"Compensation earnable" shall mean the monthly compensation as determined by the Board of Administration which would have been earned by the member had ~~he~~they worked, throughout the period under consideration, the average time ordinarily worked by persons in the same grade or class of positions as the positions held by ~~him~~them during such period and at the rate of pay attached to such positions. The computation for any absence of a member shall be based on the compensation earnable by ~~him~~them at the beginning of the absence, and that for time prior to entering the employ of the City, shall be based on the compensation earnable by ~~him~~them in the position first held by ~~him~~them in such employ.

"Benefit" shall include "allowance," "retirement allowance," and "death benefit."

"Accumulated normal contributions" shall mean the sum of all contributions plus interest.

"Accumulated additional contributions" shall mean the sum of all additional contributions plus interest.

"Accumulated contributions" shall mean accumulated normal contributions plus accumulated additional contributions.

"Final compensation" means the highest average compensation earnable by a member during any period of three consecutive years of service; compensation earnable to be computed as described in the definition of "compensation earnable." For the purpose of this paragraph, periods of service separated by breaks in service may be aggregated to constitute a period of three consecutive years, if the periods of service are consecutive except for such breaks. If a break in service did not exceed six months in duration, time included in the break and compensation earnable during such time shall be included in the computation of final compensation. If a break

in service exceeded six months in duration, the first six months thereof and the compensation earnable during those six months shall be included in the computation of final compensation, but time included in the break which is in excess of six months and the compensation earnable during such excess time shall be excluded in the computation of final compensation.

"Member" means any officer or employee who is included in the membership of this Retirement System.

"Retirement System" or "System" shall mean Oakland Municipal Employees' Retirement System as heretofore created under authority granted in this Section, said Retirement System being hereby continued in effect.

This Section shall become effective on the first day of the month next following approval by the Legislature and filing with the Secretary of State.

SECTION 2002

Section 2002. A Board of Administration of said retirement system is hereby created consisting of the City Treasurer, the Auditor, three (3) members elected from the active, retired and deferred membership of the retirement system, a resident representative of a life insurance company and the officer of a local bank. Notwithstanding the foregoing, in the event that less than three Board members are elected from the active, retired and deferred membership of the retirement system, such membership may elect ~~widows, widowers~~ surviving spouses and beneficiaries of retirement system members to the vacant seats designated for active, retired and deferred members of the retirement system.

The Council, shall, upon the recommendation by the Mayor, appoint the resident representative of a life insurance company and the officer of a local bank hereinbefore referred to. Persons holding membership on said Board upon the adoption of this amendment shall continue to serve the terms to which they were elected or appointed.

The City Treasurer and Auditor shall be members of the Board ex-officio.

All members shall serve without compensation.

SECTION 2003

Section 2003. Any member who completes at least twenty years of service in the aggregate with which ~~he is~~ they are entitled to be credited under the System, and attains the age of fifty-two years, or completes at least 10 years of such service and attains the age of sixty years, may retire for service at ~~his~~ their option. Members shall be retired for service on the first day of the month next following the attainment by them of the age of seventy years, regardless of length of service. Upon retirement for service after the effective date hereof, a member shall receive a service retirement allowance equal to the fraction of one-sixtieth of ~~his~~ their final compensation, set forth opposite ~~his~~ their age at retirement, taken and applied by interpolation of said fractions to the preceding completed quarter year of age, in the following table in the column applicable to ~~his~~ their sex, multiplied by the number of years of service with which ~~he is~~ they are entitled to be credited:

The fractions herein set forth at ages other than age 60 are based on the interest rate and mortality tables used under the Retirement System on the effective date hereof and shall be adjusted by the Board in accordance with such interest and mortality tables as the Board may adopt thereafter. The Board shall declare from time to time the rate of interest at which interest shall be credited on contributions of members and the City, and the rate of interest which shall be used in determining actuarial equivalents, which rate shall not exceed a rate one-fourth of a percentage point below the net rate currently earned on the assets of the Retirement Fund.

