and NW-9, at 0.53 and 1.2 mg/kg and 6.4 and 16 mg/kg, respectively. Samples C-17.5 and C-18.5 were reported to contain the PNA compounds phenanthrene, anthracene, fluoranthene, pyrene, benzo (a) anthracene, benzo (a) pyrene, benzo (b) fluoranthene, benzo (k) fluoranthene and dibenzo (a,h) anthracene. Additionally, sample C-17.5 contained detectable concentrations of fluorene, chrysene, benzo (g,h,i) perylene and ideno (1,2,3-cd) pyrene. An investigation conducted in January 2018 consisted of advancing five (5) soil bores (EB-9 through EB-13) for the collection of soil and GGW samples. The borings were advanced to depths ranging from 27 to 38 feet bgs. Groundwater was measured at depths ranging from 19 to 21 feet bgs. In each boring, two soil samples were collected within the first five feet, and at five foot intervals thereafter (i.e. 10, 15, 20 feet bgs) until groundwater was encountered. GGW samples were collected from four of the five borings at two discrete depths- shallow (first encountered water) and deep (10 feet below shallow water). Soil and GGW samples were analyzed for TPH-g, TPH-d and TPH-mo and VOCs. TPH-g was not detected above the laboratory reporting limit in the 34 soil samples analyzed; TPH-d was detected in two of 34 samples at concentrations of 1.6 and 1.9 mg/kg; TPH-mo was detected in five of 34 samples at concentrations ranging from 6.8 to 23 mg/kg; and VOCs were not detected above the laboratory reporting limit in any soil samples collected from EB-9 through EB-13. GGW analysis results documented TPH-g concentrations below laboratory reporting limits in the 10 samples analyzed; TPH-d concentrations were detected in seven of 10 samples analyzed ranging from 67 to 250 "g/L; TPH-mo was detected in five of 10 samples at concentrations ranging from 340 to 580 "g/L; and the VOCs chloroform, cis-1,2-dichloroethene, TBA, PCE and TCE were also detected. Remedial activities consisted of over-excavation of contaminated soil in conjunction with the removal of the four USTs. Size of the excavations were limited to sidewalk areas due to the proximity of underground utilities and the site structure. Approximately 78.8 tons of soil was disposed off-site with the removal of tanks 1, 2 and 3. An additional 24.74 tons of soil was disposed off-site with the over-excavation activities associated with the removal of the fourth UST. This LUST case was evaluated for closure consistent with the State Water Resource Control Boards Low-Threat Underground Storage Tank Closure Policy (LTCP) for petroleum related contaminants. ACDEH determined that the site met all the LTCP General Criteria and Media Specific Criteria and

therefore poses a low risk to human health and safety and the environment. The determination was based on receptors and environmental conditions identified at and in the vicinity of the site at the time of closure and reasonably anticipated near-term future scenarios. Elevated concentrations of petroleum hydrocarbons remain in the subsurface in the sidewalk area adjacent to the site.

File Location: All Files are on GeoTracker or in the Local Agency Database
Local Case Number: RO0002947
Potential Media Affect: Other Groundwater (uses other than drinking water)
Potential Contaminants of Concern: Gasoline
Site History: Four USTs, located under the sidewalk on 11th Street near the Webster Street intersection were removed from the site in April 1987. Significantly elevated concentrations of soil and groundwater contamination was present at the site. In 1987, borings and monitoring wells were installed at the site. In 1988, a groundwater extraction system began operation. The site was later redeveloped to an multi-story office complex with three floors of sub-grade parking.
