*(Allegations in bold were discovered by CPRA investigators)*

Assigned Inv.	Case #	Incident Date	Completion Date	1-year goal	Officer	Allegation	Finding
CD	19-1337	11/30/19	4/15/20	11/28/20	Subject Officer 1	1. Use of Force	<i>Not Sustained</i>
					Subject Officer 2	2. Use of Force	<i>Not Sustained</i>

**CPRA Made the following Training Recommendations with Respect to Investigations in this Report**

**Training Recommendation(s)**  
 The CPRA recommends additional training that officers must activate their Personal Digital Recording Devices (PDRDs) when initiating citizen contacts and during detentions and arrests.

The CPRA recommends that the Department provide training to all OPD members on utilizing interpreters/translators in the field, and that the Canine Program integrate the use of interpreters/translators in regular training scenarios.

The CPRA recommends that during such training, OPD members should learn the importance of giving clear and concise commands, in any language, as well as making sure all information obtained from a person(s) in a language other than English is relayed back to officers on scene.

Supervisor training should stress the importance of requesting and utilizing OPD Certified Native Language speakers to interpret during high stress incidents when possible.

The CPRA has identified tactical situations in which the City of Oakland customarily uses cartographically incorrect cardinal directions that do not correspond to those used by outside agencies. Due to the unique discrepancy between true directions and Oakland directions, officers should be reminded to clarify which compass is being used and to be on the same page, especially when communicating with units from outside agencies who may not be familiar with Oakland directions.

The CPRA recommends that all OPD officers receive training on this issue to avoid confusion and potential officer safety concerns during incidents.

The CPRA recommends that all OPD members receive training on how to effectively communicate with and utilize CHP Air Support (and air support in general) in the field.

**CPRA Made the following Policy Recommendations with Respect to Investigations in this Report**

<p>Policy Recommendation(s)</p>	<p>The CPRA discovered that DGO K-3 and DGO K-4 define “Serious Bodily Injury” somewhat differently. The CPRA recommends that DGO K-4 and DGO K-3 be reconciled so that officers may reasonably rely upon a consistent definition of serious bodily injury in both policies.</p>
	<p>DGO K-9 and DGO K-4 presumptively categorize canine bites as Level 2 uses of force. Due to the potential for canine bites to cause severe bodily injury, the CPRA recommends eliminating the presumption that a canine bite is automatically a Level 2 use of force. Updating the policy to indicate that a canine bite shall be at least a Level 2 or above, followed by the criteria for both Level 2 and Level 1 cases, would provide clarity to officers in incidents such as these.</p>

**CPRA Made the following Commendation Recommendations with Respect to Investigations in this Report**

<p>Commendation Recommendation(s)</p>	<p>The CPRA recommended that one officer receive positive recognition for his tactical and medical aid contributions during an incident, specifically his decision to apply a tourniquet to an injured suspect during a critical period of the encounter.</p>
