PRAC Parks and Recreation Advisory Committee

The Parks and Recreation Advisory Commission (PRAC) is a group of volunteers who advise City Council and the City Administrator about parks and recreation matters in Oakland.

2023 brought in both new and continuing activities for PRAC. We returned to in-person meetings in March and welcomed the face-to-face interactions with the public and staff after several years of remote hearings. Commissioners continued to work closely with City staff on identifying and measuring the outcomes from Measure Q funding, especially how parks are maintained. (Measure Q is the parcel tax Oaklanders passed in 2020 to support parks, homelessness, and water quality.) Commissioners also initiated or maintained ongoing discussions with neighborhood group and park organizations about issues they face. We bring our concerns and those that we hear from other residents to the Mayor, City Councilmembers, and the City Administrator, as PRAC's primary focus is to advocate for parks and recreation programs that benefit the Oakland community.

Chair of Parks and Recreation Advisory Committee (PRAC)

OAKLAND

AQUATICS

Preschool Aquatics

Preschool Aquatics, Youth Learn to Swim, Swim Stroke Clinic and Adult Swim Lessons are 4 (Saturday) – 8 (weekday) 30-minute classes

Level 1

In Preschool Aquatics Level 1, your child is introduced to basic skills. These skills lay the foundation for developing water competency and the future skill development of swimming strokes. In addition, your child starts to develop positive attitudes and safe practices around the water. Level 1 skills may be performed with support.

Level 2

Preschool Aquatics Level 2 continues laying the foundation for developing water competency and further skill development. This level marks the beginning of independent aquatic locomotion skills. Children continue to explore using simultaneous and alternating arm and leg actions on the front and back to gain greater proficiency in preparing for performing strokes. Level 2 skills may be performed with assistance.

Level 3

In Preschool Aquatics Level 3, our instructors follow a plan to introduce new swimming and water safety skills that are developmentally appropriate for young children and help further your child's development or water competency. Level 3 skills are performed independently.

Parent & Child

Parent and Child Aquatics introduces you and your child to basic skills. One parent or guardian must work in the water with the child under the direction of the instructor. As parents, you learn how to safely work with your child in the water, including how to appropriately support and hold your child in the water and how to prepare and encourage your child to participate fully and try the skills. In addition, you are introduced to several water safety topics. Your child receives an introduction to basic skills that lay a foundation for learning to swim. Swim diaper and necessary swim wear for participants mandatory in the water (CA health code). Swim diaper available for purchase on site.

Youth Learn to Swim

Level 1

In Youth Learn-to-Swim Level 1—Introduction to Water Skills (6-14 years), your child is introduced to basic skills as the foundation for future skills and the development of water competency (the basic minimum skills needed for water safety). Level 1 skills may be performed with assistance.

Level 2

Youth Learn-to-Swim Level 2—Fundamental Aquatic Skills (6-14 years) builds on skills learned in Level 1. Your child begins to perform skills at a slightly more advanced level and begins gaining rudimentary propulsive skills on both the front and the back. This level marks the beginning of independent aquatic locomotion skills.

Level 3

In Youth Learn-to-Swim Level 3—Stroke Development (6-14 years), our instructors follow a plan to introduce new swimming and water safety skills to build on previously learned skills. Your child learns to swim the front crawl and elementary backstroke at rudimentary levels, is introduced to the scissors and dolphin kicks, learns the survival float and increases the time duration for treading water. Your child also learns the rules for headfirst entries from a seated position at poolside (if the water is at least 9 feet deep).

Youth Learn to Swim Level 4

In Youth Learn-to-Swim Level 4—Stroke Improvement (6-14 years), our instructors follow a plan to introduce new swimming and water safety skills and to build on previously learned skills, improving the swimming stroke proficiency and swimming for longer distances.

Swim Stroke Clinic

This swimming class is appropriate for students who have successfully passed out of Youth Levels 1-4. Students will begin to learn additional stroke techniques, flip turns, and other competitive swimming skills. Note: Due to the depth of the pool, treading techniques and diving will not be covered in this class.

Private

Private swim lessons are taught with a student to teacher ratio of 1:1. Private swim lessons are available for swimmers who may be in need of a more individual approach to their learning. Each instructor will assess and instruct to the swimmer's starting level and individualize each swim lesson and session. Individual goals will be discussed and American Red Cross Learn to Swim Program will be applied.

Adult Lessons

Adult Group Swim Lessons (14 years and up) are held to help participants gain basic aquatic skills and swimming strokes. Skills and concepts are taught in a safe and structured environment in which participants also learn to stay safe in and around the water and to help themselves or others in an aquatics emergency. Participants will learn to increase comfort levels in the class, experience breath control, experience buoyancy, moving through the water, and improve on fundamental aquatic skills such as building on endurance and effectiveness and efficiency of swimming strokes.

Junior Lifeguard

Our Junior Lifeguard program (11-15 years) incorporates the American Red Cross Junior Lifeguarding Leaders Guide. This class is designed to guide youth to the American Red Cross Lifeguarding course by building a foundation of knowledge, attitudes and skills for future lifeguards. Participants are not required to master or perfectly execute skills. They should learn techniques and build stamina during this program. The Junior Lifeguard program does not certify participants in first aid, CPR or AED or as a lifeguard.

Youth Swim Team

The youth recreational swim team program (6-18 years) serves as an introduction to competitive swimming. The program emphasizes sportsmanship and the joy of the sport while maintaining an environment of cooperation, discipline, community and team spirit.
