Summary:

On September 30, 2021 Governor Newsom signed **Assembly Bill AB 481** in law, which established protocols for law enforcement agencies regarding the funding, acquisition, use, and reporting of specified law enforcement equipment items. The bill added **Government Code Section 7070** that designated numerous vehicles, weapon systems and munitions- used by the Oakland Police Department as “military equipment.”

The Oakland City Council previously passed Oakland **Municipal Code 9.65** Regulations on City’s Acquisition and Use of Military and Militaristic equipment. The code mirrors the Government Code 7070 except for #12: *Crowd-control equipment, such as riot batons, riot helmets, and riot shields, but excluding service-issued telescopic or fixed-length straight batons. The Council directed the Department to go through the Oakland Police Commission for any acquisitions and use of controlled equipment.*

The Oakland Police Department is committed to maintaining public safety by providing the highest quality police services to our communities we serve. We will continue to work with our Police Commission on the mission of transparency and good governance in the realm of law enforcement and public safety. Only with a good partnership can we address challenges facing our community while continuing to provide the professional, just, and constitutional policing.

This Military Equipment Inventory outlines a summary of military equipment and associated policies. While the inventory of military equipment is varied, the mere possession of the equipment does not warrant its use for every incident.

LeRonne L. Armstrong
Chief of Police
Oakland Police Department

Purpose/Authorized Uses: Used to assist the Oakland Police Department Operators with clearing residences and/or businesses during tactical operations, assisting officers and the community by clearing potentially dangerous building during tactical situations. Authorized by a Watch Commander or Lieutenant or above.

Fiscal Impacts: ~\$280,000 purchased by UASI Homeland Security Grant

Ongoing Cost Per Year: zero cost

Legal/Procedural Rules Governing Use: In accordance with K-5.

Training Requirements: The SOD Commander will ensure that only those team members properly trained and certified in the use of the special equipment will utilize the equipment.

Coordinator/Other: Lt Daza-Quiroz is the coordinator of the Drones and Robots.

Military Equipment (Gov't Code 7070): Mine-resistant ambush-protected (MRAP) vehicles or armored personnel carriers. However, police versions of standard consumer vehicles are specifically excluded from this subdivision.

Quantity Owned: 2

Lifespan: 15 Years

Equipment Capabilities: An armored vehicle is a piece of law enforcement equipment that may allow officers to use non-force options to safely resolve incidents involving actual, threatened, or reasonably suspected violence using firearms or explosives. The protective capabilities of an armored vehicle greatly exceed those of a patrol vehicle and proper deployment of armored vehicles may increase the safety of the public, law enforcement officers, and other first responders. Armored vehicles provide improved cover for officers, are stocked with tools that might be needed during a critical incident, and increase the options for a safe resolution.

Manufacture Product Descriptions:

The 2008 **Lenco BearCat** is equipped with emergency lights/sirens, rotating roof hatch, electric winches, running boards, protection against chemical agents, back-up camera, battering ram attachment, CS (tear gas) deployment nozzle, Thermographic cameras, and spot/flood lights. The vehicle is armored with a 0.5 – 1.5” thick steel and ballistic windows rated to stop a 0.50 BMG round.

#1697 Armored Suburban: The 2015 Chevrolet 1500 Armored Suburban is equipped with emergency lights/sirens, steel front bumper, seating capacity for 9 personnel and backup camera. The vehicle is armored with B6 level armor capable of stopping 7.62X51mm rifle round.

Purpose/Authorized Uses: Commanders (Lieutenants and above) shall only authorize the deployment of armored vehicles when the specific capabilities of the BearCat or Armored Suburban are necessary to bring an incident to a safe conclusion. Any authorized departure from an armored vehicle’s place of storage shall be considered a deployment.

Fiscal Impacts:

Lenco BearCat: The cost of the Bearcat was approximately \$323,726, which was purchased through a UASI (Urban Areas Security Initiative)- US Department of Homeland Security grant.

