INFORMATION

This memo is to provide the Oakland City Council, the Mayor's Office, City staff and the community with information regarding streets selected by Councilmembers as part of the Council Discretion Program within the 2019 3-Year Paving Plan.

GENERAL OVERVIEW

On May 7, 2019, Oakland City Council passed the 2019 3-Year Pavement Prioritization Plan. The 3-Year Paving Plan (3YP) represents a \$102M construction investment in pavement rehabilitation and preventative maintenance with 75% of plan dollars prioritized for rehabilitating local streets and 25% prioritized for rehabilitation and preventative maintenance on major streets. Reflecting community input and City Council-adopted prioritization values, staff developed a framework to prioritize streets for repaving based on equity, street condition, and traffic safety.

This informational memo specifies which streets will be added to the Plan based on the adopted set-aside for Council Discretion streets, which adds an additional 7 miles of local streets to the 3YP. Each Council District office selected streets up to \$1.0M in construction costs per Council's final resolution.

A map of the 3YP including these new streets can be viewed on the City's website by following this link: <https://www.oaklandca.gov/resources/paving-plan>

A list of streets selected by each Council District office are provided below:
