SITE INSPECTION / FINDINGS

The sixty-six (66) trees listed in the tree inventory for removal on the two blocks between 9th St. & 7th St. and Madison St. & Fallon St. are mostly in poor condition and within the footprint of proposed construction.

These trees are approved for removal and to be replaced with seventy-five (75) trees as listed in the planting plans.

PERMIT REVIEW – FINDINGS 12.36.050(A)

The applicant's request accomplished the following objective(s):

- 1. Insured the public health and safety as it related to the health of the tree, potential hazard to life or property, proximity to existing or proposed structures, or interference with utilities or sewers.
- 2. Avoided an unconstitutional regulatory taking of property.
- 3. Took reasonable advantage of views, including such measures mandated by the resolution of a view claim in accordance with the view preservation ordinance (Chapter 15.52 of the Oakland Municipal Code).
- 4. Pursued accepted, professional practices of forestry or landscape design. Submission of a landscape plan acceptable to the Director of Public Works shall constitute compliance with this criterion.
- 5. Implemented the vegetation management prescriptions in the S-11 site development review zone.
- None of the objectives above were accomplished by the proposed removal(s).*

PERMIT REVIEW – FINDINGS 12.36.050(B)

Any one of the following situations was grounds for permit denial, regardless of the findings in section (A) above:

- 1a. Removal could be avoided by reasonable redesign of the site plan, prior to construction.
- 1b. Removal could be avoided by trimming, thinning, tree surgery or other reasonable treatment.
- 2. Adequate provisions for drainage, erosion control, land stability or windscreen were not made.
- 3. The tree(s) were a member of a group of trees in which each tree was dependent upon the others for survival.

4. The value of the tree is greater than the cost of its preservation to the property owner. The value of the tree shall be measured by the Tree Reviewer using the criteria established by the International Society of Arboriculture, and the cost of preservation shall include any additional design and construction expenses required thereby. This criterion shall apply only to development-related permit applications.
- There were no grounds to deny the permit based on criteria listed in OMC 12.36.050(B).*

OAKLAND MUNICIPAL CODE SECTION 12.36.060 CONDITIONS OF APPROVAL

The following conditions were imposed. Conditions #17 - #19 were imposed if they were check marked:

1. **Defense, Indemnification and Hold Harmless.** To the maximum extent permitted by law, the applicant and its contractor shall defend (with counsel acceptable to the City), indemnify, and hold harmless the City of Oakland, the Oakland City Council, the Oakland Public Works Agency and its respective agents, officers, employees and volunteers (hereafter collectively called City) from any liability, damages, claim, judgment, loss (direct or indirect), action, causes of action or proceeding (including legal costs, attorneys' fees, expert witness or consultant fees, City Attorney or staff time, expenses or costs) (collectively called "Action") against the City for or on account of any damage to property or bodily injury, including death, or damage sustained or arising out of, related to or caused by in any way from the performance of work in this tree permit matter. The City may elect, in its sole discretion, to participate in the defense of said Action and the applicant shall reimburse the City for its reasonable legal costs and attorneys' fees.
2. **Defense, Indemnification and Hold Harmless.** To the maximum extent permitted by law, the applicant shall defend (with counsel acceptable to the City), indemnify, and hold harmless the City of Oakland, the Oakland City Council, the Oakland Public Works Agency and its respective agents, officers, employees and volunteers (hereafter collectively called City) from any liability, damages, claim, judgment, loss (direct or indirect), action, causes of action or proceeding (including legal costs, attorneys' fees, expert witness or consultant fees, City Attorney or staff time, expenses or costs) (collectively called "Action") against the City to attack, set aside, void or annul, (a) an approval by the City relating to this tree permit matter, City's CEQA approvals and determination, and/or notices in the tree permit matter; or (b) implementation of such. The City may elect, in its sole discretion, to participate in the defense of said Action and the applicant shall reimburse the City for its reasonable legal costs and attorneys' fees.
3. **Letter of Agreement.** Within ten (10) calendar days of the filing of any Action as specified in conditions 1 or 2 above, the applicant and/or its contractor shall execute a Letter of Agreement with the City, acceptable to the Office of the City Attorney, which memorializes the above obligations. These obligations and the Letter of Agreement shall survive termination, extinguishment or invalidation of the approval. Failure to timely execute the Letter of Agreement does not relieve the applicant of any of the obligations contained in this Section or any other requirements or conditions of approval that may be imposed by the City.
4. **Debris.** All debris created as a result of any tree removal work shall be removed from the property by the applicant within two weeks of debris creation, and such debris shall be properly disposed of by the applicant in accordance with all applicable laws, ordinances, and regulations.
5. **Dust.** Periodically during construction, the leaves of protected trees shall be thoroughly sprayed with water to prevent buildup of dust and other pollution that would inhibit leaf transpiration and photosynthesis.
6. **Fencing.** Tree protection fencing shall be chain link, installed on posts driven into the ground and shall be a minimum of 5 feet tall. The fencing shall be installed at the perimeter of the drip line or a lesser distance if demolition or construction does not allow it, for trees listed above in "Preservation Required".

