Completed Document Type: Community Profile
Completed Date: 05/13/2010
Comments: DTSC finalized the Community Profile Report (CPR). A copy of the CPR is to be placed in the information repositories along with Draft RAW, Draft NOE, Site Fact Sheet, and other related documents.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Fact Sheets
Completed Date: 05/05/2010
Comments: Not reported

Completed Area Name: Phase I OU
Completed Sub Area Name: Not reported
Completed Document Type: Public Notice
Completed Date: 05/05/2010
Comments: Draft RAW Phase I published. Draft RAW Phase I public review period will run from May 3, 2010 through June 2, 2010.

Completed Area Name: Phase II OU
Completed Sub Area Name: Not reported
Completed Document Type: Supplemental Site Investigation Tech Memo
Completed Date: 05/04/2010
Comments: DTSC approved the SSI Workplan for the Phase II area

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Fieldwork
Completed Date: 07/19/2010
Comments: DTSC provided field oversight of Phase I RAW excavation activities.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Fieldwork
Completed Date: 07/10/2010
Comments: SSI fieldwork for Phase II area was completed on July 10 and 11, 2010 (Sat. and Sun).

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Supplemental Site Investigation Report
Completed Date: 01/25/2011
Comments: DTSC approved the SSI-II report for the Phase II area of the site.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Other Report
Completed Date: 09/08/2010
Comments: Received additional TEM analytical results for NOA. Additional samples results show non-detect (0.01%) NOA fibers. Fill material from the proposed Doyle Drive borrow source area between Doyle Drive and the Golden Gate Bridge in San Francisco is suitable for fill material. Additionally, DTSC was informed that a second proposed borrow source area, from a quarry in Brisbane, may be used. Additional information and analytical data to be submitted for proposed A/B source area in Brisbane.

Completed Info:

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Preliminary Endangerment Assessment Report
Completed Date: 12/28/2015
Comments: The Preliminary Endangerment Assessment (PEA) report documented site conditions related to historical industrial usage of the site which included a lumber mill, bottle washing operations, warehouse, garbage truck storage, and current usage as a storage facility. The report

Map ID
Direction
Distance
Elevation

MAP FINDINGS

Site

Database(s)

LIFE LONG MED CARE (Continued)

S112875990

documented that surface soils contained elevated levels of polynuclear aromatic hydrocarbons (PAHs) which may have occurred via air deposition (from nearby historical manufactured gas plant operations) and the metal lead possibly related to historical residences or industrial operations. The report recommended placement of a Land Use Covenant (LUC) on the property to restrict future usage of the site to industrial usages. Other environmental issues were investigated from 1989-2015 which did not find significant contamination including: an asbestos manufacturing, an underground storage tank (UST), industrial piping, and former sumps.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Application
Completed Date: 10/17/2014
Comments: DTSC identified as Lead Agency

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Other Report
Completed Date: 06/01/1995
Comments: Certificate of completion for removal and disposal of asbestos containing materials.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Site Characterization Report
Completed Date: 04/21/1989
Comments: The report was prepared prior to DTSC's involvement with the site. The report documented soil sampling and/or inspection of drainage ditches, an underground vault, underground pipes, other areas with potential environmental concerns.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Phase 1
Completed Date: 03/13/1990
Comments: This report was prepared prior to DTSC's involvement with the site. The report is an abbreviated Environmental Site Assessment.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Site Characterization Report
Completed Date: 01/28/2015
Comments: The investigation was conducted prior to DTSC's involvement with the site. The report documented investigation of soils for metals and polynuclear aromatic hydrocarbons (PAHs).

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Phase 1
Completed Date: 01/05/1995
Comments: The assessment was conducted prior to DTSC's involvement with the site. The report recommended additional characterization of shallow soils for hydrocarbons, asbestos, creosote-related compounds, and lead.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Site Characterization Report
Completed Date: 12/30/1994
Comments: The report was prepared prior to DTSC's involvement with the site. The report documented environmental conditions related to historical operations of environmental concern including a lumber yard, asbestos factory, and a fuel dispenser. Surface soil samples were collected for lead and asbestos analysis. Subsurface soil samples were collected in the area of the suspected former underground storage tank (UST).

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Site Characterization Report
Completed Date: 07/25/1995
Comments: The report was prepared prior to DTSC's involvement with the site. The report documented shallow soil testing results for hydrocarbons, polynuclear aromatic hydrocarbons (PAHs), asbestos and lead.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Phase 1
Completed Date: 01/18/2005
Comments: The report was prepared prior to DTSC's involvement with the site. The report documented site conditions after construction of the SAF Keep Storage Facility in 1997.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Phase 1
Completed Date: 10/15/2014
Comments: The report was prepared prior to DTSC's involvement with the site. The report documented site conditions after the SAF Keep Storage facility was constructed in 1997.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported

Completed Info:

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Preliminary Endangerment Assessment Report
Completed Date: 12/28/2015
Comments: The Preliminary Endangerment Assessment (PEA) report documented site conditions related to historical industrial usage of the site which included a lumber mill, bottle washing operations, warehouse, garbage truck storage, and current usage as a storage facility. The report documented that surface soils contained elevated levels of polynuclear aromatic hydrocarbons (PAHs) which may have occurred via air deposition (from nearby historical manufactured gas plant operations) and the metal lead possibly related to historical residences or industrial operations. The report recommended placement of a Land Use Covenant (LUC) on the property to restrict future usage of the site to industrial usages. Other environmental issues were investigated from 1989-2015 which did not find significant contamination including: an asbestos manufacturing, an underground storage tank (UST), industrial piping, and former sumps.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Other Report
Completed Date: 06/01/1995
Comments: Certificate of completion for removal and disposal of asbestos containing materials.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Site Characterization Report
Completed Date: 04/21/1989
Comments: The report was prepared prior to DTSC's involvement with the site. The report documented soil sampling and/or inspection of drainage ditches, an underground vault, underground pipes, other areas with potential environmental concerns.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Phase 1
Completed Date: 03/13/1990
Comments: This report was prepared prior to DTSC's involvement with the site. The report is an abbreviated Environmental Site Assessment.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Site Characterization Report
Completed Date: 01/28/2015
Comments: The investigation was conducted prior to DTSC's involvement with the site. The report documented investigation of soils for metals and polynuclear aromatic hydrocarbons (PAHs).

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Phase 1
Completed Date: 01/05/1995
Comments: The assessment was conducted prior to DTSC's involvement with the site. The report recommended additional characterization of shallow soils for hydrocarbons, asbestos, creosote-related compounds, and lead.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Site Characterization Report
Completed Date: 12/30/1994
Comments: The report was prepared prior to DTSC's involvement with the site. The report documented environmental conditions related to historical operations of environmental concern including a lumber yard, asbestos factory, and a fuel dispenser. Surface soil samples were collected for lead and asbestos analysis. Subsurface soil samples were collected in the area of the suspected former underground storage tank (UST).

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Site Characterization Report
Completed Date: 07/25/1995
Comments: The report was prepared prior to DTSC's involvement with the site.

The report documented shallow soil testing results for hydrocarbons, polynuclear aromatic hydrocarbons (PAHs), asbestos and lead.

Completed Area Name: PROJECT WIDE

Completed Sub Area Name: Not reported

Completed Document Type: Phase 1

Completed Date: 01/18/2005

Comments: The report was prepared prior to DTSC's involvement with the site. The report documented site conditions after construction of the SAF Keep Storage Facility in 1997.

Completed Area Name: PROJECT WIDE

Completed Sub Area Name: Not reported

Completed Document Type: Phase 1

Completed Date: 10/15/2014

Comments: The report was prepared prior to DTSC's involvement with the site. The report documented site conditions after the SAF Keep Storage facility was constructed in 1997.

Completed Area Name: PROJECT WIDE

Completed Sub Area Name: Not reported

Completed Document Type: Other Report

Completed Date: 06/05/2015

Comments: The report was prepared prior to DTSC's involvement with the site. The report documented asbestos containing materials associated with the site buildings.

Completed Area Name: PROJECT WIDE

Completed Sub Area Name: Not reported

Completed Document Type: Public Notice

Completed Date: 03/10/2016

Comments: The Public Notice briefly described the approval of the Preliminary Endangerment Assessment (PEA) report and recommendation to restrict usage of the property with a Land Use Covenant (LUC). The Public Notice was published in a local newspaper.

Completed Area Name: PROJECT WIDE

Completed Sub Area Name: Not reported

Completed Document Type: Voluntary Cleanup Agreement

Completed Date: 03/23/2015

Comments: The Voluntary Cleanup Agreement (VCA) covers tasks for reviewing existing data, reviewing and commenting on a Preliminary Endangerment Assessment (PEA) report, and preparing a Land Use Covenant.

Completed Area Name: PROJECT WIDE

Completed Sub Area Name: Not reported

Completed Document Type: Land Use Restriction

Completed Date: 04/20/2016

Comments: The Land Use Covenant restricts the parcel from sensitive usage. The site can only be used for industrial/commercial usages.