#1697 Armored Suburban: ~\$140,000

Ongoing Cost Per Year: \$1,418 per vehicle (monthly rate from City Corp Year)

Legal/Procedural Rules Governing Use: The use of the Bearcat/Armored Suburban is governed by Oakland Police Department TB III-P.04.

Training Requirements: Armored vehicles shall only be operated by officers certified by the Tactical Operations Team commander. This includes, but is not limited to, all members of the Entry Team and Sniper Team elements. It also includes all Patrol Rifle Officers (PRO’s).

Coordinator/Other: The coordinator and tracker of deployments is with the SOD Commander.

Military Equipment (Gov’t Code 7070): Command and control vehicles that are either built or modified to facilitate the operational control and direction of public safety units.

Equipment Name: OFD/OPD Mobile Command Vehicle

Quantity Owned: 3

Lifespan: Approximately 15 years

Equipment Capabilities: The vehicle provides mobile, remote access to radio, internet planning and operational resources to assist with the command and control of major incidents and other planned operations. The vehicle also has the capability to dispatch officers and firefighters, as well as receive 9-1-1 calls.

Manufacture Product Descriptions:

#0002 OFD/OPD Mobile Command Vehicle (2010) (MCV) (Requires Class B License):

Mobile Command Vehicle was built in conjunction with the Oakland Fire and Oakland Police Departments as a unified command vehicle but can also alternate between fire specific and police specific missions. The vehicle was custom built by Lynch Diversified Vehicles (LDV, Inc.), LDV Model #MCC301181-07.

#1102 OPD Community Resource Vehicle (CRV) (2021):

Community Resource Vehicle was purchased to be used in the community to prevent the spread of, prepare for, and respond to the COVID-19 pandemic. OPD will allow OPD personnel to provide community training and communication for the prevention of the virus, sanitation (such as handwashing), and decontamination capabilities. The vehicle will serve as a community resource center during critical incidents where community members could utilize the vehicle as a waiting area to be sequestered until the incident is safely resolved and they could return to their residence and be equipped with items to support emergency community needs. The

vehicles and equipment will also be used to distribute PPE and sanitation supplies more easily to the public, particularly those within our most challenged communities who lack resources and have been disparately affected by the pandemic. These vehicles will also be used for public engagement and dissemination of pandemic-specific information and engagement. These vehicles will also be utilized by Ceasefire to ramp up services. The vehicles will provide on-scene privacy for conducting sensitive interviews with crime victims and witnesses as well as a more private setting for intervention meetings. The vehicle was custom built by Lynch Diversified Vehicles (LDV) in 2021, LDV Model #S30MCC-34769-20.

#4878 OPD Weed & Seed MCP Mobile Community Outreach Police Station: (1998) Vehicle was obtained through grant from United States Department of Justice (JAG) Justice Assistance Program. Vehicle used to assist in providing information on mental health counseling, drug treatment and other wellness services in the community. Vehicle also used to visit schools, churches, and merchants in community. Due to age of vehicle and the procurement of newer updated vehicles in the fleet, used very sparingly in last several years.

Purpose/Authorized Uses: Traffic Commander (Lieutenants and above) shall only authorize the deployment of a MCV for any incidents which it would be deemed beneficial to do so.

Fiscal Impacts:

OFD/OPD Mobile Command Vehicle: Total Commercial Price \$627,058

OPD Community Resource Vehicle (CRV): Total Commercial Price \$325,049.25.

OPD Weed & Seed MCP Mobile Community: \$173,889

Ongoing Cost Per Year: \$1,791- \$2,449 per vehicle (monthly rate from City Corp Year)

Legal/Procedural Rules Governing Use: California Vehicle Code

Training Requirements: There are 2 members of OPD, who are assigned to patrol have their Class B license and can operate the OFD/OPD Command Vehicle. The new OPD Command Vehicle can be operated with a Class C license.