The Retirement System also shall provide for death benefits for members of the System. The City Council also shall provide that a member retiring may elect, before the first payment of the retirement allowance is made, to receive the actuarial equivalent of ~~his~~ their allowance in a lesser allowance to be received by ~~him~~ them throughout ~~his~~ their life and in other benefits payable after ~~his~~ their death to another person, including an allowance throughout the life of such person.

For the purpose of this Section, the qualifying ten-year periods of service shall be accumulated during any continuous periods of not more than twelve years, provided any absence from or return to actual service during such twelve-year periods is approved by the Civil Service

Board in the case of persons in the classified civil service or by the City Council in the case of other persons within the Retirement System.

This section shall become effective on the first day of the month next following approval by the Legislature and filing with the Secretary of State.

SECTION 2004

Section 2004. Notwithstanding the provisions of Section 2003 to the contrary, the provisions of this Section shall apply to the Retirement System. The City Council also shall provide that a member retiring may elect before the first payment of his their retirement allowance is made, and that a member may elect at any time before retirement, but only after qualification for service retirement, as provided in Section 2010 to receive the actuarial equivalent of the portion or all of his their allowance, as the case may be, which would not be continued automatically regardless of dependents then living, in a lesser allowance to be received by him them throughout his their life and in other benefits payable after his their death to another person, including an allowance throughout the life of such person. The amounts payable under options two (2) or three (3) as stated in Ordinance No. 713 C.M.S., which were elected prior to the effective date of Section 2007 by a person who is living on that date, shall be adjusted to amounts calculated as if the provisions of that Section had been in effect at the date of his their retirement, but no adjustment shall be made because of payments made prior to such effective date.

This Section shall become effective on the first day of the month next following approval by the Legislature and filing with the Secretary of State.

SECTION 2004.5

Section 2004.5. The Retirement System also shall provide for retirement for disability after five years of service credited under the System, and before age 60, subject to the following conditions:

It is the intention of this section that allowances granted to or on account of members of the System for injury, illness or death incurred in the performance of duty shall not be cumulative with benefits under the Labor Code of California awarded as the result of the same injury, illness or death. If any member of the System or dependent receives compensation under the Labor Code for disability or death arising out of and in the course of the performance of duty, any payment on account thereof shall be applied as a credit and set-off against any payment on account of salary granted to such member under Section 8.04 of the Laws and Rules of the Civil Service Board; or retirement allowances or other benefit granted to or on account of such member under the provisions of this article as follows:

- (a) If the amount is paid in one sum or in installments equal to or greater than such salary, retirement allowance, or other benefit, such member or dependent shall not receive any salary, retirement allowance or other benefit until the total amount of the salary, retirement allowance, or other benefit which would otherwise be payable equals the total amount received under the Labor Code.

- (b) If the amount is paid in installments less than such salary, retirement allowance or other benefit, the salary, retirement allowance or other benefit shall be reduced so that the total of salary, retirement allowance or other benefit plus the amounts received under the Labor Code will equal the salary, retirement allowance, or other benefit which would otherwise be due.
- (c) In either case, any award specifically granted for medical, surgical or hospital expenses shall not reduce the salary, retirement allowance or other benefit.

No disability retirement benefits shall be paid under this section on the basis of an award by the ~~Workmen's~~ Workers' Compensation Appeals Board of the State of California.

This section shall become effective on the first day of the month next following approval by the Legislature and filing with the Secretary of State.

SECTION 2005 (a)

- (a) The normal rate of contribution of each member as determined by the actuary and approved by the Board and to be effective on the effective date hereof shall be based on ~~his~~ their nearest age at the effective date of ~~his~~ their membership in the Retirement System, and if effective from the effective date of ~~his~~ their membership, shall be such as, on the average for such member, will provide, assuming service without interruption from said effective date until retirement, one-half of the portion of the service retirement allowance which is based on such service, and to which ~~he~~ they would be entitled if retired at age 60, but not including automatic continuance to dependents. The actual amount of annuity including such continuance, however, provided for a member upon retirement, shall be the actuarial equivalent of ~~his~~ their accumulated contributions. The normal rate established for age 59 shall be the rate for any member who has attained a greater age before entrance into the System, and that established for age twenty shall be the rate for any member who enters the System at a lesser age. Members' normal rates of contributions shall be changed by the Board on the basis of periodical actuarial valuation and investigation provided by the Charter. No adjustment shall be included in members' normal rates because of time during which they have contributed at different rates.