Completed Area Name: PROJECT WIDE

Completed Sub Area Name: Not reported

Completed Document Type: Remedial Investigation Workplan

Completed Date: 11/24/2015

Comments: The work plan describes procedures for investigation of a former underground storage tank (UST) at the site. The location of drilling

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Land Use Restriction Monitoring Report
Completed Date: 01/12/2017
Comments: No disturbance of cap or changes in land use have occurred.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Land Use Restriction Monitoring Report
Completed Date: 02/14/2018
Comments: Merritt Two LP, the Site owner, submitted the annual compliance letter and an attached checklist to verify the Site was in compliance with the environmental restrictions of the Land Use Covenant during 2017.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Certification
Completed Date: 05/12/2016
Comments: The Merritt Two site was investigated and slightly elevated levels of lead and polynuclear aromatic hydrocarbons (PAHs) were found in shallow soils (the contaminant concentrations are above established residential levels but acceptable for commercial/industrial levels) from historical industrial operations. Since the owner intends to continue commercial/industrial usage of the property, a Land Use Covenant was recorded with the County Recorder to restrict future usage to commercial/industrial purposes (and a copy was sent to the City of Oakland Planning Department for placement in the property file). On an annual basis the owner is required to certify that the site is in compliance with the usage restrictions.

- . Waste code: F002
- . Waste name: THE FOLLOWING SPENT HALOGENATED SOLVENTS: TETRACHLOROETHYLENE, METHYLENE CHLORIDE, TRICHLOROETHYLENE, 1,1,1-TRICHLOROETHANE, CHLOROBENZENE, 1,1,2-TRICHLORO-1,2,2-TRIFLUOROETHANE, ORTHO-DICHLOROBENZENE, TRICHLOROFLUOROMETHANE, AND 1,1,2, TRICHLOROETHANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

- . Waste code: F003
- . Waste name: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

- . Waste code: F005
- . Waste name: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Corrective Action Summary:

- Event date: 1990-09-27 00:00:00.0
- Event: RFA COMPLETED-ASSESSMENT WAS A RFA

- Event date: 1990-09-27 00:00:00.0
- Event: RFA COMPLETED

- Event date: 1990-09-27 00:00:00.0
- Event: DETERMINATION OF NEED FOR AN INVESTIGATION-INVESTIGATION IS NECESSARY

- Event date: 1992-03-29 00:00:00.0
- Event: INVESTIGATION IMPOSITION

- Event date: 1992-03-29 00:00:00.0
- Event: CMS IMPOSITION

- Event date: 1993-06-16 00:00:00.0
- Event: STABILIZATION MEASURES EVALUATION-FACILITY NOT AMENABLE TO STABILIZATION

- Event date: 1993-06-18 00:00:00.0
- Event: CA PRIORITIZATION-LOW CA PRIORITY

- Event date: 1996-01-01 00:00:00.0
- Event: INVESTIGATION IMPOSITION

Environmental Interest/Information System:

AIR EMISSIONS CLASSIFICATION UNKNOWN
California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: RFI Report
Completed Date: 05/20/1996
Comments: RCRA FACILITY INVESTIGATION (RFI) REPORT, March 27, 1996. The focus of the RFI activities was to define the presence and extent of potential impacts associated with SWMUs (Solid Waste Management Units) and AOC (Area of Concern) and on collecting data to evaluate potential corrective measures. Safety-Kleen believes that the site characterization activities which have been completed adequately assess the subsurface in the vicinity of SWMU No. 2, SWMU No. 3, and

AOC No. 1. Investigation of SWMU No. 1 will be conducted as part of facility closure or partial closure activity. Safety-Kleen does not propose to conduct additional site characterization work at this time. Safety-Kleen requests that the soil vapor extraction (SVE) system be considered the final interim corrective measure. The operation of the SVE system and the product recovery system is continuing. Safety-Kleen will not initiate groundwater extraction and treatment at this time due to the encroaching VOC plume. Groundwater extraction will only be considered when mitigation of the upgradient source the VOCs has been performed by the responsible parties.

Comments: RCRA FACILITY INVESTIGATION (RFI) WORKPLAN, February 1, 1996. The RFI Work Plan summarizes site characterization work conducted at the Site through February 1996 for the Area of Concern (AOC) and Solid Waste Management Units (SWMUs) identified in the RCRA Facility Assessment (RFA) Report.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Fieldwork
Completed Date: 03/22/2017
Comments: Trihydro Corporation (Trihydro), on behalf of Safety-Kleen Systems, Inc. (S-K), conducted sub-slab depressurization (SSD) system sampling and operation and maintenance (O&M) activities at the former S-K Service Center in Oakland, California on March 22, 2017. The event included evaluating that SSD system fans are operating properly, collection of system readings, and collection of a vapor sample from SSD system point SP-2 for laboratory analysis of volatile organic compounds by Method TO-15. Per the Agreement between S-K and DTSC, S-K intends to submit a report summarizing quarterly 2017 SSD system sampling and O&M activities on or before January 31, 2018.

Completed Area Name: PROJECT WIDE

Completed Document Type: Operations and Maintenance Report
Completed Date: 01/23/2018
Comments: Sub-Slab Depressurization System 2017 Annual Operation Summary (Report); January 23, 2018. During 2017, The Sub-Slab Depressurization (SSD) system was monitored by a qualified environmental professional on a quarterly basis in accordance with the Permit. During quarterly O&M activities, the system was inspected to verify fans were running and providing vacuum as designed. The SSD system remained operable throughout 2017 with no repairs required. Current Permits are included as Attachment A. Analytical laboratory reports for samples collected during 2017 are included as Attachment B. Field notes for the quarterly events are included as Attachment C. Calibration information for the anemometer is included as Attachment D. Safety-Kleen (S-K) intends to conduct quarterly SSD system and O&M and sampling activities in 2018. Per the O&M Agreement, S-K will notify DTSC in writing a minimum of seven days before conducting O&M and sampling activities. S-K intends to submit a report summarizing SSD system O&M and sampling procedures and analytical results to DTSC on or before January 31, 2019.

Completed Document Type: Removal Action Completion Report
Completed Date: 07/30/2018
Comments: Report documents well abandonment activities conducted pursuant to the 2/19/2016 Sub-Slab Depressurization System O&M Plan and Monitored Natural Attenuation Plan and overseen by the Alameda County Public Works Agency. The work was performed under the responsible charge of a registered geologist.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Land Use Restriction Monitoring Report
Completed Date: 10/16/2017
Comments: Per the requirements of the LUC, S-K performed an onsite LUC compliance inspection on May 3, 2017. The attached Inspection Form (Attachment A) documents site conditions observed during the inspection. During the inspection, the site was observed to be in compliance with the requirements of the LUC. The drilling activity noted on the attached Inspection Form was being performed to abandon groundwater and soil vapor monitoring wells pursuant to DTSC approval.

Completed Date: 10/17/2017
Comments: Pursuant to the September 21, 2009 Corrective Action Consent Agreement (CACA), the Department of Toxic Substances Control (DTSC) issues this RCRA Corrective Action Completion Determination for the Safety-Kleen Systems, Incorporated (S-K) property located at 400 Market Street, Oakland, Alameda County, California 94607 (Site). S-K is the owner of the Site. On October 17, 2017, DTSC issued a Cleanup Complete (CC) determination that Cleanup Complete - Controls Required Long Term Stewardship has been achieved. The facility was completely characterized and assessed with respect to all media onsite and

1001407764

offsite (if applicable), and not all media met cleanup requirements. Noncompliant media were remediated so that no further operation of engineered remedies is required for industrial land use. Nevertheless, some amount of hazardous waste still remains beneath the facility and limited periodic examination and care are required to continue into the long-term future to ensure that certain installed engineered barriers, covers, caps, fences, signage, etc. and certain active and/or passive remedies, e.g., SSDS and MNA, remain efficacious. A No Further Action Determination is not applicable.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Land Use Restriction
Completed Date: 01/20/2017
Comments: Land Use Covenant and Agreement - Environmental Restrictions, recorded with Alameda County on January 20, 2017. This Land Use Covenant and Agreement ("Covenant") is made by and between Safety-Kleen Systems, Incorporated (the "Covenantor"), the successor in interest to the owner of record located at 400 Market Street, Oakland, in the County of Alameda County, State of California (the "Property"), and the Department of Toxic Substances Control (the "Department"). The Property that is subject to this Covenant, totaling approximately 0.6 acres, is more particularly described in the attached Exhibit A, Legal Description, and depicted in Exhibit B, Assessor's Map. The Property is located in the area now generally bounded by 5th Street on the north, 4th Street on the south, Brush Street on the east, and Market Street on the west. The Property is also identified as County of Alameda, Assessor Parcel Numbers 001-0113-001-02 and 001-0113-002-02. This Property has been investigated and/or remediated under the Department's oversight. The Department approved a Corrective Measures Study (CMS), dated April 2, 2015, and an Operations and Maintenance Plan and Monitored Natural Attenuation Plan, dated February 19, 2016, in accordance with Health and Safety Code, division 20, chapter 6.5. The remediation activities conducted at the Property include installation and continued operation and maintenance of the sub-slab depressurization system, monitored natural attenuation for groundwater, and land use restrictions. As part of the DTSC-approved remedy at the Site, the sub-slab depressurization system layout and a monitoring well location diagram showing the location(s) of the installed remedy are attached as Exhibit C and Exhibit D.