Coordinator/ Other: The MCV is not a tactical vehicle but rather a multi-purpose vehicle to help facilitate command and control during field incidents by both the Oakland Fire Department as well as the Oakland Police Department by providing intelligence assets. The vehicle does not have any armor nor is it deployed in such a manner as it to be used in such a way. The vehicle is to be deployed at the periphery of a tactical incident if one such arises. The Traffic Commander is the coordinator of the command vehicles.

Military Equipment (Gov't Code 7070): Command and control vehicles that are either built or modified to facilitate the operational control and direction of public safety units.

Equipment Name: HNT Vehicle (Hostage Negation Vehicle) #1197

Quantity Owned: 1

Lifespan: None listed by manufacture

Equipment Capabilities: In any response to a terrorist or CBRNE incident, specialty vehicles, especially those that provide force protection or include communications and Electronic Counter Measures are critical to a successful resolution to the incident.

Manufacture Product Description: Farber Vehicle 25' Chassis Designed for communication, negotiator and ECM. CINT Commander (Negotiations Recording and Control System). This system also includes software that allows it to be used as a pretext phone call device with digital recording, data logging, and control features. The system includes the following items: 1. COMMBBox 2. Software with free software updates online 3. All required cables 4. One headset and four headphones with adapters 5. External room monitor speaker 6. Pelican carrying case 7. Integrated 836 Bluetooth 8. 12 volt cell phone charger adapter 9. Technical Support 10. Five year limited warranty (refer to warranty information).

Purpose/Authorized Uses: Incident Commander (Lieutenants and above) shall only authorize the deployment of a MCV for any incidents which it would be deemed beneficial to do so.

Fiscal Impacts: \$226,611.07 paid for by UASi Homeland Security Grant

Ongoing Cost Per Year: \$1,418 per at vehicle (monthly rate from City Corp Year)

Legal/Procedural Rules Governing Use: Class C license is required to drive the vehicles.

Training Requirements: Members of the HNT are eligible to drive the vehicle.

Coordinator/Other: The coordinator and tracker of deployments is with the Sergeant Johnson.

Military Equipment (Gov't Code 7070): Battering rams, slugs, and breaching apparatuses that are explosive in nature. However, items designed to remove a lock, such as bolt cutters, or a handheld ram designed to be operated by one person, are specifically excluded from this subdivision.

Equipment Name: Remington 870 with Royal Arms 14" 12 point Breaching Barrel

Quantity Owned: 3

Lifespan: No lifespan indicated by the manufacturer

Equipment Capabilities: See Product Description

Manufacture Product Description: The Remington 870 Police pump-action shotgun is a rugged 12-gauge with a short, tactical 18" barrel backed by a stout 3" chamber. The all-matte black gun is Parkerized for generalized durability and rust-resistance. Both the pump action forend and stock are robust and tough synthetic.

Equipment Name: Defense Technology/ Inert Blast 1098	
Quantity Owned: 8	Lifespan: 5 Year
Equipment Capabilities: See Product Description	
Manufacture Product Description: The Inert Rubber Blast Ball Grenade can be used effectively in both training and crowd management situations. It simulates the dispersion of Riot Control Agents from a CS, CN, or OC Blast Ball in a training environment, but without the actual chemical exposure. Deployed in crowd management /custodial situations to deliver light/sound stimuli from a rubber ball style grenade without chemical agent exposure.

Equipment Capabilities: See Product Description	
Manufacture Product Description: The design of the Tri-Chamber Flameless CS Grenade allows the contents to burn within an internal can and disperse the agent safely with reduced risk of fire. The grenade is designed primarily for indoor tactical situations to detect and/or dislodge a barricaded subject. This grenade will deliver approximately .70 oz. of agent during its 20-25 seconds burn time. The Tri-Chamber Flameless Grenade can be used in crowd control as well as tactical deployment situations by Law Enforcement and Corrections, but was designed with the barricade situation in mind. Its applications in tactical situations are primarily to detect and/or	

dislodge barricaded subjects. The purpose of the Tri-Chamber Flameless Grenade is to minimize the risks to all parties through pain compliance, temporary discomfort, and/or incapacitation of potentially violent or dangerous subjects. The Tri-Chamber Flameless Grenade provides the option of delivering a pyrotechnic chemical device indoors, maximizing the chemicals' effectiveness via heat and vaporization, while minimizing or negating the chance of fire to the structure.

