

LAKE MERRITT BART Intersection Improvements

Evaluation Report

Completed: July 2019
Evaluation: June 2020

Background: Chinatown in Oakland is a bustling neighborhood that's home to many seniors and children who rely on walking and transit to get around. However, many of the streets are designed to prioritize the efficient movement of vehicles, and result in high concentrations of severe and fatal traffic crashes. OakDOT engaged community groups, BART, and AC Transit on swift and effective strategies to improve safety at five intersections around the Lake Merritt BART station.

Next Steps: This project has resulted in significant safety improvements using temporary materials to five intersections around Lake Merritt BART. Permanent improvements to some of these intersections are currently being designed as part of BART's redevelopment of the Lake Merritt BART Station, and the Oakland Alameda Access Project.

美麗湖 (LAKE MERRITT) 捷運站十字路口改善工程

評估報告

完工：2019年7月
評估：2020年6月

背景：屋崙（奧克蘭）市的華埠熱鬧非凡，且許多依賴步行和公共交通工具行動的長者和小孩都住在這一區。然而，許多街道的設計都以車輛的移動效率為優先，因此這裡非常密集地發生嚴重且致命的交通事故。屋崙（奧克蘭）市交通局 (OakDOT) 邀集社區團體、舊金山灣區捷運處 (BART) 和東灣公車局 (AC Transit) 一同打造了迅速有效的策略，以改善美麗湖捷運站周邊五個十字路口的安全性。

後續步驟：本項目在美麗湖捷運站周邊五個十字路口，利用暫時性的材料大幅改善了安全性。BART 美麗湖捷運站重新開發案和屋崙（奧克蘭）- 阿拉米達通連項目 (Oakland Alameda Access Project) 目前正在為其中部分路口設計永久性的改善措施。