This amendment shall become effective on July 1, 1959, or the first day of the month next following approval by the Legislature, whichever is later.

SECTION 2005 (b)

- (b) There shall be deducted from each payment of compensation made to a member, a sum determined by applying the members normal rate of contribution to such compensation. The sum so deducted shall be paid forthwith to the Retirement System, and shall be credited to the individual account of the member from whose compensation it was deducted, and the total of said contributions, together with interest credited thereon, shall be applied to provide part of the retirement allowance granted to said members; or said total of said contributions, together with interest credited thereon shall be paid to said member upon termination of ~~his~~ their employment by the City prior to retirement, or to ~~his~~ their estate or beneficiary upon ~~his~~ their death, in the manner provided by the City Council. The City

Council, however, shall provide for election by members who are entitled to be credited with at least 5 years of service and whose employment is terminated by cause other than death or retirement, to allow their accumulated contributions to remain in the Retirement fund, to continue as members of the System and to be subject to the same age and disability requirements as apply to other members for service or disability retirement, but they shall not be subject to a minimum service requirement, and the minimum retirement allowances shall not apply to them, unless they meet such minimum service requirement. Subject to rules prescribed by the Board, any member may elect to make contributions in excess of ~~his~~ their contributions herein required, for the purpose of providing additional benefits, and benefits provided hereunder for such member shall be exclusive of such additional benefits. The exercise of this privilege by a member shall not require the City to make any contributions. Additional contributions shall be administered in the same manner as normal contributions.

This section shall become effective on the first day of the month next following approval by the Legislature and filing with the Secretary of State.

SECTION 2006

Section 2006. Absence of a member of the Retirement System by reason of service with the armed forces of the United States, either during a war involving the United States as a belligerent or in any other National emergency and for six months thereafter and who is not dishonorably discharged or released therefrom, shall be credited to such member as service for the City for retirement purposes.

While so absent without compensation from the City, the City shall contribute, for and on behalf of each member absent by reason of such service, amounts equal to the contributions which would have been made by such member and the City to the Retirement System if ~~he~~ they had not been so absent. Any such member who contributed to the Retirement System under the provisions of Section 33 (4-½)* of this Charter entitled "Contributions by Members in Military Service" before its repeal, shall have such contributions refunded or, at ~~his~~ their election credited to ~~his~~ their account as additional contributions, but such additional contributions when credited to ~~his~~ their account shall not place on the City any additional financial obligation.

The contributions made by the City pursuant to the provisions of this Section shall be made available only for the purpose of retirement, and if employment by the City of any such member be discontinued before retirement, ~~he~~ they shall be entitled to withdraw only that portion of ~~his~~ their accumulated contributions actually made by him, or should ~~he~~ they die before retirement, any death benefit payable by reason of ~~his~~ their death shall include only that portion of ~~his~~ their accumulated contributions actually made by ~~him~~ them.

This Section shall be retroactively applied to extend its benefits to such members of the Retirement System whose absence commenced prior to its effective date.

* This reference is to the Section or Article so designated in the former Charter.