Completed Date: 06/29/2011
Comments: RCRA FACILITY INVESTIGATION (RFI) WORK PLAN, May 20, 2011. This RFI Work Plan proposes further activities to characterize groundwater impacts on the upgradient portion of the Site and proposes a soil gas survey for the purpose of conducting a future human health risk assessment. According to DTSC's February 2010 correspondence, when Site characterization is deemed complete, S-K will continue with previously proposed risk assessment activities, with formal approval by the DTSC. S-K proposes installing and sampling twelve soil vapor wells near the former service center to estimate potential vapor intrusion impacts and additional groundwater investigation activities to further characterize impacts in the upgradient portion of the Site. Proposed groundwater investigation and soil gas survey activities are further discussed in Sections 5.4.4 and 5.4.5 respectively.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Risk Assessment Report
Completed Date: 09/04/2012
Comments: Revised Risk Assessment Report. The conservative RA performed for the site indicated potential site-related risks and hazards above target levels for some chemicals in soil, groundwater, and soil vapor. Specifically, elevated risk and hazard estimates for onsite receptors were associated with benzo(a)pyrene in soil, TPHms in groundwater, and 1,2,4-trimethylbenzene, benzene, and ethylbenzene in soil vapor. 1,4-Dichlorobenzene and PCE in soil vapor also contributed, but to a lesser extent, to the elevated risk estimates. Offsite risks that were considered to be potentially site-related were mainly due to 1,2-DCA, PCE, and 1,1-DCA in groundwater. Each of the exposure scenarios associated with these elevated risks and hazards is further discussed within the Report. Target concentrations for chemicals in onsite groundwater and soil vapor were developed to assist with future site monitoring and management decisions. Based on recent comments from DTSC (2012b) for another S-K site in California, single chemical values, rather than multiple chemical adjusted values, were calculated. Target concentrations were determined by identifying the concentrations of each chemical in groundwater or soil vapor that would result in a risk estimate of 10⁻⁶ or a hazard quotient of 1 (whichever was lower). These values could be used to determine when operation of the SSD system, or continuation of long-term monitoring, is no longer necessary, or to assist with remedial or mitigation efforts in the event of a future land use change. Target groundwater and soil vapor concentrations are shown in Table 26, and summarized within the Report.

Completed Document Type: RFI Report
Completed Date: 08/20/2013
Comments: Revised RFI Report Addendum. The RFI Addendum field investigation was conducted pursuant to the December 2012 RFI Work Plan Addendum. Additional groundwater data at the facility has been further characterized and an indoor air investigation was completed to further evaluate the effectiveness of the SSD system. PCE and TCE, the two primary constituents of concern identified during 2011/2012 soil gas sampling, were not detected in the March 2013 indoor air samples. Acrolein, benzene, and carbon tetrachloride were detected in indoor air above RSLs, but at similar concentrations to background. Chloroform was detected in three indoor air samples above the residential RSL but below the industrial RSL. Chloroform is commonly detected in indoor air and often attributed to use of water from chlorine treated water systems. Ethylbenzene was detected above the residential RSL, but also below the industrial RSL in all samples. Potential indoor air sources of ethylbenzene include paint, paint thinner, wood office furniture, scented candles, and gasoline. Information provided in the September 2012 RFI Report indicated the current SSD system met industry standard pressure differential benchmarks within the building. Evaluation of the March 2013 indoor air data further supports the SSD system is effective in mitigating potential vapor intrusion attributable to soil gas impacts beneath the building. March 2013 groundwater data was generally consistent with historical results. It should be noted that the March 2013 TPH-MS concentration in the sample collected from well MW-14 (2.11 mg/L) was lower than the October 2011 grab groundwater sample concentration (7.66 mg/L) collected in the same vicinity. However, the March 2013 concentration still exceeds the target level of 1.0 mg/L identified in the Revised Risk Assessment Report.

1001407764

collected during the April 2014 and July 2014 CMS quarterly groundwater monitoring events, and reach concurrence with DTSC on a path forward in finalizing submittal of the CMS Report. S-K believes that data presented in this letter report shows ample and appropriate evidence that MNA is a strong remedial option and would prefer to move forward with submittal of the CMS Report. If DTSC agrees that two additional quarterly MNA events are not necessary to complete the CMS, S-K intends to submit the CMS Report within 30 days of receiving formal DTSC concurrence. In the event that DTSC prefers additional information for evaluating MNA, the CMS will progress in general accordance with the timeline in the approved CMS Work Plan (two additional quarterly monitoring events and submittal of the CMS Report on or before March 31, 2015). DTSC approves the Update and agrees that no further monitoring for MNA evaluation is necessary.

Completed Sub Area Name: Not reported
Completed Document Type: Other Report
Completed Date: 01/16/2014
Comments: Quarterly Progress Report (October through December 2014). Safety-Kleen Systems, Inc. (S-K) submitted the CMS Report to DTSC on October 15, 2014. DTSC provided comments on the CMS report in an email dated December 2, 2014, and S-K submitted a revised electronic version of the CMS report on December 24, 2014. S-K anticipates receiving DTSC approval and/or comments on the revised December 2014 CMS report during the January through March 2015 reporting period.

Completed Document Type: Other Report
 Completed Date: 08/20/2015
 Comments: Quarterly Progress report, no DTSC comments

Completed Area Name: PROJECT WIDE
 Completed Sub Area Name: Not reported
 Completed Document Type: Operations and Maintenance Plan
 Completed Date: 02/23/2016
 Comments: Sub-Slab Depressurization System Operation and Maintenance Plan and Monitored Natural Attenuation Plan (Plan), dated February 19, 2016, for Former Safety-Kleen Systems, Inc. (S-K) Service Center, located at 400 Market Street, Oakland, California. Plan approved by DTSC letter, dated February 23, 2016. Plan documents an operation and maintenance (O&M) plan for the existing sub-slab depressurization system (SSDS) and contains planned activities for long-term monitored natural attenuation (MNA) for groundwater at the site. Plan Appendices include the SSDS Technical Memorandum, Bay Area Air Quality Management District Authority to Operate Permit, SSDS Standard Operating Procedure, and Revised Standardized Sampling and Analysis Plan. The active SSDS reduces the potential for vapor intrusion by creating a negative pressure differential that reverses the direction of airflow inside a structure (i.e. intrusion to extrusion) and dilutes the indoor air with additional ambient air. A figure showing the SSDS layout is provided as Figure 3. A Technical Memorandum describing the SSDS design and installation, along with further information, is included as Appendix A. A field log will be kept to document maintenance, repairs, and replacements performed on the SSDS. A schedule for planned O&M visits and quarterly sampling is presented in Table 1. Field readings and laboratory data are evaluated every quarter to confirm emission rates are within BAAQMD Permit limits. Field readings and data are kept available and on file per current BAAQMD Permit conditions. S-K will submit a summary of field readings and results to the DTSC on an annual basis. Quarterly laboratory data, field readings, and equipment replacement information will be submitted to DTSC on or before the last day of January of each calendar year. Natural attenuation involves the breakdown of constituents of concern (COCs) by microbial degradation processes. MNA includes monitoring the groundwater conditions that indicate natural attenuation is occurring. As part of the approved remedy for the site, S-K will evaluate attainment of cleanup levels in groundwater by conducting routine groundwater monitoring at the site once every five years, with an estimated time frame of fifteen years (4 events total over estimated 15 years). Consistent with the Corrective Measures Study (CMS), S-K will gauge and sample monitoring wells MW-1, MW-2R, MW-3, MW-4, MW-8R, MW-11R, and MW-14, during each monitoring event. Groundwater samples will be submitted for VOCs, TPH-MS, and TPH-D. S-K will implement the first MNA event within 60 days of DTSC approval of this document, with the following three events occurring approximately every five years. S-K will evaluate and compare groundwater data to the corrective action objectives (CAOs) defined by the CMS. S-K will submit groundwater-sampling reports to the DTSC, for each event, within 60 days receipt of complete and accurate laboratory data. A proposed schedule for groundwater sampling is presented in Table 2. S-K proposes to abandon monitoring wells MW-5, MW-6 and MW-12 because they are no longer included in the monitoring plan. Additionally, S-K proposes to plug and abandon soil gas wells SVW-1, SVW-2, SVW-3, SVW-6, SVW-7, SVW-8,

1001407764

and SVW-9 as they were utilized for the previous RFI activities. S-K will leave soil gas wells SVW-4, SVW-5, SVW-10, SVW-11, and SVW-12 in place in the event future soil gas sampling on the perimeter of the building is warranted. A figure showing proposed abandonment locations is provided as Figure 4.

Completed Document Type: Fieldwork

Completed Date: 05/03/2017

Comments: On April 19, 2017, Safety-Kleen Systems, Inc. (S-K) obtained all necessary permits from the City of Oakland for well abandonment activities approved in the February 2016 Sub-Slab Depressurization System Operation and Maintenance Plan and Monitored Natural Attenuation Plan. S-K performed well abandonment activities on May 2 and 3, 2017, per the April 24, 2017 Monitoring Well Abandonment Field Activity Notification letter submitted to DTSC. S-K plans to submit a brief letter-style report, documenting well abandonment, within 60 days of completion of activities (July 2, 2017). DTSC provided field oversight of the fieldwork activities on May 2/3, 2017.