Manufacture Product Description: Manufacture Product Description: The Pocket Tactical CS Grenade is small, and lightweight. The 0.9 oz. of active agent will burn approximately 20-40 seconds. At 4.75 in. by 1.4 inches in size, it easily fits in most tactical pouches. This is a launchable grenade; however it is normally used as a signaling or covering device. Though this device is slightly over four inches in length, it produces a smoke cloud so fast it appears to be an enveloping screen produced by a full size tactical grenade.

Manufacture Product Description:

The Ferret® 40 mm Barricade Penetrating Round is filled with a CS liquid chemical agent. It is a frangible projectile that is spin stabilized utilizing barrel rifling. It is non-burning and designed to penetrate barriers. Primarily used to dislodge barricaded subjects, it can also be used for area denial. Primarily used by tactical teams, it is designed to penetrate barriers, such as windows, hollow core doors, wallboard and thin plywood. Upon impact the nose ruptures and instantaneously delivers the agent payload inside a structure or vehicle.

Equipment Name: Defense Technology/ CS Muzzle Blast 6042

Quantity Owned: 40	Lifespan: 5 Year
Equipment Capabilities: See Product Description	
Manufacture Product Description: The 40 mm Muzzle Blast CS Round is widely used as a crowd management tool for the immediate and close deployment. It can also be employed in tactical operations such as barricaded subjects, room clearing, area denial, and for small space contamination, and a means of contaminating crawl spaces and attics. As a pain compliance round it is an excellent device for deploying chemical-laden CS powder at close ranges for indoor or outdoor operations. The cloud of agent is very effective in filling holes in dispersals lines or engaging crowds at close distances.

Equipment Name: LRAD/ 100X	
Quantity Owned: 2	Lifespan: Not listed with Manufacture
Equipment Capabilities: See Product Description	
Manufacture Product Description: The LRAD 100X is a self-contained, portable communication system for on-scene and tactical communication. With unparalleled vocal clarity and up to 30db louder than bullhorns, megaphones, and vehicle P.A. systems, the LRAD 100X is also four to six times louder than other acoustic hailers of comparable size and weight. LRAD's optimized driver and waveguide technology ensures every message is clearly broadcast, heard and understood, even above engine, crowd, siren, and background noise. The LRAD warning tone commands attention to the voice messages that follow and provides a safer alternative to non-lethal and kinetic measures for changing behavior.

COMMAND INTENT

The purpose of this policy is to provide rules for the approval, acquisition, use, and reporting requirements of military equipment, as outlined in Government Code § 7070, Oakland Municipal Code (OMC) 9.65, et. seq., in order to safeguard the public's welfare, safety, civil rights, and civil liberties.

A. POLICY AND APPLICABILITY

It is the policy of the Oakland Police Department (OPD) to have legally enforceable safeguards, including transparency, oversight, and accountability, in place to protect the public's welfare, safety, civil rights, and civil liberties with respect to the funding, acquisition, and use of equipment defined by statute as military equipment. The acquisition of military equipment and its deployment in our communities may impact the public's safety and welfare. The public has a right to know about any funding, acquisition, or use of military equipment by local government officials, as well as a right to participate in any government agency's decision to fund, acquire, or use such equipment. Decisions regarding whether and how military equipment is funded, acquired, or used should consider the public's welfare, safety, civil rights, and civil liberties, and should be based on meaningful public input. The members of this Department will comply with the provisions of Assembly Bill 481, Government Code § 7070, Oakland Municipal Code (OMC) 9.65, et. seq. with respect to military equipment.

B. DEFINITIONS

The definitions related to this policy are defined in Government Code § 7070 and OMC 9.65:

Governing body – Means the elected body that oversees a law enforcement agency or, if there is no elected body that directly oversees the law enforcement agency, the appointed body that oversees a law enforcement agency. In the case of a law enforcement agency of a county, including a sheriff's department or a district attorney's office, "governing body" means the board of supervisors of the county. [Government Code § 7070(a)]. As it pertains to the City of Oakland, the Oakland City Council and Oakland Police Commission are the Governing bodies.

