I OAKLAND

Bikeways Map

www.oaklandbikes.info

Oakland is becoming a city where bicycling is fully integrated into daily life, providing transportation and recreation that are both safe and convenient. This free map depicts City-designated bikeways plus proposed bikeways with street conditions that are supportive of bicycling. However, individuals must determine their own skill levels and physical abilities. Know the rules of the road. Take a bike safety class. Wear a helmet. Be visible at night. Give respect, get respect, and ***have fun!***

- Bikeways**
This map depicts six types of bikeways, each with specific characteristics:
- Bike paths** provide a paved right-of-way that is completely separated from the street. They are typically shared with pedestrians and often called mixed-use paths.
 - Separated bike lanes** use parked cars, raised curbs, or other vertical elements to separate bicyclists from vehicular traffic.
 - Bike lanes** are striped on streets and designated specifically for bicycle travel. Oakland is adding buffers where feasible to give bicyclists more space between moving traffic and parked cars.
 - Bike boulevards** are routes on residential streets that prioritize through trips for bicyclists. They include pavement markings, wayfinding signs, and traffic-calming elements.
 - Bike routes** are marked with signs and/or pavement markings, and may have bicyclists sharing lanes with drivers on busier streets.
 - Proposed bikeways**, a subset of streets designated for improvements by Oakland's bike plan, are included because they have wide travel lanes, low traffic volumes, and provide useful connections.

- Wayfinding**
This map features the 120+ destinations being supported on Oakland's bicycle guide signs. These destinations include downtown, adjoining cities, transit stations, commercial districts, parks, landmarks, colleges, hospitals, and high schools. The signs follow the general conventions of highway guide signs to communicate information in a clear, consistent, and space-efficient format. For more information, see www.oaklandbikes.info/design.
- City of Oakland Resources**
- Report issues to the Oakland Call Center. Call 311 or go to www.oaklandca.gov/services/oak311.