Completed Area Name: PROJECT WIDE

Completed Sub Area Name: Not reported

Completed Document Type: Fieldwork

Completed Date: 07/01/2016

Comments: The monitoring event included water level measurements and/or sampling of groundwater monitoring wells MW-1, MW-2R, MW-3, MW-4, MW-8R, MW-11R, and MW-14. Groundwater samples were analyzed for volatile organic compounds (VOCs) by EPA Method 8260B and total petroleum hydrocarbons reported as mineral spirits and diesel (TPH-MS and TPH-D) by EPA Method 8015.

Completed Area Name: PROJECT WIDE

Completed Sub Area Name: Not reported

Completed Document Type: Removal Action Completion Report

Completed Date: 07/07/2017

Comments: Monitoring Well Abandonment Activity Summary, dated June 29, 2017, documents the removal and abandonment of three groundwater monitoring wells (MW-5, MW-6, and MW-12) and four soil vapor monitoring wells (SVW-6, SVW-7, SVW-8, and SVW-9) at the site. Note, three soil vapor monitoring wells (SVW-1, SVW-2, and SVW-3) designated for abandonment were inaccessible during May 2017 field activities due to a homeless encampment (Figure 2). S-K intends to conduct a quarterly sub-slab depressurization system sampling and operation/maintenance event in August 2017. S-K will evaluate potential accessibility of soil vapor wells SVW-1, SVW-2, and SVW-3 for future abandonment during quarterly site visits.

generally consistent with information provided in previous reports. Anaerobic biodegradation of contaminants of concern at the Site is ongoing, as concentrations continue to decrease from historical levels. Per the DTSC-approved MNA Work Plan, the next groundwater monitoring event for the Site is scheduled for June 2021.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Fieldwork
Completed Date: 12/07/2016
Comments: Sub-slab depressurization (SSD) system sampling and operation and maintenance (O&M) activities, performed in accordance with the Sub-Slab Depressurization System Operation and Maintenance Plan and Monitored Natural Attenuation Plan, including verifying SSD system fans are operating properly, collection of system readings, and collection of a vapor sample from SSD system point SP-2 for laboratory analysis of volatile organic compounds by Method TO-15.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Operations and Maintenance Report
Completed Date: 05/05/2017
Comments: Revised Sub-Slab Depressurization System 2016 Annual Operation Summary (Report), May 4, 2017. The Sub-Slab Depressurization (SSD) system was monitored and sampled by a qualified environmental professional in 2016 on a quarterly basis in accordance with the Permit. During quarterly O&M activities, the system was inspected to verify fans were running and providing vacuum as designed. Safety-Kleen Systems, Inc. (S-K) observed that the fan attached to riser SP-1 was inoperable during the June 22, 2016, quarterly O&M event. A new fan was installed to the same riser on June 28, 2016. The former fan attached to riser SP-1 was operational during the March 2016 quarterly event; therefore, it is estimated that fan SP-1 was nonoperational for a maximum period of 3.5 months, during which time all other SSD fans operated continuously. A manual that includes product specifications for the replacement RadonAway HS5000 high suction fan is included as Attachment B. S-K performed quarterly sampling of the SSD system according to the procedures outlined in the February 2016 Plan. S-K collected air flow readings from each exhaust stack on the roof of the building using a VelociCalc anemometer. Vapor samples were collected from exhaust stack SP-2 on a quarterly basis in 2016. Analytical laboratory reports for samples collected during 2016 are included as Attachment C. Field notes for the quarterly events are included as Attachment D. Calibration information for the anemometer is included as Attachment E. A summary of individual effluent VOC concentrations detected in each sample is included as Table 1. Air flow readings and magnehelic gauge readings are included as Table 2. Calculated VOC removal rates, in pounds per day (lbs/day), are included as Table 3. Because the SSD emission stacks extract commingled vapor beneath the slab, the maximum concentration of individual and total VOCs was used to conservatively calculate daily VOC removal rates for comparison to Permit limits. The mass removal rates for the 2016 operation period, ranged from 0.00017 to 0.00174 lbs/day and were well within Permit conditions of 10 lbs/day. In a letter dated May 5, 2017, DTSC approved the Report and provided the following comment and requirement for future monitoring/sampling and reporting: The Report Attachment E, TSI Model

8360 VelociCalc Calibration Certificate, states, Calibrations are valid for one year. However, the DTSC-approved Sub-Slab Depressurization System Operation and Maintenance Plan and Monitored Natural Attenuation Plan (Plan), dated February 19, 2016, states, All instruments will be calibrated according to manufacturer specifications prior to use. (2-1) The TSI Model 8360 VelociCalc or other anemometer (air velocity meter), used for measuring and recording air velocity through the sub-slab depressurization system extraction pipes, must be calibrated prior to each monitoring and sampling event scheduled quarterly in March, June, September, and December.

Federal Delisted NPL site list

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Data Release Frequency: Varies

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly known as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

	Data Release Frequency: Quarterly

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

CERS HAZ WASTE: CERS HAZ WASTE

List of sites in the California Environmental Protection Agency (CalEPA) Regulated Site Portal which fall under the Hazardous Chemical Management, Hazardous Waste Onsite Treatment, Household Hazardous Waste Collection, Hazardous Waste Generator, and RCRA LQ HW Generator programs.

Date of Government Version: 04/20/2020	Source: CalEPA
Date Data Arrived at EDR: 04/21/2020	Telephone: 916-323-2514
Date Made Active in Reports: 07/13/2020	Last EDR Contact: 07/21/2020
Number of Days to Update: 83	Next Scheduled EDR Contact: 11/02/2020
	Data Release Frequency: Quarterly

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

Date of Government Version: 03/18/2020	Source: Drug Enforcement Administration

DEED: Deed Restriction Listing

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WASTEWATER PITS: Oil Wastewater Pits Listing

Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water boards review found that more than one-third of the region's active disposal pits are operating without permission.

WDR: Waste Discharge Requirements Listing

In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

EDR Hist Cleaner: EDR Exclusive Historical Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

LOS ANGELES CO LF METHANE: Methane Producing Landfills

This data was created on April 30, 2012 to represent known disposal sites in Los Angeles County that may produce and emanate methane gas. The shapefile contains disposal sites within Los Angeles County that once accepted degradable refuse material. Information used to create this data was extracted from a landfill survey performed by County Engineers (Major Waste System Map, 1973) as well as historical records from CalRecycle, Regional Water Quality Control Board, and Los Angeles County Department of Public Health

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Date of Government Version: 01/30/2020	Source: Department of Energy & Environmental Protection
Date Data Arrived at EDR: 01/30/2020	Telephone: 860-424-3375

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

East Map:	5641110 OAKLAND EAST, CA
Version Date:	2012

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General ENE

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

NATIONAL WETLAND INVENTORY

<u>NWI Quad at Target Property</u>	<u>NWI Electronic Data Coverage</u>
OAKLAND WEST	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Status:	Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: Urban land

Soil Surface Texture:
Hydrologic Group: Not reported

Soil Drainage Class:
Hydric Status: Partially hydric

Corrosion Potential - Uncoated Steel: Not Reported

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

No Layer Information available.

Soil Map ID: 2

Soil Component Name: Urban land

Soil Surface Texture:
Hydrologic Group: Not reported

Soil Drainage Class:
Hydric Status: Partially hydric

Corrosion Potential - Uncoated Steel: Not Reported

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

No Layer Information available.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Not Reported

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

No Layer Information available.

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

Basement	1.338 pCi/L	100%	0%	0%

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map

Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

Source: FEMA

Telephone: 877-336-2627

Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

AQUIFLOW^R Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

STATE RECORDS

Water Well Database

Source: Department of Water Resources

Telephone: 916-651-9648

California Drinking Water Quality Database

Source: Department of Public Health

Telephone: 916-324-2319

The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

OTHER STATE DATABASE INFORMATION

California Oil and Gas Well Locations

Source: Dept of Conservation, Geologic Energy Management Division

Telephone: 916-323-1779

Oil and Gas well locations in the state.

California Earthquake Fault Lines

Source: California Division of Mines and Geology

The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

RADON

State Database: CA Radon

Source: Department of Public Health

Telephone: 916-210-8558

Radon Database for California

Area Radon Information

Source: USGS

Telephone: 703-356-4020

The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

EPA Radon Zones

Source: EPA

Telephone: 703-356-4020

Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

OTHER

Airport Landing Facilities: Private and public use landing facilities

Source: Federal Aviation Administration, 800-457-6656

Epicenters: World earthquake epicenters, Richter 5 or greater

Source: Department of Commerce, National Oceanic and Atmospheric Administration

California Earthquake Fault Lines: The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines, prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

EDR Topographic Map Library has been searched by EDR and maps covering the target property location as provided by Roux Associates Inc were identified for the years listed below. EDR's Historical Topo Map Report is designed to assist professionals in evaluating potential liability on a target property resulting from past activities. EDR's Historical Topo Map Report includes a search of a collection of public and private color historical topographic maps, dating back to the late 1800s.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1920 through 2017. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

A summary of the information obtained is provided in the text of this report.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Roux Associates Inc were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

Re: D 71-23

Dear Mr. Leftwich:

The Planning Staff has completed its review of your proposal for alterations to a building at 1919 Webster Street.

This is to certify that your application is approved as submitted.

