CPRA Made the following Policy Recommendations with Respect to Investigations in this Report	
Policy Recommendation(s)	<p>CPRA recommends a review of the RWM S-01 policy to determine whether the policy should be changed to require that the police report contain a verbatim account of a statement when an officer uses PDRD to memorialize said statement. In cases where an officer is translating from another language, the officer should be required to translate the statement verbatim as well. This practice would uphold the integrity of the witness statement process, especially as it relates to show-up identifications.</p> <p>The CPRA recommends that officers be required to review witness identification statements captured via PDRD prior to finalizing their reports where practicable.</p> <p>The CPRA recommends that the Department consider a policy restricting the use of a vehicle to pursue, block or cut off a bicyclist except in life or death exigent circumstances. Department General Order K-4 states that when a vehicle intentionally strikes a suspect it should be reported and investigated as a deadly use of force. However, as written, the DGO requires evidentiary proof that there was a strike, that the act by the officers was intentional, and that actual contact was made. This is an extremely high standard and precludes such investigation and reporting in most cases.</p>
CPRA Made the following Training Recommendations with Respect to Investigations in this Report	
Training Recommendation(s)	<p>The CPRA recommends that officers receive additional training on the Department's PDRD policy surrounding witness statements.</p> <p>The CPRA recommends that officers be reassessed regarding their certification as translators to determine whether continued certification is appropriate.</p> <p>The CPRA recommends that officers receive additional training on their <i>Brady</i> responsibilities as they relate to witness identification statements and report writing.</p>