SECTION 2007

Section 2007. Upon the death of a person after ~~his~~ their retirement, including persons receiving allowances on the effective date of this Section, one-half of ~~his~~ their retirement allowance as it was at death, before modification under an option shall be continued throughout life or until the remarriage of the surviving spouse if the remarriage occurs prior to January 1, 1985. If there be no surviving spouse entitled to an allowance hereunder, or if the surviving spouse so entitled dies before every child of such deceased member attains the age of eighteen years, then the allowance which the surviving spouse would have received, or which the surviving spouse would have received had ~~she~~ they lived shall be paid to a child or children under said age, collectively, to continue until every such child dies or attains said age, provided that no child shall receive any allowance after marrying or attaining the age of eighteen years. Should said member leave no surviving spouse and no children under the age of eighteen years, but leave a parent or parents dependent upon ~~him~~ them for support, the parents so dependent shall collectively receive a monthly allowance equal to that which a surviving spouse otherwise would have received, during such dependency. No allowance, however, shall be paid under this section to a surviving spouse, unless ~~he or she~~ they were married to the member at least one year prior to retirement. Contributions necessary for the payment of the continuance of one-half of allowances of persons who are receiving allowances on the effective date of this Section, shall be provided from the reserves held by the Retirement System on account of active members, the necessary amount being transferred upon said effective date from said reserves to the reserves held by the Retirement System to meet obligations on account of benefits that have been granted.

This Section shall become effective on the first day of the month next following approval by the Legislature.

SECTION 2008

Section 2008. Upon the death before retirement of a member who is qualified for service retirement under Section 2003 by attainment of the age of at least fifty-two (52) years with credit for twenty (20) or more years of service, or at least sixty (60) years with credit for ten (10) or more years of service, and on account of whose death the benefit provided for in accordance with such Section, is otherwise payable, a monthly allowance equal to one-half of the monthly retirement allowance prior to modification under options provided for in accordance with such Section which the member would have been entitled to receive if ~~he~~ they had retired from service on the date of ~~his~~ their death, shall be payable:

- (a) To the member's surviving spouse ~~widow, or to the member's widower~~ who was receiving at least one-half of ~~her/his~~ their support from the member at the time of the member's death, ~~and with respect to both widow and widower,~~ who was married to such member prior to the occurrence of the injury or onset of the illness which resulted in death; or
- (b) If there is no qualifying spouse, or if such spouse dies or remarries, to unmarried children, including stepchildren, of the member, who are under 18 years of age.

The allowance payable under this Section shall be in lieu of the death benefit provided for in accordance with Section 2003 except for the accumulated additional contributions included herein, but a person qualifying for the allowance or such person's guardian may elect, before the first payment on account of it, to receive such death benefit in lieu of the allowance. The member's accumulated additional contributions shall be paid to the person qualifying for the allowance, and the remainder of the accumulated contributions of the member shall be applied toward providing the allowance, and the balance not so provided shall be payable from contributions of the City.

The allowance shall begin to accrue on the day next following the date of death of the member, and payments to the surviving spouse shall continue only until death or remarriage if remarriage occurs prior to January 1, 1985, and to or on account of children with respect to each child, until the attainment of age 18, death or prior marriage. If payment of the allowance provided by this Section is stopped because of remarriage of the surviving spouse prior to January 1, 1985, or the attainment of the age of 18 years by, or the death or marriage of, a child, before the sum of the monthly payments made equals the death benefit provided for in accordance with Section 2003, exclusive of accumulated additional contributions, a lump sum equal to the difference shall be paid to the remarried spouse who remarried prior to January 1, 1985, or if there is no such spouse, to the surviving children of the member, share and share alike.

This Section shall become effective on the first day of the month next following approval of the Legislature.

SECTION 2009

Section 2009. Should any member discontinue to be an employee of the City, except by death or retirement, ~~he~~ they shall be paid, under such rules as may be established by ordinance of the Council, all of ~~his~~ their accumulated contributions, together with interest thereon at rates to be set by the Council upon the recommendation of the Board of Administration.

The Council may also, by ordinance, define the rights of former employees or of former members of the retirement system upon their re-entry into the City service.

SECTION 2010

Section 2010. Any member who has qualified for service retirement under Section 2003 by attainment of the age of at least fifty-two (52) years, with credit for twenty (20) or more years of City service, or at least sixty (60) years, with credit for ten (10) or more years of City service, may elect as provided in Section 2004 and without right or revocation or change after approval of the election by the Retirement Board, to receive the actuarial equivalent as of the date of ~~his~~ their retirement of the retirement allowance payable to ~~him~~ them when and if ~~he retires~~ they retire for service or disability, in a reduced retirement allowance according to the provisions of either Option 2 or Option 3, as stated in Ordinance No. 713 C.M.S. If such a member at the time of making the election has a living spouse who would qualify for an allowance under Section 2008, the election under this Section shall be invalid and of no effect unless and until the consent of such spouse to it is filed at the office of the Retirement System.

