Welcome to the city of Oakland, San Antonio Park master plan virtual community meeting. My name is Nikki Fortunato Bas, and I'm the city Council President and District 2 Representative. Thank you for joining us today and special appreciation to our city staff and partners for convening this virtual gathering and creating this opportunity to hear from residents about your feedback, priorities, plans, and ideas to improve our neighborhood and park. I'm eager to hear your ideas for programming, services, capital improvements in other ways we can better utilize outdoor space and provide recreational access for our community. San Antonio Park is the oldest and one of the largest parks in Oakland. It includes a community garden, tennis courts, soccer field, playground, and a head start center. The park is a central gathering place where Oaklanders from all backgrounds come together. It's also home to one of my favorite events, the Malcolm X Jazz Festival hosted by East Side Arts Alliance. The last time the city reviewed the San Antonio Park master plan was in 2003. This current planning process will consist of a comprehensive review of previous plans as well as current efforts taking place today at the park. We will be thoughtful and strategic about engaging with residents from all backgrounds to ensure our parks remain equitable, accessible and enjoyable for all Oaklanders. A series of three multilingual community meetings will be held via Zoom, and we will collect feedback through community surveys. Each community meeting will provide an opportunity for the public to express ideas and concerns about future improvements, to learn about the initial survey results, and to prioritize options outlined for the master plan. My staff and I had been talking with some of you about activities and programs at the park, including Trybe's food distribution from the head start center, vertical skills, free youth boxing program at the tennis courts, the need for safe skateboarding locations, and many more neighborhood priorities. I've also worked with many community stakeholders, including our park steward, to help maintain the park, to provide bathrooms and regular servicing and trash pickup, and ensure safety for our community by activating the park's facilities with events and programs. There are many ideas the city will consider, including those from community members, like upgrading the tennis courts and creating a skate park. The city will also share the need to find a suitable place to relocate fire station 4, which is in a building that's over 100 years old on International and 12th Avenue. We want to hear from you about the potential benefits as well as concerns of a fire station in the park. My office is committed to facilitating the safe and appropriate use of our parks together with park users, neighbors, our Parks & Rec department, and our volunteer Parks & Rec advisory commission. I'm excited to engage with you through our master planning process. And I look forward to hearing from you. Thank you.

A large group of geese is gathered on a grassy field. In the background, there is a soccer field with a goal, and a line of trees. The scene is brightly lit, with a strong sun flare in the upper right corner. The geese are scattered across the field, some standing and some near a small puddle of water.

Thank you!
