

COMMERCIAL AND RESIDENTIAL PRIVATE PROPERTY BOARD-UPS

When board-up services are required to secure private property, the City of Oakland does not routinely perform the board-up service if the property owner, lessee or other responsible party is present. The on-site Police or Fire official will inform the property owner, lessee or other responsible party of their own responsibility to perform the board-up. If the property owner, lessee or other responsible party is not available, the on-site Police or Fire official will notify Oakland Public Works Standby personnel of the need for board-up services.

Most commercial businesses and property insurers have 24/7 vendor contracts to provide response and restoration services. Board-ups performed by City crews will be billed to the property owner and are typically more costly.

RESOURCES FOR **COMMERCIAL AND PRIVATE PROPERTY BOARD-UPS**

Dear Property Owner or Tenant:

Listed below is contact information for local vendors that provide board-up services for windows and doors on private property. You can also, at your own discretion, contact your insurance carrier to confirm if they have authorized companies which provide this necessary service to ensure the safety and security of your property.
