

## **Alvin, Corey**

---

**Subject:** RE: Confirmed Redistricting Commission Meeting Dates January 19th and January 26th at 4pm

### Commissioner Miller's suggested modification to Draft Map F3 and rationale.

CVAP Changes (I believe) By District, in comparison to the current Map F3:

B2 - increase in Asian CVAP

C3 - increase in Black CVAP

E5 - no change in Latinx CVAP

F6 - increase in Black CVAP

G7 - increase in Black CVAP

Overall reduction in population deviation in comparison (by hand calculation) to the current F3 (I believe this is the case, even though DistrictR isn't saying that).

Description of Line Changes:

F6/G7 Line: Coliseum is split between the two. To compensate, the neighborhood around the Sequoia Country Club joins district F6. Oak Knoll neighborhood and King Estates Park are still together in G7.

E5/F6 Line: E5 boundary moved south to balance population, but I believe no schools in F6 were absorbed into E5.

F6/D4 line: A couple of parcels north of Mills College are now in F6 to balance population.

E5/D4 line: I believe this line is unchanged. This keeps the Dimond, Laurel, Bartlett, Allendale, Oakmore, and Glenview together in D4.

B2/ E5 line: Same here, I believe this is unchanged.

B2/ D4 line: A few more parcels are shifted from D4 to B2 just to make sure that the Trestle Glen / Lakeshore Homes Association is fully in B2.

B2/ A1 line: A1 line is shifted south to Lakeshore. South half of Lakeshore (including Trader Joe's) is with Trestle Glen in B2. North side of Lakeshore is with Grand Lake. Grand Lake in A1 takes the burden off of B2 councilperson. Lake still fully enclosed in B2.

B2/ C3 line: Adams Point neighborhood is almost fully united in C3. Line near Bay is moved north a few blocks, up to Harrison, which improves CVAP in both districts.

C3/ A1 line: Some parcels moved from C3 to A1 (improves C3 CVAP). Mosswood Park is still in C3. Westlake Middle School is still in C3.

D4 / A1 line: Cemetery and parcel between cemetery and Broadway Terr moved to D4, along with a few parcels west of cemetery, in order to balance the population.