If there are any questions, please contact Gary Singer in the Zoning Division on the 11th floor of City Hall, or phone 273-3911.

Very truly yours,

Marc Herbert, Assistant
Director of City Planning

OAKLAND CITY COUNCIL

RESOLUTION No. 44812 C.M.S.

INTRODUCED BY COUNCILMAN _____

RESOLUTION GRANTING HOSPITAL SERVICE OF CALIFORNIA, THE OWNER OF CERTAIN REAL PROPERTY LOCATED AT 1919 WEBSTER STREET, A CONDITIONAL REVOCABLE PERMIT TO INSTALL A SIDEWALK ELEVATOR IN A PORTION OF THE SIDEWALK AREA IN FRONT OF SAID PROPERTY; AND AUTHORIZING THE SUPERINTENDENT OF STREETS TO ISSUE A PERMIT FOR SAID INSTALLATION.

---oOo---

WHEREAS, Hospital Service of California, the owner of certain real property located at 1919 Webster Street, has made application to the City of Oakland for permission to install and maintain a sidewalk elevator which will project inside the center line of the sidewalk area of Webster Street, which projection is in excess of that permitted by Sec. 4512 (a) of the Oakland Building Code; and

WHEREAS, the use of said sidewalk area for said purpose will not materially interfere with the use of said area by the public, and the public welfare and convenience will not be endangered by said use; now, therefore,

BE IT RESOLVED: That Hospital Service of California is hereby granted a revocable permit to install and maintain said sidewalk elevator in and under a portion of the sidewalk area on Webster Street, which will project four and one-quarter inches inside the center line of said sidewalk area, and be it

FURTHER RESOLVED: That pursuant to the requirements of Section 6-2.15 of the Oakland Municipal Code, the Superintendent of Streets is hereby authorized to issue a permit for the installation of said sidewalk elevator, and be it

FURTHER RESOLVED: That the Council of the City of Oakland, in granting this permission, prescribes as special conditions thereof the following:

1. That this permit shall be revocable at the pleasure of the Council of the City of Oakland, expressed by resolution of said Council.
2. That permittee by the acceptance, either expressed or implied, of this revocable permission thereby promises and agrees to indemnify the City of Oakland against and save the City of Oakland harmless from any and all claims, demands and causes of action whatsoever arising out of the installation or maintenance of said sidewalk elevator in said sidewalk area.
3. That no advertising matter of any kind shall be placed upon, or permitted to be placed upon, the installation permitted by this resolution.

4. That if the permission herein granted shall be terminated by said resolution of said Council, permittee shall immediately remove said sidewalk elevator from said sidewalk area, and any damage resulting therefrom shall be repaired to the satisfaction of the Superintendent of Streets.
5. That the hereinabove conditions shall be binding upon the permittee, the present owner of the real property hereinabove referred to, and the successive owners thereof.
6. That the permittee will comply with all other provisions of the Oakland Building Code, and Chapter 6 of the Oakland Municipal Code.
7. That the permittee will relocate the street lighting conduit system in the area of the sidewalk elevator to the satisfaction of the Superintendent of the Electrical Department at said permittee's sole expense.

I certify that the foregoing is a full, true, and correct copy of a Resolution passed by the City Council of the City of Oakland,

Calif., on AUG 6 1964

Re: Blue Cross Building Addition
Smoke Tower Requirements

Gentlemen:

Upon recommendation by Mr. Evans, this office contacted Captain Noonan of the Oakland Fire Prevention Bureau concerning the extension of the proposed smoke tower to the basement of the Blue Cross Building at 1919 Webster Street, Oakland, California.

This matter was discussed by telephone on July 20, 1964 with Captain Noonan and he said that the two existing exits from the present basement meet the building code requirements, but that he will render final approval upon submission of finished drawings to the Oakland Building Department.

Very truly yours,

OAKLAND CITY COUNCIL

RESOLUTION No. 44812 C.M.S.

RESOLUTION GRANTING HOSPITAL SERVICE OF CALIFORNIA, THE OWNER OF CERTAIN REAL PROPERTY LOCATED AT 1919 WEBSTER STREET, A CONDITIONAL REVOCABLE PERMIT TO INSTALL A SIDEWALK ELEVATOR IN A PORTION OF THE SIDEWALK AREA IN FRONT OF SAID PROPERTY; AND AUTHORIZING THE SUPERINTENDENT OF STREETS TO ISSUE A PERMIT FOR SAID INSTALLATION.

---oOo---

WHEREAS, Hospital Service of California, the owner of certain real property located at 1919 Webster Street, has made application to the City of Oakland for permission to install and maintain a sidewalk elevator which will project inside the center line of the sidewalk area of Webster Street, which projection is in excess of that permitted by Sec. 4512 (a) of the Oakland Building Code; and

WHEREAS, the use of said sidewalk area for said purpose will not materially interfere with the use of said area by the public, and the public welfare and convenience will not be endangered by said use; now, therefore,

BE IT RESOLVED: That Hospital Service of California is hereby granted a revocable permit to install and maintain said sidewalk elevator in and under a portion of the sidewalk area on Webster Street, which will project four and one-quarter inches inside the center line of said sidewalk area, and be it

FURTHER RESOLVED: That pursuant to the requirements of Section 6-2.15 of the Oakland Municipal Code, the Superintendent of Streets is hereby authorized to issue a permit for the installation of said sidewalk elevator, and be it

FURTHER RESOLVED: That the Council of the City of Oakland, in granting this permission, prescribe as special conditions thereof the following:

1. That this permit shall be revocable at the pleasure of the Council of the City of Oakland, expressed by resolution of said Council.
2. That permittee by the acceptance, either expressed or implied, of this revocable permission thereby promises and agrees to indemnify the City of Oakland against and save the City of Oakland harmless from any and all claims, demands and causes of action whatsoever arising out of the installation or maintenance of said sidewalk elevator in said sidewalk area.
3. That no advertising matter of any kind shall be placed upon, or permitted to be placed upon, the installation permitted by this resolution.

4. That if the permission herein granted shall be terminated by said resolution of said Council, permittee shall immediately remove said sidewalk elevator from said sidewalk area, and any damage resulting therefrom shall be repaired to the satisfaction of the Superintendent of Streets.
5. That the hereinabove conditions shall be binding upon the permittee, the present owner of the real property hereinabove referred to, and the successive owners thereof.
6. That the permittee will comply with all other provisions of the Oakland Building Code, and Chapter 6 of the Oakland Municipal Code.
7. That the permittee will relocate the street lighting conduit system in the area of the sidewalk elevator to the satisfaction of the Superintendent of the Electrical Department at said permittee's sole expense.

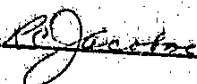

I certify that the foregoing is a full,
true, and correct copy of a Resolution passed
by the City Council of the City of Oakland,

Calif., on

CHANGE ORDER NO. 5

TO: STOLTE, INC.

The following change items shall become part of the contract documents when stated contract price changes and/or conditions are accepted by signed approval of contract parties:

Item No. 1 - Revisions in Office #512

Provide all labor, material and equipment necessary to install 2 x 4 wood stud partitions with gypsum board surfaces from floor to ceiling in lieu of the 90 3/4" high hardwood and glass partition shown in the contract drawings.

NO CHARGE

\$ 0.00

Item No. 2 - Revisions to Existing Office #306

Provide all labor, material and equipment necessary to entirely enclose existing office #306 from floor to ceiling by adding a matching partition 3'-4" high x 7'-0" long on the west wall above the existing 7'-6" high partition.

ADD

\$ 158.00

Item No. 3 - Relocate First Floor Sound Retardant Wall

Provide all labor, materials and equipment necessary to relocate the new sound retardant wall at the First Floor approximately 7'-7" eastward to make east face of wall flush with east face of existing columns as shown on Sheet R-21 dated May 6, 1965. Also, eliminate New Room #105 and New Door #25 as shown on Sheet R-21.

ADD

\$ 152.00

Change Order No. 5
Page 1 of 3

Hospital Service of California

Item No. 4 - Four Speaker Built-In Sound System

Provide all labor, materials and equipment necessary to completely install a four speaker built-in sound system in the Sixth Floor Conference Room. All material is to be furnished by Blue Cross except the wire.

ADD ----- \$ 425.00

Item No. 5 - Deleted Changes for Room #201

Delete the following:

- a) Room 201 - Delete the relocation of the west wall as shown on Sheet #2 of the contract drawings.
- b) Room 201 - Delete the extending of the existing west wall to the ceiling, as shown on Sheet #2 of the contract drawings.
- c) Room 201 - Delete the New Door #34 in existing east wall.

DEDUCT ----- \$ 267.00

Item No. 6 - Additional Painting in Computer Room

Provide all labor, materials and equipment necessary to accomplish additional painting of clove beige to completely cover existing green wall.

ADD ----- \$ 397.00

Item No. 7 - Carpet for Room 201

Provide all labor, material and equipment necessary to install an additional seven (7) yards of #1202 "Biscuit" carpeting in Room #201 which was enlarged at the request of the Owner.

RE: 1919 Webster

Dear Mr. Rose:

A recent inspection by Deputy Building Inspector Staton of the work being performed at the above address under Building Permit C.49187 revealed that the following correction is necessary:

The door at the north side of computer room cannot open at a step. Please correct.