Law Enforcement Agency – A police department, including the police department of a transit agency, school district, or any campus of the University of California, the California State University, or California Community Colleges. [Government Code § 7070(b)(2)].

Military equipment – Defined military equipment includes, but not limited to, the following [Government Code § 7070(c)(1)-(15)]:

1. Unmanned, remotely piloted, powered aerial or ground vehicles.
2. Mine-resistant ambush-protected (MRAP) vehicles or armored personnel carriers. However, police versions of standard consumer vehicles are specifically excluded from this subdivision.
3. High mobility multipurpose wheeled vehicles (HMMWV), commonly referred to as Humvees, two-and-one-half-ton trucks, five-ton trucks, or wheeled vehicles that have a breaching or entry apparatus attached. However, unarmored all-terrain vehicles (ATVs) and motorized dirt bikes are specifically excluded from this subdivision.
4. Tracked armored vehicles that provide ballistic protection to their occupants and utilize a tracked system instead of wheels for forward motion.
5. Command and control vehicles that are either built or modified to facilitate the operational control and direction of public safety units.
6. Weaponized aircraft, vessels, or vehicles of any kind.
7. Battering rams, slugs, and breaching apparatuses that are explosive in nature. However, items designed to remove a lock, such as bolt cutters, or a handheld ram designed to be operated by one person, are specifically excluded from this subdivision.
8. Firearms of .50 caliber or greater. However, standard issue shotguns are specifically excluded from this subdivision.
9. Ammunition of .50 caliber or greater. However, standard issue shotgun ammunition is specifically excluded from this subdivision.
10. Specialized firearms and ammunition of less than .50 caliber, including assault weapons as defined in § 30510 and §30515 of the Penal Code, with the exception of standard issue service weapons and ammunition of less than .50 caliber that are issued to officers, agents, or employees of a law enforcement agency or state agency.
11. Any firearm or firearm accessory that is designed to launch explosive projectiles.
12. “Flashbang” grenades and explosive breaching tools, “tear gas,” and “pepperballs,” excluding standard, service-issued handheld pepper spray.
13. Taser Shockwave, microwave weapons, water cannons, and Long Range Acoustic Devices (LRADs).
14. The following projectile launch platforms and their associated munitions: 40mm projectile launchers, “bean bag,” rubber bullet, and specialty impact munition (SIM) weapons

15. Any other equipment as determined by a governing body or a state agency to require additional oversight.

Military Equipment - Defined military equipment also includes the following [Oakland Municipal Code 9.65]:

1. Crowd- control equipment, such as riot batons, riot helmets, and riot shields, but excluding service-issued telescopic or fixed-length straight batons.
2. Any weapon designed for hand-to-hand combat, including any knife designed to be attached to the muzzle of a rifle, shotgun, or long gun for purposes of hand-to-hand combat, but excluding service-issued telescopic or fixed-length straight baton.
3. Military surplus equipment.

Controlled Equipment Impact Report- means a publicly released, written document that includes, at a minimum, all of the following:

1. Description: A description of each type of controlled equipment, the quantity sought, its capabilities, expected lifespan, intended uses and effects, and how it works, including product descriptions from the manufacturer of the controlled equipment.
2. Purpose: The purposes and reasons for which the Oakland Police Department (hereinafter, "Police Department") proposes to use each type of controlled equipment.
3. Fiscal Cost: The fiscal cost of each type of controlled equipment, including the initial costs of obtaining the equipment, the estimated or anticipated costs of each proposed use, the estimated or anticipated costs of potential adverse impacts, and the estimated or anticipated annual, ongoing costs of the equipment, including operating, training, transportation, storage, maintenance, and upgrade costs.
4. Impact: An assessment specifically identifying any potential impacts that the use of controlled equipment might have on the welfare, safety, civil rights, and civil liberties of the public, and what specific affirmative measures will be implemented to safeguard the public from potential adverse impacts.
5. Mitigations: Specific, affirmative technical and procedural measures that will be implemented to safeguard the public from such impacts.
6. Alternatives: A summary of all alternative method or methods the Police Department considered to accomplish the purposes for which the controlled equipment is proposed to be used, the annual costs of alternative method or methods, and the potential impacts of alternative method or methods on the welfare, safety, civil rights, and civil liberties of the public.
7. Location: The location(s) it may be used, using general descriptive terms.