Upon such member's death at least thirty (30) days after the date upon which the election is received in the office of the Retirement System, and prior to the effective date of ~~his~~ their retirement, the person who was nominated by ~~him~~ them under the option ~~he~~ they elected and who survives ~~him~~ them, shall receive an allowance calculated under such option, upon the assumption that such member retired for service on the date of ~~his~~ their death and died immediately thereafter. The payment of such allowance to such person shall be in lieu of both the death benefit provided for in accordance with Section 2004, and the allowance provided by Section 2008, and no such death benefit or such allowance shall be paid on account of such death to any person or beneficiary, regardless of whether the person nominated under the option elected survives the member.

If such member subsequently retires for service or disability, ~~he~~ they shall receive, regardless of whether the person nominated by ~~him~~ them under the option elected is then living, a reduced allowance according to the provisions of Section 2003 and the option elected. The amount of the allowance prior to optional modification shall be calculated on the basis of the member's age at death before retirement, or at retirement as the case may be, but the reduction of such allowance under the option elected shall be based on the ages of such member and the person nominated by ~~him~~ them under such option at the effective date of such election.

This Section shall become effective on July 1, 1959, or the first day of the month next following approval by the Legislature, whichever is later.

SECTION 2011

Section 2011. Every retirement allowance payable by the Oakland Municipal Employees' Retirement System, for time commencing on the effective date of this section, hereby designated as the first day of July, 1953, or the first day of the month next following its approval by the Legislature, whichever is later, to or on account of any person who was retired prior to February 1, 1950, as a member of said system, is hereby increased by the amount of \$25.00 per month, provided such member was entitled to be credited under the Retirement System with at least twenty years of service upon which the retirement allowance was determined at retirement. If the member was entitled to be credited with less than twenty years of such service, said monthly increase shall be an amount which shall bear the same ratio to \$25.00 that the service with which the member was entitled to be credited at the effective date of retirement bears to twenty years. This section does not give any member retired prior to the effective date hereof, or ~~his~~ their successors in interest, any claim against the City for any increase in any retirement allowance paid or payable for time prior to said effective date. If a member elected at retirement to have ~~his~~ their retirement allowance modified under Options 2 or 3, provided by Ordinance 713 C.M.S. and if ~~his~~ their beneficiary is living on said effective date, the increase in ~~his~~ their allowance shall be modified under the option elected at retirement, and on the basis of current ages, mortality tables and interest rate. If the beneficiary of such a person who elected at retirement to have ~~his~~ their allowance modified under one of said options is not living on said effective date and the beneficiary is receiving the modified retirement allowance, then the allowance shall be increased as provided herein for persons who did not elect an option.

The increase in the retirement allowance shall be apportioned between service rendered prior to the entry of the member into the Retirement System and service rendered as a member, in the same proportion that such prior and current service, respectively, bears to the total service

credited at retirement. Contributions to the Retirement System necessary for the payment of the portion of the increases in the retirement allowances provided in this Section, which are based on service as members, shall be provided from reserves held by the Retirement System to meet the obligations on account of benefits that have been granted and on account of prior service of members. If, however, the City's contributions on account of service rendered as members has been changed from an amount equal to members' contributions to an amount derived by applying a percentage to earned compensation of members, contributions to the Retirement System necessary for the payment of the increases in the retirement allowances provided in this section, shall be provided, with respect to the portion of the increase based on service rendered as members, from the reserves held by the Retirement System on account of miscellaneous members, the necessary amount being transferred upon said effective date, from said reserves to the reserves held by the Retirement System to meet the obligations on account of benefits that have been granted and on account of prior service of members. The contribution then being required of the city, as a percentage of salaries of persons who are members of the system, shall be increased by such increase in the percentage as is determined by the actuary as necessary to replace the reserves to be transferred. Contributions to the Retirement System necessary for the payment of the portion of said increases based on service rendered prior to membership in the Retirement System, shall be paid to the System by the City in annual appropriations, provided that such appropriation for any year shall not be less than the amount disbursed during that year on account of said portion of the increases.