Please call this office for an inspection when the correction has been completed.

If there are any questions, feel free to call Mr. Staton 273-3586, between 8:00 and 9:00 a.m., Monday through Friday.

Very truly yours,

Subject: Existing Blue Cross Building
1919 Webster Street, Oakland, California

C-57814

Dear Mr. Lane:

The existing six story Blue Cross Building is adjacent to the site on which the new Blue Cross tower and 3-story ancillary building will be constructed. Until very recently this site has been a parking lot. The only windows in the building, other than those on Webster Street, are in the wall next to this parking lot and extend from the second through sixth floors. They are aluminum frame windows with plain clear glass. In the same wall at ground level is a door that has been used as a required exit opening directly to the parking lot.

The new ancillary building creates a serious problem with the windows and another less serious one with the rear exit door. Through our meetings with you, Chief Toellner and Captain Nunes, we believe we have found solutions that will satisfy your requirements but require variances from the code. We, therefore, request variances for the following items:

1. EXIT:

Reference Chapter 33 of the 1967 edition of the Uniform Building Code, Section 3302 (c). It is requested that approval be given to allow construction of a 2 hour corridor on the 1st floor connecting the rear stairway with an existing exit doorway on Webster

continued.../

Skidmore, Owings & Merrill

Mr. Lawrence A. Lane
Board of Examiners and Appeals
Building and Housing Department

December 21, 1970
Page Two....

Street. This door and the new exit from the smokeproof stairway are located alongside each other. The present glass double doors will be replaced with a hollow metal door and a new exterior landing and steps to grade will be constructed.

2. OPENINGS IN EXTERIOR WALLS:

Reference Chapter 5 of the 1967 edition of the Uniform Building Code, Table No. 5-A. We propose replacing the existing windows with steel frame windows with wire glass. Air rights will be established over the first floor of the ancillary building extending 10 feet out in front of the windows and the length of the windows as shown on accompanying drawing.

3. FIRE-EXTINGUISHING SYSTEM:

Reference Chapter 38 of the 1967 edition of the Uniform Building Code, Section 3801.1. In lieu of sprinklering the 1st through 6th floors we propose to install a supervised products of combustion system with an alarm bell on each floor. An override will be provided for evacuation purposes.

Sincerely,

SKIDMORE, OWINGS & MERRILL

Ross Dugan

Weekly Progress Report No. 23
Week Ending January 15, 1971

1H:23-221

WEATHER: Overcast with intermittent showers

CONSTRUCTION PERSONNEL:

Bechtel Incorporated	2
Dinwiddie Construction Company Subcontractor	2
Kulchin-Wagner Inc.	8

LOST TIME ACCIDENTS: 0

ACTIVITIES:

1. Skidmore, Owings & Merrill - The preliminary construction estimate, jobsite, and the variance drawings were discussed during the weekly job meeting. SOM was informed about the selection of Manning's as the cafeteria operator in the ancillary building.

The variance meeting for the 2-hour corridor and other changes in the existing Blue Cross Building was held on January 14. Oakland's Board of Examiners and Appeals approved the variance request.

2. Dinwiddie - Underpinning, shoring, and bracing activities are continuing.

3. Reinforced concrete underpinning piers were placed under 1924 Franklin and one under 1951 Webster. Seven soldier beams have been drilled and set adjacent to the Bank of California property line. A barricade is being fabricated at the jobsite.

CONTRACTOR

I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Sec. 7031.5, Business and Professions Code. Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he is licensed pursuant to the provisions of the Contractor's License Law Chapter 9 (commencing with Sec. 7000) of Division 3 of the Business and Professions Code, or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than \$500):

I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business Professions Code). The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or through his own employees, provided if such improvements are not intended or offered for sale. If however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale.

I, as owner of the property, am exempt from the sale requirements of the above due to: (1) I am improving my principal place of residence or apartments thereon, (2) the work will be performed prior to sale, (3) I have resided in the residence for the 12 months prior to completion of the work, and (4) I have not claimed exemption in this subdivision on more than two structures more than once during any three-year period. (Sec. 7044, Business and Professions Code).

I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code). The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractor's License Law.

I am exempt under Sec. _____, BARC, for this reason _____

OWNER/BUILDER
 I am owner of the property, or my employee with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code). The Contractor's License Law does not apply to an owner of property who builds or improves a house, and who does such work himself or through his own employees (provided such improvements are not intended or offered for sale, if however, the building or improvement is sold within one year of completion, the owner/builder will have the burden of proving that he did not build or improve for the purpose of sale).
 I am owner of the property, an exempt from the info requirements of the above due to: (1) I am improving my principal place of residence or employment thereon, (2) the work will be performed prior to sale, (3) I have resided in the local area for one (12) months prior to completion of the work, and (4) I have not obtained a permit in the subdivision or more than two structures more than once during any three-year period. (Sec. 7014, Business and Professions Code).
 I am owner of the property, but exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code). The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor (licensed pursuant to the Contractor's License Law).
 I am exempt under Sec. _____ B & P.C. for this reason: _____

A. F. VIAL
DISTRICT MANAGER

Mr. Kash Starzenski
City Of Oakland
Electric Inspection Dept.
1410 Washington Street
Oakland, CA 94612

Dear Mr. Starzenski:

This is in response to our recent conversation concerning the available short circuit duty at 1919 Webster Steet, Oakland. The available short circuit duty from the PGandE system will not exceed 12,000 amps RMS symmetrical.

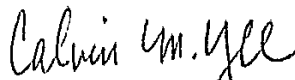

These short circuit duty calculations include the following conditions:

1. A secondary voltage of 120/208 volts, 3 phase, 4 wire.
2. The building's ultimate electrical demand reaches but does not exceed present main switch of 400A amps.

Any increase in the main switch over which we have no control would change this calculated value, and the 12,000 amp short circuit duty would no longer be valid.

If I may be of further assistance, please call me at 835-8500, extension 2367.

Sincerely,

CALVIN M. YEE
Commercial Representative

REMARKS: 1-22-86 FEES PAID ON PERMIT

OWNER/BUILDER

I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Sec. 7031.5, Business and Professions Code): Any city or county which requires a permit to construct, alter, improve, remodel, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he is licensed pursuant to the provisions of the Contractor's License Law Chapter 9 (commencing with Sec. 7000) of Division 3 of the Business and Professions Code, or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than \$900.

I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code). The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is not within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale.

I, as owner of the property, am exempt from the sale requirements of the above due to: (1) I am improving my principal place of residence; (2) the work will be performed prior to sale; (3) I have resided in the residence for the 12 months prior to completion of the work; and (4) I have not obtained exemption in this subdivision on more than two structures more than once during any three-year period. (Sec. 7044, Business and Professions Code).

I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code). The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and the contracts for such projects with a contractor(s) licensed pursuant to the Contractor's License Law.

I am exempt under Sec. _____ B & P.C. for this reason _____

OWNER/BUILDER
 I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Sec. 7031.5, Business and Professions Code): any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he is licensed pursuant to the provisions of the Contractor's License Law Chapter 9 (commencing with Sec. 7000) of Division 3 of the Business and Professions Code, or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than \$500.
 I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code): The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale.
 I, as owner of the property, am exempt from the sale requirements of the above due to: (1) I am improving my principal place of residence of substantial nature thereto, (2) the work will be performed prior to sale, (3) I have resided in the residence for the 12 months prior to completion of the work, and (4) I have not claimed exemption in this subdivision on more than two structures more than once during any three-year period. (Sec. 7044, Business and Professions Code).
 I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code): The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractor's License Law.
 I am exempt under Sec. _____ B & P.C. for this reason _____

**DOCUMENTATION OF UNREASONABLE HARDSHIP/EQUIVALENT
FACILITATION FOR HANDICAPPED ACCESS**

PROJECT NAME: Enlarge Communications Room DATE: 10/1/84
ADDRESS OF JOB: 1919 Webster St., Oakland BUILDING PERMIT NO. _____

The above named project has been granted an exception from the requirements of the State of California Title 24 accessibility standards, based upon the following criteria:

1. The cost of the access feature(s) is Two hundred thousand (\$200,000.00)
2. The cost of all construction contemplated is One hundred thousand (\$100,000.00)
3. (a) The impact of proposed improvements on financial feasibility of the project is time constraints. Financial feasibility is not a consideration.
(b) The access feature increases the cost of construction by 200 %
4. The accessibility feature(s) which would be gained or lost is Minimal
5. Type of facility under construction is a utility business office.

It is used by the general public for the purpose of paying bills and other business.

The following persons provided information on the above section:

<u>Pacific Gas and Electric Company</u>	<u>S. Iyama and Associates</u>
(FIRM)	(FIRM)
<u>1919 Webster Street, Oakland</u>	<u>384 Embarcadero West, Oakland</u>
(ADDRESS)	(ADDRESS)
<u>Fred S. Fulkerson</u>	
(SIGNATURE)	(SIGNATURE)

The determination of unreasonable hardship and this documentation do not allow a blanket exemption from the access requirements. The exception provided for by this form applies to the following item of the project.

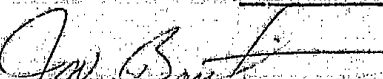

PGandE requests deferral of the following handicapped improvements to allow time for funding design and procurement of special hardware:

- 1) Handicapped door installations; 2) Handicapped toilet access; 3) Handicapped drinking fountain installations will be completed by January 1, 1986.