8. **Third Party Dependence:** Whether use or maintenance of the controlled equipment will require the engagement of third-party service providers.
9. **Track Record:** A summary of the experience (if any) other entities, especially government entities, have had with the proposed controlled equipment, including, if available, quantitative information about the effectiveness of the controlled equipment in achieving its stated purpose in other jurisdictions, and any known adverse information about the controlled equipment (such as unanticipated costs, failures, or civil rights and civil liberties abuses).

Controlled Equipment Use Policy- means a publicly released, legally enforceable written document governing the use of controlled equipment by the Oakland Police Department that addresses, at a minimum, all of the following:

1. **Purpose:** The specific purpose or purposes that each type of controlled equipment is intended to achieve.
2. **Authorized Use:** The specific uses of controlled equipment that are authorized, and rules and processes required prior to such use.
3. **Prohibited Uses:** A non-exclusive list of uses that are not authorized.
4. **Training:** The course of training that must be completed before any officer, agent, or employee of the Police Department is allowed to use each specific type of controlled equipment.
5. **Auditing and Oversight:** The mechanisms to ensure compliance with the controlled equipment use policy, including which independent persons or entities have oversight authority, and what legally enforceable sanctions are put in place for violations of the policy.
6. **Transparency:** The procedures by which members of the public may register complaints or concerns or submit questions about the use of each specific type of controlled equipment, and how the Police Department will ensure that each complaint, concern, or question receives a response in a timely manner.

Annual Controlled Equipment Report -means a publicly released written document that includes, at a minimum, all of the following information for the immediately preceding calendar year:

1. Production descriptions and specifications for controlled equipment and inventory numbers of each type of controlled equipment in the Police Department's possession. The Police Commission may waive the remaining obligations for annual reporting for a specific type of equipment if the Police Department certifies, in advance of issuing the Annual Controlled Equipment Report, that the equipment was not used or purchased in the immediately preceding calendar year.

2. A summary of how controlled equipment was used.
3. If applicable, a breakdown of where controlled equipment was used geographically by police area. For each police area, the Police Department shall report the number of days controlled equipment was used and what percentage of those daily reported uses were authorized by warrant and by non-warrant forms of court authorization.
4. A summary of any complaints or concerns received concerning controlled equipment.
5. The results of any internal audits, any information about violations of controlled equipment use policies to the extent permitted by law, and any actions taken in response.
6. The estimated annual cost for each type of controlled equipment, including acquisition, personnel, training, transportation, maintenance, storage, upgrade, and other ongoing costs, and from what source funds will be provided for controlled equipment in the calendar year following submission of the annual report.
7. Impact: An updated assessment specifically identifying any potential impacts that the use of the controlled equipment might have on the welfare, safety, civil rights, and civil liberties of the public, and what specific affirmative measures will be implemented to safeguard the public from potential adverse impacts.
8. Mitigations: Specific, affirmative technical and procedural measures that have been implemented to safeguard the public from such impacts.
9. Alternatives: An updated summary of all alternative method or methods the Police Department considered to accomplish the purposes for which the controlled equipment is proposed to be used, the annual costs of alternative method or methods, and the potential impacts of alternative method or methods on the welfare, safety, civil rights, and civil liberties of the public.