SECTION 2013

Section 2013. It shall be the duty of the first Board of Administration created under this Section to recommend a retirement system to the Council and to secure from a competent actuary a report of the cost of establishing the same.

The mortality, service, experience, or other tables calculated by the said actuary and the valuations determined by ~~him~~ the actuary and approved by the Board shall be conclusive and final. Any system adopted by the Council shall be based thereon, and no changes shall be made in the system by the Council until the cost of such changes has been estimated by a competent actuary and the changes themselves have been approved by the Board of Administration.

The Board of Administration shall cause the tables on which the system is based to be reviewed at least every three (3) years by a competent Actuary and shall recommend to the Council any changes in the system that the Board may deem necessary as the result of such actuarial review.

SECTION 2015

Section 2015. The Board of Administration shall elect one of their number President and shall appoint a Secretary. They may also employ such additional actuarial, clerical, or other assistance as the Council may provide. All regular and permanent employees of the Board, with the exception of the actuaries, shall be appointed under the provisions of Article XIII of this Charter.

The Board shall make all necessary rules and regulations, not inconsistent with this Charter and the ordinances establishing the Retirement System, and it shall be the sole judge, under such general ordinances as may be adopted by the Council, as to the conditions under which persons may be admitted to benefits of any sort under the system.

The Board shall also have exclusive control of the administration and investment of such funds as may be established under the system; provided, that the Auditor shall refuse to allow any warrant drawn for the payment of a benefit if in ~~his~~ the Auditor's opinion such benefit has been granted in contravention of this Section or of any ordinance passed under the authority granted herein; and provided further, that the City Treasurer shall be custodian of the funds under the direction of the Board of Administration as aforesaid.

SECTION 2016

Section 2016. The Council shall enact any and all ordinances necessary, in addition to the ordinance authorized in Section 2000, for the proper operations of the aforementioned Retirement System. The Board of Administration shall make an annual estimate of the cost of administering the Retirement System and shall transmit the same to the City Administrator at such time as ~~he~~ the City Administrator may direct. The amount necessary for the administration of the aforementioned Retirement System shall be paid out of the Oakland Municipal Employees' Retirement Fund.

SECTION 2600

Section 2600. There is hereby added to the Charter of the City of Oakland a new Article to be known as Article XXVI for the purpose of combining into one system, hereby created and to be known as THE POLICE AND FIRE RETIREMENT SYSTEM, and the separate system heretofore created by the provisions of Article XIV and XV of this Charter. All persons who become members of the Police or Fire Departments as defined in former Article XIV* and XV* of this Charter, ~~including all persons hereafter employed to perform the duties now performed by matrons and substitute matrons of the City Prison,~~ on or after the effective date of this Article, hereby defined as July 1, 1951, or the first of the month next following approval by the Legislature, whichever is the later, shall be members of the Retirement System established by this Article and shall be subject to the provisions hereof. All members of the Police or Fire Departments who are subject to the Relief and Pension Systems under the provisions of Article XIV and XV of this Charter, and not permanently retired, ~~including matrons and substitute matrons of the City Prison,~~ shall have the option of being members of this Retirement System under the provisions of this Article, said option to be exercised in writing on a form furnished by the Retirement Board as hereinafter defined, to be filed with the Secretary of the Board not later than 90 days after the effective date of this Article. Upon filing said written option, such persons shall be subject to the provisions of this Article as of its effective date, notwithstanding any other provisions of this Charter; provided that any of such persons who are absent by reason of service in the armed forces of the United States, and any persons on disability retirement under Article XIV or XV on the effective date of this Article, shall have the right to exercise said option within 90 days after return of such persons to service in said departments. Members of the Relief and Pension Systems under Articles XIV and XV of this Charter, who do not exercise the option in this section, shall remain members under the provisions of said articles and under the provisions of Section 2619 and benefits being paid, on the effective date hereof, to or on account of persons who are or have been

members under said articles, shall be continued at their existing rates and in accordance with the provisions of said articles, but shall be paid from the fund created under this article.