AS SPECIFIED BY TITLE 24 (check one)

- () 1. Equivalent facilitation will be provided, as specified in Section _____
(X) 2. Equivalent facilitation will be provided, as determined by this enforcing body. SEE SECTION _____
() 3. No provision of equivalent facilitation is necessary. See Section _____
() 4. The approval of an appeals board is necessary to ratify the determination of unreasonable hardship. See Section _____ and Section 2-105(b) 11D.

This documentation and determination of unreasonable hardship was developed in consultation with: HANDICAPPED REVIEW COMMITTEE

OWNER/BUILDER:
 I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Sec. 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he is licensed pursuant to the provisions of the Contractor's License Law Chapter 9 (commencing with Sec. 7000) of Division 3 of the Business and Professions Code, or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than \$500):
 I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale).
 I, as owner of the property, am exempt from the sale requirements of the above due to: (1) I am improving my principal place of residence or appurtenances thereto, (2) the work will be performed prior to sale, (3) I have resided in the residence for the 12 months prior to completion of the work, and (4) I have not claimed exemption in this subdivision on more than two structures more than once during any three-year period. (Sec. 7044, Business and Professions Code).
 I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractor's License Law).
 I am exempt under Sec. _____, B&P.C. for this reason

I hereby affirm that I am licensed under provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code; and my license is in full force and effect.

I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Sec. 7001.5, Business and Professions Code): Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he is licensed pursuant to the provisions of the Contractor's License Law Chapter 9 (commencing with Sec. 7000) of Division 3 of the Business and Professions Code, or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7001.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than \$500:

I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code). The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale. If however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale.

I, as owner of the property, am exempt from the sole requirements of the above due to: (1) I am improving my principal place of residence or apartments thereon, (2) the work will be performed prior to sale, (3) I have resided in the residence for the 12 months prior to completion of the work, and (4) I have not claimed exemption in this subdivision on more than two structures more than once during any three-year period. (Sec. 7044, Business and Professions Code).

I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code). The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractor's License Law.

APPLICANT
 I CERTIFY THAT I HAVE READ THIS APPLICATION AND STATE THAT THE INFORMATION GIVEN IS TRUE AND CORRECT. I AGREE TO COMPLY WITH ALL LOCAL ORDINANCES AND STATE LAWS RELATING TO BUILDING CONSTRUCTION AND I MAKE THIS STATEMENT UNDER PENALTY OF LAW. I HEREBY AUTHORIZE REPRESENTATIVES OF THIS CITY TO ENTER UPON THE ABOVE MENTIONED PROPERTY FOR INSPECTION PURPOSES. NOTICE: THIS PERMIT WILL EXPIRE BY LIMITATION IF WORK IS NOT STARTED IN 180 DAYS OR IF WORK IS ABANDONED FOR MORE THAN 180 DAYS. WORK IS NOT CONSIDERED TO COVER ANY CONSTRUCTION UNTIL THE WORK IS INSPECTED AND THE INSPECTION IS RECORDED ON THE BACK OF THE JOB COPY OF THIS PERMIT. ALL INSPECTION REQUESTS ARE REQUIRED 24 HOURS IN ADVANCE OF THIS INSPECTION.
 I hereby agree to save, indemnify and keep harmless the City of Oakland and its officers, employees and agents against all liabilities, judgments, costs and expenses which may be incurred against the City in consequence of the granting of this permit or even the use or occupancy of any sidewalk, street or subdivision, or otherwise by virtue thereof, and will in all things fully comply with the conditions under which this permit is granted.

BUILDING PERMIT **FABRICATION GAS & ELECTRIC**

TRACT 1919 WEBSTER ST BLOCK 134-8013 LOT PARCEL
 NAME OAKLAND, CA 94607

OWNER: ADDRESS PHONE CITY ST. ZIP

CONTRACTOR: I hereby affirm I am licensed under provisions of Chapter 9 of the Business and Professions Code, and my license is in full force and effect. **STATE OF CALIFORNIA**
 1919 MARKET STREET
 OAKLAND, CA 94607 834-2830
 LICENSE AND CLASS CONTRACTOR NAME **MORRIS** TAX ID **01/12/87**

CONTRACTOR: CITY ST. ZIP PHONE SIGNATURE DATE

OWNER/BUILDER: I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Sec. 7031.5, Business and Professions Code): Any city or county which requires a permit to construct, alter, improve, demolish or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he is licensed pursuant to the provisions of the Contractor's License Law Chapter 9 (commencing with Sec. 7000) of Division 3 of the Business and Professions Code, or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than \$5000.

I, as owner of the property, or my employees who work as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code). The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale.

I, as owner of the property, am exempt from the said requirements of the above due to: (1) I am improving my principal place of residence of applicants hereon; (2) the work will be performed prior to 6:00 a.m. (1) have resided in the residence for the 12 months prior to completion of the work; and (4) I have not caused a violation in this jurisdiction on more than two structures during any three-year period. (Sec. 7044, Business and Professions Code.)

I, as owner of the property, am exclusively contracting with licensed contractors to complete the project (Sec. 7044, Business and Professions Code). The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractor's License Law.

I am exempt under Sec. _____ of P.C. for this reason _____

BUILDING PERMIT NUMBER:
REMARKS:

OWNER/BUILDER
 I, as owner of the property, or my employees with written or implied compensation, will do the work and the installation is not intended or intended for sale (Sec. 7044, Business and Professions Code). The Contractor's License Law does not apply to an owner of property who installs or improves himself and who does such work himself or through his own employees, provided that such improvements are not intended or intended for sale. It, however, the holding or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale.
 I, as owner of the property, am exempt from the sale requirements of the above due to (1) and (2) and (3) and (4) and (5) and (6) and (7) and (8) and (9) and (10) and (11) and (12) and (13) and (14) and (15) and (16) and (17) and (18) and (19) and (20) and (21) and (22) and (23) and (24) and (25) and (26) and (27) and (28) and (29) and (30) and (31) and (32) and (33) and (34) and (35) and (36) and (37) and (38) and (39) and (40) and (41) and (42) and (43) and (44) and (45) and (46) and (47) and (48) and (49) and (50) and (51) and (52) and (53) and (54) and (55) and (56) and (57) and (58) and (59) and (60) and (61) and (62) and (63) and (64) and (65) and (66) and (67) and (68) and (69) and (70) and (71) and (72) and (73) and (74) and (75) and (76) and (77) and (78) and (79) and (80) TELEPHONE NUMBER (IF APPLICABLE)

NAME PG+E Bldg. + Site Eng. LICENSE # 9279
ADDRESS PHONE
CITY San Francisco STATE CA ZIP

I hereby affirm that I am licensed under provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect.

CONTRACTOR NAME Red Top Electric Co. CITY BUSINESS TAX # 1504797
ADDRESS 24967 Huntwood Ave.
CITY HAYWARD STATE CA ZIP 94544 PHONE 351-4112
SIGNATURE Paul J. Roy DATE 2-5-92

I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Sec. 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he is licensed pursuant to the provisions of the Contractor's License Law Chapter 9 (commencing with Sec. 7000) of Division 3 of the Business and Professions Code, or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than \$500.)

- I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business Professions Code: The Contractor's License Law does not apply to an Owner of property who builds or improves thereon, and who does such work himself or through his own employees, provided that such improvements are not intended for sale. If however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale).
- I, as owner of the property, am exempt from the sale requirements of the above due to (1) I am improving my principal place of residence or appurtenances thereon, (2) the work will be performed prior to sale, (3) I have resided in the residence for the 12 months prior to completion of the work, and (4) I have not claimed exemption in this subdivision on more than two structures more than once during any three-year period. (Sec. 7044, Business and Professions Code).
- I, as owner of this property, am exclusively contracting with licensed contractor to construct the project (Sec. 7044, Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractor's License Law).
- I am exempt under Sec. _____, BAPC for this reason.

Signature of Owner or Authorized Agent _____ DATE _____

I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Sec. 7031.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he is licensed pursuant to the provisions of the Contractor's License Law Chapter 9 (Commencing with Sec. 7000) of Division 3 of the Business and Professions Code, or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than \$500):

I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code: The Contractor's License Law does not apply to an Owner of property who builds or improves thereon, and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale. If however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale);

I, as owner of the property, am exempt from the same requirements of the above due to: (1) I am improving my principal place of residence or appurtenances thereto, (2) the work will be performed prior to sale, (3) I have resided in the residence for the 12 months prior to completion of the work, and (4) I have not claimed exemption in this subdivision on more than two structures more than once during any three-year period. (Sec. 7044, Business and Professions Code);

I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractor's License Law).