C. MILITARY EQUIPMENT COORDINATOR

The Chief shall designate the Special Operations Section Commander or designee as the military equipment coordinator. The responsibilities of the military equipment coordinator include but are not limited to:

1. Acting as liaison to the governing body for matters related to the requirements of this policy.

2. Identifying equipment that qualifies as military equipment in the current possession of the Oakland Police Department, or the equipment OPD intends to acquire that requires approval by the governing body.
3. Facilitate an inventory of all military equipment at least annually.
4. Collaborating with any allied agency that may use military equipment within the jurisdiction of Alameda County (Government Code § 7071).
5. Preparing for, scheduling, and coordinating the annual community engagement meeting to include:
 - a. Publicizing the details of the meeting.
 - b. Preparing for public questions regarding the Oakland Police Department's funding, acquisition, and use of equipment.
6. Preparing the annual military equipment report for submission to the governing body and ensuring that the report is made available on the Oakland Police website (Government Code § 7072) (OMC 9.65).

D. APPROVAL FOR FUNDING, ACQUISITION, AND USE

The Oakland Police Department or authorized designee shall submit to the Oakland Police Commission a Controlled Equipment Impact Report and a Controlled Equipment Use Policy prior to engaging in any of the following:

- Requesting the transfer of Controlled Equipment pursuant to Section 2576a of Title 10 of the United States Code.
- Accepting funds for Controlled Equipment, including, but not limited to, private, local, state, or federal funds, in-kind donations, or other donations or transfers.
- Acquiring Controlled Equipment either permanently or temporarily, including by borrowing or leasing.
- Collaborating with another law enforcement agency, such as commanding, controlling, or otherwise directing that agency or its personnel, in the deployment or other use of Controlled Equipment within Oakland.
- Using any new or existing Controlled Equipment for a purpose, in a manner, or by a person not previously approved by the governing body pursuant to OMC 9.65.
- Soliciting or responding to a proposal for, or entering into an agreement with, any other person or entity to seek funds for, apply to receive, acquire, use, or collaborate in the use of military equipment.
- Acquiring military equipment through any means not provided above.

The Police Department shall not accept funding for, acquire, or use Controlled Equipment without the review and recommendation, by the Police Commission, and approval, by City Council, of a Controlled Equipment Impact Report and a Controlled Equipment Use Policy submitted pursuant to OMC 9.65.

The Police Department shall not seek or apply for state, federal or private funds or in-kind or other donations for Controlled Equipment without prior review and approval by the Police Commission at a regularly noticed meeting. The Police Department may seek such approval here without submitting an Impact Report and/or a Controlled Equipment Use Policy, by informing the Police Commission of the needs for the funds and/or equipment, or otherwise justifying the request.

Submission to the Police Commission

- When seeking the review and recommendation of the Police Commission, the Police Department shall submit to the Police Commission a Controlled Equipment Impact Report and Controlled Equipment Use Policy.
- The Controlled Equipment Impact Reports and Controlled Equipment Use Policies shall be made publicly available on the Department's website for as long as the Controlled Equipment is proposed or approved for use.
- The Police Commission shall consider Controlled Equipment Impact Reports and Controlled Equipment Use Policies as an agenda item for review at least one open session of regularly noticed meeting.

Annual Reports on the Use of Controlled Equipment

The Oakland Police Department shall submit an Annual Controlled Equipment Report to the Police Commission no later than March 15th of each year, unless the Police Commission advises the Police Department that an alternate date is preferred. The Police Department shall make each annual report available on its website for as long as the Controlled Equipment is available for use. Within 60 days of the Police Department's submission and publication of an Annual Controlled Equipment Report, the Police Commission shall place the report as an agenda item for an open session of a regular meeting.

Notwithstanding the above, the Oakland Police Department may acquire military equipment without first obtaining Board approval in the following situations:

1. In the event of an emergency, the Oakland Police Department may acquire additional stock of approved military equipment without Board approval only if the Chief determines that doing so is necessary to respond to the emergency.

