

CITY OF OAKLAND BUILDING DIVISION
REQUEST FOR CONCURRENT BUILDING PLAN REVIEW

Instructions: Complete this form and include with your Building Worksheet (BW)/Application for permit.

REQUESTED BY:	OWNER	ARCHITECT	CONTRACTOR	ENGINEER
----------------------	--------------	------------------	-------------------	-----------------

DATE OF REQUEST:		PLANNING APPLICATION #:	
PROJECT NAME:		PROJECT NUMBER:	
PROJECT ADDRESS:			

A request is hereby made for a building code plan review for this project. This request is being made with the full understanding that the project has not received the required approvals from the Planning Commission, City Council, and/or other agencies and departments. I also understand that acceptance of this application does not exempt this project from any other required approvals that must be obtained under the regulations of the City.

Should there be any plan changes necessary to conform to non-building code requirements, the building code plan review shall be deemed null and void. New plans shall require that a new building code plan review application be made incorporating those changes. I understand that this will be considered a new application, and I will pay a new fee.

I understand that I am proceeding at my own risk with this application for building/fire code plan review. I also understand that the approval of the plan review does not mean that the building permit is approved.

I the applicant, will be responsible for any and all costs related to this request.