I am exempt under Sec. _____, B&P.C. for this reason _____

I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Sec. 7031.5, Business and Professions Code). Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he is licensed pursuant to the provisions of the Contractor's License Law Chapter 9 (commencing with Sec. 7000) of Division 3 of the Business and Professions Code, or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than \$500:
 I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business Professions Code). The Contractor's License Law does not apply to an Owner of property who builds or improves thereon, and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale. If however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale.
 I, as owner of the property, am exempt from the sale requirements of the above due to: (1) I am improving my principal place of residence or apartment house, (2) the work will be performed prior to sale, (3) I have resided in the residence for the 12 months prior to completion of the work, and (4) I have not claimed exemption in this subdivision on more than two structures more than once during any three-year period. (Sec. 7044, Business and Professions Code).
 I, as owner of the property, am exclusively contracting with licensed contractors to construct the project. (Sec. 7014, Business and Professions Code). The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractor's License Law.
 I am exempt under Sec. _____, B&P, for the reason _____

I hereby affirm that I am licensed under provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect.

LICENSE # AND CLASS: 379217 CITY BUSINESS TAX#:
CONTRACTOR NAME: SSC Air Conditioning Co
ADDRESS: 2541 Amelin St Oakland 94612 PHONE: 832-1600
SIGNATURE: [Signature] DATE: 1/13/91

I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Sec. 7031.5, Business and Professions Code): Any city or county which requires a permit to construct, alter, or improve any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he is exempt pursuant to the provisions of the Contractor's License Law Chapter 9 (commencing with Sec. 7000) of Division 3 of the Business and Professions Code, or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than \$500.
 I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code); and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale. If however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale.
 I, as owner of the property, am exempt from the safe requirements of the above due to: (1) I am improving my principal place of residence or appurtenances thereto, (2) the work will be performed prior to sale, (3) I have resided in the residence for the 12 months prior to completion of the work, and (4) I have not claimed exemption in this subdivision on more than two structures more than once during any three-year period. (Sec. 7044, Business and Professions Code)
 I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code). The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractor's License Law.
 I am exempt under Sec. _____ B&P.C. for this reason: _____

I hereby affirm that I have a certificate of consent to self-insure, or a certificate of Workers' Compensation Insurance, or a certified copy thereof (Sec. 3800, Lab. C.).
Policy Company Name:
 Certified copy is hereby furnished.
 Certified copy is filed with the city building inspection department.
Signature: [Signature] Date: 1/13/91
(This section need not be completed if the permit is for one hundred dollars (\$100) or less.)
I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the Workers' Compensation Laws of California.
Signature: _____ Date: _____

NOTICE TO APPLICANT: If, after making this Certificate of Exemption, you should become subject to the Workers' Compensation provisions of the Labor Code, you must forthwith comply with such provisions or this permit shall be deemed revoked.

I hereby affirm that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civ. C.).
LENDER'S NAME:
LENDER'S ADDRESS:

I CERTIFY THAT I HAVE READ THIS APPLICATION AND STATE THAT THE INFORMATION GIVEN IS TRUE AND CORRECT. I AGREE TO COMPLY WITH ALL LOCAL ORDINANCES AND STATE LAWS RELATING TO BUILDING CONSTRUCTION AND MAKE THIS STATEMENT UNDER PENALTY OF LAW. I HEREBY AUTHORIZE REPRESENTATIVES OF THIS CITY TO ENTER UPON THE ABOVE MENTIONED PROPERTY FOR INSPECTION PURPOSES. NOTICE! THIS PERMIT WILL EXPIRE BY LIMITATION IF WORK IS NOT STARTED IN 180 DAYS OR IF WORK IS ABANDONED FOR MORE THAN 180 DAYS. DO NOT CONCEAL OR COVER ANY CONSTRUCTION UNTIL THE WORK IS INSPECTED AND THE INSPECTION IS RECORDED ON THE BACK OF THE JOB COPY OF THIS PERMIT. ALL INSPECTION REQUESTS ARE REQUIRED 24 HOURS IN ADVANCE OF THIS INSPECTION.
I hereby agree to save, indemnify and keep harmless the City of Oakland and its officers, employees and agents against all liabilities, judgments, costs and expenses which may occur against the City in consequence of the granting of this permit or from the use or occupancy of any sidewalk, street, or public work, or otherwise by virtue thereof, and will in all things strictly comply with the conditions upon which this permit is granted.

OWNER/BUILDER
 I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Sec. 7031.5, Business and Professions Code): Any city or county which requires a permit to construct, alter, improve, demolish or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement and file a filed statement to the provisions of the Contractor's License Law Chapter 9 (commencing with Sec. 7000) of Division 3 of the Business and Professions Code, or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than \$300:
 I, as owner of the property, or my employees with wages at their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code); The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale. However, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale.
 I, as owner of the property, am exempt from the sole requirements of the above due to:
 (1) am improving my principal place of residence by appurthances thereto, (2) the work will be performed prior to sale, (3) I have resided in the residence for the 12 months prior to completion of the work, and (4) I have not claimed exemption in this subdivision on more than two structures more than once during any three-year period. (Sec. 7044, Business and Professions Code).
 I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code); The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the contractor's License Law.
 I am exempt under Section _____, B&P.C. for this reason: _____

I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Sec. 7031.8, Business and Professions Code: Any City or County which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he is licensed pursuant to the provisions of the Contractor's License Law Chapter 9 (commencing with Sec. 7000) of Division 3 of the Business and Professions Code, or that he is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.8 by any applicant for a permit subjects the applicant to a civil penalty of not more than \$300):

I, as owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended for sale (Sec. 7044, Business and Professions Code). The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or through his own employees, provided that such improvements are not intended for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale.

I, as owner of the property, am exempt from the sale requirements of the above due to: (1) am improving my principal place of residence or appurtenances thereon; (2) the work will be performed prior to sale; (3) I have resided in the residence for the 12 months prior to completion of the work; and (4) I have not claimed exemption in this subdivision on more than two structures more than once during any three-year period. (Sec. 7044, Business and Professions Code)

I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code). The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor's licensed pursuant to the Contractor's License Law.

I am exempt under Sec. _____, B.P.C. for this reason: _____

Subject: Public Records Request for 1919 Webster Street, Oakland

Hello, Roux Associates is conducting a Phase I Environmental Site Investigation at 1919 Webster Street, Oakland, CA, 94612 and 360 19th Street, Oakland, CA. The APN for the property is 8-637-8-8.

We would like to request all records you have pertaining to the site for the property's entire history.

Please contact me if you have any questions.

Thank you,
Charmayne

Public Records Request Number: 2-072420-01

Location(s): 1919 Webster St., Oakland, CA 94612 & 360 19th St., Oakland, CA: APN: 8-637-8-8

Dear C. Floyd:

We have received your Public Records Act Request at the Department of Toxic Substances Control (DTSC). Upon thorough review of our files, we found no records pertaining to the site(s) referenced above.

For information regarding public reports on hazardous waste shipments of generators, transporters, and TSDFs, you can access our Hazardous Waste Tracking System (HWTS) online at: <https://hwts.dtsc.ca.gov/>. Select the "Reports" tab for search options. If you are interested in retrieving detailed reports, please contact the HWTS unit via e-mail: hwtsreports@dtsc.ca.gov or phone: 1-800-618-6942. Customized reports may require a fee. For copies of manifests, please send an e-mail to mcr@dtsc.ca.gov.

In addition, the DTSC provides access to public records online via EnviroStor; another data management system that tracks our efforts in cleanup, permitting, enforcement, and investigation of known/suspected hazardous waste sites and facilities. The available data is updated in real-time. You can access Envirostor online at www.envirostor.dtsc.ca.gov. Navigate the website easily by clicking the "How to Use EnviroStor" tab, then selecting the option "Take a Tour".

If you have any questions or would like further information regarding your request, please contact me via phone: 510-540-3800 or e-mail: Berkeleyfileroom@dtsc.ca.gov.

Sincerely,

Christina de la Vega

Regional Records Coordinator

The Department of Toxics Substances Control (DTSC) takes every precaution to ensure the accuracy of data in the Hazardous Waste Tracking System (HWTS). However, because of the large number of manifests handled, inaccuracies in the submitted data, limitations of the manifest system and the technical limitations of the database, DTSC cannot guarantee that the data accurately reflect what was actually transported or produced.

This message originated outside your organization. Please use caution!

This e-mail serves to notify you that responses to Public Records Requests may be delayed at this time due to the COVID-19 (Coronavirus) pandemic. We will do our best to respond to requestors, including electronically transmitting documents to the requestors, however will not be conducting any in office file reviews until further notice.

The temporary changes in our procedures have been made in response to the following:

- March 4, 2020 the Governor of the State of California issued a **Proclamation Of A State of Emergency** to exist in California as a result of the threat of COVID-19;
- March 12, 2020, the Governor issued Executive Order N-25-20 to assist in preventing and mitigating the effects of the COVID-19 pandemic;
- The Shelter in Place Order issued on March 16th, 2020 by Alameda County's Health Officer;
- Other COVID-19 related orders and directives.

What Essential Governmental Functions must continue to be performed and under what conditions are continually being reviewed and updated to protect the health and safety of the public and our employees. We appreciate your understanding and patience and hope that you also remain healthy and safe during these trying times. Thank you.

Thank you,
Joel Dooha-Chambers

This message originated outside your organization. Please use caution!

Hello /Charmayne,

The San Francisco Bay Regional Water Board received your file review request on July 23, 2020, which seeks records related to the two properties you described below. Based on a thorough search, the San Francisco Bay Regional Water Board does not possess any records responsive to your request. I suggest please contact the local agency, Alameda County Health Department for any further information they may have.

Thank you,

Melinda Wong