2. If there is an unanticipated exhaustion or reduction in the stock of ammunition, flash bangs, or chemical agents covered by this policy that would impair the Oakland Police Department's ability to maintain essential public safety functions or ensure the safety and security of the jails, OPD may acquire the minimum additional stock necessary to maintain these functions until Board approval can be obtained. This exception applies only to ammunition, flash bangs, or chemical agents, and does not permit OPD to acquire any other military equipment without prior Board approval.

E. MILITARY EQUIPMENT USE CONSIDERATIONS

Military equipment shall only be used by an OPD employee only after applicable training, including any course required by the Commission on Peace Officer Standards and Training (POST) has been completed, unless exigent circumstances arise. The military equipment acquired and authorized by the Oakland Police Department is:

1. Necessary because there is no reasonable alternative that can achieve the same objective of officer and civilian safety.
2. Reasonably cost effective compared to available alternatives that can achieve the same objective of officer and civilian safety.

F. MILITARY EQUIPMENT REPORTING

Upon approval of a military equipment policy, OPD or the authorized designee shall submit a military equipment report to the Police Commission for each type of military equipment approved within one year of approval, and annually thereafter for as long as the military equipment is available for use (OMC 9.65) [Government Code § 7072].

1. The Oakland Police Department shall also make each annual military equipment report publicly available on its internet website for as long as the military equipment is available for use.
2. The annual military equipment report shall, at a minimum, include the following information for the immediately preceding calendar year for each type of military equipment:
 - a. A summary of how the military equipment was used and the purpose of its use.
 - b. A summary of any complaints or concerns received concerning the military equipment.
 - c. The results of any internal audits, any information about violations of the military equipment use policy, and any actions taken in response.

- d. The total annual cost for each type of military equipment, including acquisition, personnel, training, transportation, maintenance, storage, upgrade, and other ongoing costs, and from what source funds will be provided for the military equipment in the calendar year following submission of the annual military equipment report.
- e. The quantity possessed for each type of military equipment.
- f. If OPD intends to acquire additional military equipment in the next year, the quantity sought for each type of military equipment.

G. COMMUNITY ENGAGEMENT

Within 30 days of submitting and publicly releasing the annual report, the Oakland Police Department through the Police Commission shall hold at least one well-publicized and conveniently located community engagement meeting, at which the department should discuss the report and respond to public questions regarding the funding, acquisition, or use of military equipment.

H. COORDINATION WITH OTHER JURISDICTIONS

Military equipment used by any member of this department shall be approved for use and in accordance with this policy. Military equipment used by other jurisdictions that are providing mutual aid to the Department, or otherwise conducting law enforcement activities in this jurisdiction, shall comply with their respective military equipment use policies in performing such actions.

I. INQUIRY AND COMPLAINT PROCESS

(Government Code 7070 d (7)) For a law enforcement agency, the procedures by which members of the public may register complaints or concerns or submit questions about the use of each specific type of military equipment, and how the law enforcement agency will ensure that each complaint, concern, or question receives a response in a timely manner.

The Oakland Police Department DGO M-3: **Complaints Against Departmental Personnel or Procedures** will inform all employees and the public of procedures for accepting processing and investigating complaints concerning allegations of member employee misconduct.

For general inquiries regarding OPD Military equipment can be made by the following:

1. By email at militaryequipmentinquiries@oaklandca.gov.
2. By mail to:

Oakland Police Department
Special Operations Section
Re: Military Equipment Coordinator
2651 73rd Ave
Oakland, CA 94607

General questions or concerns will be routed to the Military Equipment Coordinator for response in a timely manner. The Military Equipment Coordinator shall track all inquiries and responses for inclusion into the Military Equipment Report.

J. AUDITING AND OVERSIGHT

The Oakland Police Commission will be the independent entity with oversight authority. The Oakland Police Department will conduct internal inspections and audits to ensure compliance and accuracy of the inventory list.

K. MILITARY EQUIPMENT INVENTORY

The attached list is the current qualifying list of equipment utilized by the Oakland Police Department. The Office does not currently possess controlled or prohibited equipment acquired from the United States military. Instead, the department's current inventory consists of commercially available equipment or military equipment modified for law enforcement uses.

Please refer to the attached list.
