New blue recycle carts & bins coming soon.

**Minimum Trash Service:** The Oakland Municipal Code (OMC) requires multi-family property owners to subscribe to the equivalent of no less than 20 gallons of trash service per unit, per week. One cubic yard of service is 200 gallons. This ensures everyone in Oakland has space to dispose of their trash which prevents overflowing trash containers and illegal dumping. Litter dumped in the street can cause soil and water contamination and attract pests which spread disease.

**Price Per Unit for Recycle:** There is per unit charge per month for unlimited weekly recycle collection. If your property needs more recycle service, contact California Waste Solutions at 510-625-5263.

**Unlimited Containers for Compost Collection:** Once a week service is included with the cost of trash service. Property managers are required to provide adequate compost collection for the compostable material generated on the property. Call WMAC at 510-613-8710 to order more or larger compost containers at no cost.