7. **Hazards.** The removal of extremely hazardous, diseased, and/or dead trees shall be required where such trees have been identified by the City Arborist.
8. **Insurance.** Workers compensation, public liability, and property damage insurance shall be provided by any person(s) performing tree removal work authorized by a tree removal permit.
9. **Miscellaneous.** No storage or dumping of oil, gas, chemicals, or other substances that may be harmful to trees shall occur within the drip line of any protected trees, or any other location on the site from which such substances might enter the protected perimeter. No heavy construction equipment or construction materials shall be operated or stored within the drip line any protected trees. Wires, ropes, or other devices shall not be attached to any protected tree, except as needed for support of the tree. No sign, other than a tag showing the botanical classification, shall be attached to any protected tree.
10. **Nesting Birds.** To the extent feasible, removal of any tree and/or other vegetation suitable for nesting of raptors shall not occur during the breeding season of March 15 and August 15. If tree removal must occur during the breeding season, all sites shall be surveyed by a qualified biologist to verify the presence or absence of nesting raptors or other birds. Pre-removal surveys shall be conducted within 15 days prior to start of work from March 15 through May 31, and within 30 days prior to the start of work from June 1 through August 15. The pre-removal surveys shall be submitted to the Planning and Zoning Division and the Tree Services Division of the Public Works Agency. If the survey indicates the potential presences of nesting raptors or other birds, the biologist shall determine an appropriately sized buffer around the nest in which no work will be allowed until the young have successfully fledged. The size of the nest buffer will be determined by the biologist in consultation with the CDFG, and will be based to a large extent on the nesting species and its sensitivity to disturbance. In general, buffer sizes of 200 feet for raptors and 50 feet for other birds should suffice to prevent disturbance to birds nesting in the urban environment, but these buffers may be increased or decreased, as appropriate, depending on the bird species and the level of disturbance anticipated near the nest.
11. **Permit.** Tree removal, as defined in the Protected Trees Ordinance, Section 12.36.020 of the Oakland Municipal Code, may not start unless and until the applicant has received this permit from Tree Services.
12. **Posting.** The applicant shall post a copy of the tree removal permit in plain view on site while tree removal work is underway.
13. **Pruning.** Construction personnel shall not prune trees or tree roots. Tree pruning of the crown or roots (if done) shall be performed by a licensed, insured tree work contractor that has an arborist on staff certified by the International Society of Arboriculture.
14. **Recording.** The applicant/owner(s) shall record the conditions of approval attached to this permit with the Alameda County Recorder's Office in a form prescribed by the Director of Public Works.
15. **Root Protection.** Roots shall be preserved and no activities shall affect the health and safety of existing trees. If roots are encountered, they may be cut only if they are less than two-inch diameter. Hand tools must be used to cut the roots; the use of excavators, backhoes, or similar equipment is prohibited. Roots larger than two-inch diameter may be cut only if inspected and approved in advance. All work must be done by a Certified Arborist from the International Society of Arboriculture or a Registered Consulting Arborist from the American Society of Consulting Arborists.
16. **Tree Damage.** If any damage to a protected tree should occur during or as a result of work on the site, the property owner/contractor shall immediately notify the Tree Services Division of such damage. If, in the professional opinion of the City Arborist, such tree cannot be preserved in a healthy state, the Arborist shall require replacement of any tree removed with another tree or trees on the same site deemed adequate by the Arborist to compensate for the loss of the tree that is removed.
- 17. **Sidewalks.** The damaged sidewalk shall be repaired in compliance with the rules and regulations of the City of Oakland, including a sidewalk repair permit if more than 25 square feet of sidewalk is being repaired. Contact the Sidewalk Division at 238-3499 for more information.

18. Replacement Trees. The property owner shall plant ~~7~~⁵ replacement tree(s) on the property. The replacement trees shall be excellent quality nursery stock and maintained by the applicant until established. Any replacement planting which fails to become established within one year of installation shall be replanted at the applicant's expense. Plantings shall be installed prior to the issuance of a certificate of occupancy, subject to seasonal constraints. A photograph of the replacement trees, installed in the landscape of the property, shall be mailed or emailed to Tree Services within one week of the replacement trees being installed.

19. .0

- A. The minimum size replacement tree shall be a twenty-four (24) inch box, except that three, fifteen (15) gallon size trees may be substituted for each twenty-four (24) inch box size tree where appropriate, if approved by the City Arborist.
- B. Replacement tree species shall consist of *Sequoia sempervirens* (coast redwood), *Quercus agrifolia* (coast live oak), *Arbutus menziesii* (madrone), *Aesculus californica* (California buckeye) or *Umbellularia californica* (California bay laurel).
- C. Replacement trees shall be installed as shown on the landscape plan submitted with the tree removal permit application.

20. Other Conditions:

- A. The property owner shall retain a consulting arborist for the project.
 - i. The arborist shall be a Certified Arborist from the International Society of Arboriculture or a Registered Consulting Arborist from the American Society of Consulting Arborists.
 - ii. The arborist shall recommend, implement, and monitor preservation measures for pre-construction, construction and post-construction phases. Site development shall not damage protected trees directly or indirectly.
 - iii. Preservation measures shall include, but are not limited to:
 - 1. Wood chip mulch
 - 2. Supplemental irrigation
 - 3. Pruning
 - 4. Tree Protection Zone with chain-link fencing
 - 5. Hand digging to protect roots.

**This decision of the Public Works Agency, Tree Services Section may be appealed by the applicant, or the owner of any “adjoining” or “confronting” property, to the City Council within five (5) working days after the date of this decision and by 5:00 p.m. The term “adjoining” means immediately next to, and the term “confronting” means in front of or in back of. An appeal shall be on a form prescribed by and filed with the City Clerk, at One Frank H. Ogawa Plaza, second floor. The appeal shall state specifically wherein it is claimed there was error or abuse of discretion by the City or wherein such decision is not supported by the evidence in the record and must include payment of \$864.06, in accordance with the City of Oakland Master Fee Schedule. Failure to timely appeal this decision and raise any and all issues in your appeal may preclude you from challenging this determination in court.*