- (a) Notwithstanding any other provision of this Article XXVI, active members of PFRS shall be permitted to terminate their membership in PFRS and become members of the California Public Employees' Retirement Systems ("PERS") (hereinafter referred to as "~~transfer~~ transfer to PERS"); provided that active members may transfer to PERS only if the following occur:
- (1) the City Council authorizes the transfer to PERS; and
 - (2) the PFRS Board authorizes transfer of PFRS retirement funds representing the employer and employee contributions to PFRS for each PFRS member who exercises the option to transfer to PERS.

The decision to authorize the transfer to PERS shall be based on the City Council's sole judgment and discretion. The City shall have absolutely no obligation to authorize such transfer and the City Council's decision shall be final and binding and without recourse to a court or law, section 910 of the City Charter, which provides for binding interest arbitration, or any other administrative, contractual or legal avenue or remedy.

The decision of the PFRS Board to authorize transfer of PFRS retirement funds to PERS as described above, shall be based upon the board's sole judgment and discretion exercised in accordance with board members' fiduciary obligations, the prudent person standard, the provision of Article XXVI of the City Charter, the California Constitution and other applicable law.

* This reference is to Articles XIV and XV so designated in the ~~former~~ Charter as it was adopted in 1968. These Articles have been deleted because the Police Relief and Pension Fund (Article XIV) and Firemen's Relief and Pension Fund (Article XV) are obsolete and have been combined in Article XXVI (Police and Fire Retirement Fund).

SECTION 2601

Police and Fire Retirement Board

Section 2601. In order to continue in force and make effectual pensions and retirements already existing or that may be granted in the future in favor of members of the Police or Fire Departments, the systems heretofore existing under the provisions of Articles XIV and XV of this Charter are hereby combined into one system to be known as the Police and Fire Retirement System and the funds heretofore created, ~~existing and known as the Police Relief and Pension Fund and the Firemen's Relief and Pension Fund,~~ are hereby combined in a common fund to be known and designated as the Police and Fire Retirement Fund. This System and fund shall be managed and administered by a Board hereby created to be known and designated as the Police and Fire Retirement Board, which shall be the successor of and shall have the powers and duties heretofore possessed and exercised by the Board of Trustees of the obsolete Police Relief and Pension Fund and Board of Trustees of the obsolete Firemen's Relief and Pension Fund. This Retirement Board shall consist of seven (7) members as follows: the Mayor of the City; one active member of the Police Department, or a retired member elected by the active and retired members of the Police Department if no active member of the Police Department is elected to serve on the

- (2) The dependent rate of contribution of each person who becomes a member of the Police or Fire Department after the effective date of this Article, shall be such as, on the average for such member, will provide, assuming service without interruption, and upon ~~his~~ their first qualifying for service retirement under Section 2608, one-fourth (¼) of the portion of ~~his~~ their allowance which is to be continued under Section 2608, after ~~his~~ their death and throughout the life of a surviving wife whose age at said death is three years less than the age of said member, or, as the case may be, a surviving husband whose age at said death is three years more than the age of said member. The dependent rate of contribution of each member who exercises the option in Section 2600, shall be one and one-half percent (1-½%). If at the date of retirement for service or retirement for disability, said member has no ~~wife~~ surviving spouse who would qualify for the continuance of the allowance ~~to her~~ after the death of said member, the dependent contributions with accumulated interest thereon, shall be paid to ~~him~~ said member forthwith.
- (3) The normal rate of contribution of persons who remain members under Article XIV and XV shall be five percent (5%). Such rate shall be applied to compensation, on and after the effective date of this Article, as described in paragraph 4 of this section. Such persons shall not have dependent contribution rates.
- (4) There shall be deducted from each payment of compensation made to a member throughout ~~his~~ their membership, a sum determined by applying the member's normal and dependent rates of contribution to such compensation payment. Except for persons who remain members under Article XIV and

XV, the sum so deducted shall be accumulated with interest as set from time to time as provided in Section 2602(a). Such accumulated contribution shall be used to provide benefits for said members, or shall be paid to said member or his their estate or beneficiary as provided in this Article.

- (5) Members' contributions deducted from compensation earned prior to the effective date of this Article, and after May 3, 1943, shall not be considered in the determination of allowances, and shall be paid to the Retirement System, with interest, by the City when said accumulated contributions otherwise are payable to or on account of members by the Retirement System.
- (6) The City shall contribute to the Retirement System such amounts as may be necessary, when added to the contributions referred to in the preceding paragraphs of this Section, to provide the benefits payable under this Article and Articles XIV and XV. The City contributions made periodically during the year shall be such as when added to member contributions will actuarial fund all liabilities for all members prior to July 1, 1976, by July 1, 2026. Any fund established pursuant to the 1971 amendment to this subsection and implemented by Retirement Board Resolution No. 3968 which provided for payment of improved or additional benefits shall continue only for the purposes stated herein. Any monies held in such fund as of July 1, 1976, and any interest credited thereon pursuant to Section 2602(a) shall continue to be payable to members of this system as follows:
 - (a) For all individuals who received retirement allowances as of December 31, 1972, said allowance commencing January 1, 1973, shall be increased as follows:
 - (1) A computation of an additional one percent (1%) of the gross allowance due in December, 1972, shall be made for each said individual. Any additional monies added to the basic retirement allowance because of minor children under Charter Section 2612(a) shall not be included in the computation of said one percent (1%).
 - (2) The amount of each said December, 1972, one percent (1%) computation shall become a fixed, non-fluctuating amount which shall be added each month, commencing in January, 1973, to the retirement allowance of each said individual and to any continuation (and in the appropriate percentage to any partial continuation) of each said retirement allowance.
 - (b) For members of the System retiring after December 31, 1972, at the date of retirement, a computation of an additional five percent (5%) of the compensation attached to the average rank held by such member during the three (3) years next preceding said retirement shall be made for each individual retiring with at least twenty-five (25) years of service.

The amount of each said five percent (5%) computation shall become a fixed, non-fluctuating benefit amount which shall be added in monthly installments to the retirement

allowance of each said individual retiring or who is considered as retiring with at least twenty-five (25) years of service and to any continuation (and in the appropriate percentage to any partial continuation) of each said retirement allowance.

No additional monies from any source whatsoever shall be paid into said fund, and said fund shall cease to exist when the monies held payable for the aforementioned purposes are expended.

- (7) During the absence of a member by reason of service with the armed forces of the United States, either during a war involving the United States as a belligerent, or in any other National Emergency and for six (6) months thereafter, and who is not dishonorably discharged or released therefrom, the City shall contribute for and on behalf of such member, amounts equal to the contributions which would have been made by such member and by the City to the Police and Fire Retirement Fund if ~~he~~ they had not been so absent. The contributions made by the City pursuant to the provisions of this paragraph in lieu of contributions which the member otherwise would have made, shall be made available only for the purpose of retirement and death after the completion of ten (10) years of service in the aggregate, and in the event of the resignation or dismissal of said member from service as a member of the Police or Fire Department prior to qualifying for service retirement, or in the event of the death of such member from causes not arising out of the performance of duty prior to the completion of ten (10) years of such service, any withdrawal of accumulated contributions by such member or any death benefit payable by reason of such death shall include only that portion of the accumulated contributions actually made by such member. For the purposes of this Article, a war involving the United States as a belligerent exists: (a) whenever Congress has declared war, and peace has not been formally restored; (b) whenever the United States is engaged in active military operations against any foreign power, whether or not war has been formally declared; or (c) whenever the United States is assisting the United Nations, in actions involving the use of armed force, to maintain or restore international peace and security.

* Articles XIV (Police Relief and Pension Fund) and XV (Firemen's Relief and Pension Fund) are deleted because these retirement systems were combined in Article XXVI (Police and Fire Retirement Fund) and are obsolete. The provisions of Articles XIV and XV are available for reference in the Charter as it was adopted in 1968.
