This document serves as a preapplication form for submitting a Notice of Intent to apply for Streamlined Housing Development Review. California Government Code section 65913.4, also known as Senate Bill 35 (SB 35), requires the City to review qualifying housing development projects using a ministerial review process. Eligible projects must comply with objective planning standards, provide specified levels of affordable housing, and meet other specific requirements detailed in Government Code section 65913.4.

The City of Oakland Bureau of Planning utilizes the Basic Application for Development Review to receive Streamlined Housing Development Review applications. Applicants can check the appropriate box for SB 35 streamlining in Section 1 of the Basic Application.

**However, before an application for Streamlined Housing Development Review can be made, an applicant must submit a Notice of Intent in the form of a preliminary application that includes all of the information described in Government Code section 65941.1. The City must then notify California Native American tribes that are traditionally and culturally affiliated with the area of the project site to determine if they wish to engage in a scoping consultation. An application for Streamlined Housing Development Review cannot be submitted until scoping consultation is complete.**

**WHERE TO SUBMIT YOUR NOTICE OF INTENT?**

After completing this form, please go to our online portal [City of Oakland Online Access - File a Planning Application](#) to submit the form as a “Zoning Worksheet.” Through the online process you will be able to upload your application.

**FEES**

The Notice of Intent form is a Preapplication and is subject to a Preapplication fee, as published in the City of Oakland Master Fee Schedule. The Notice of Intent form is a stand-alone, independent preapplication and the fee is therefore separate from and in addition to any other fee for standard Preapplication or Basic Application submittals that may be sought for the subject Project.

**STEPS AFTER SUBMITTAL**

Upon receipt of a complete Notice of Intent Preapplication, the City of Oakland will engage in a scoping consultation with any interested California Native American tribe traditionally and culturally affiliated with the geographic area of the proposed development. The City will commence a scoping consultation within 30 days of receiving notification from a responsive tribe. If no tribe accepts an invitation for scoping consultation, or if consultation results in agreement regarding treatment of resources, the City will notify the project applicant that they may proceed with submitting a development application. If there is a listed tribal cultural resource on the project site, or if the City is unable to reach such agreement, the applicant will be notified that Streamlined Housing Development Review is unavailable. In addition, if the development is proposed in a census tract designated as moderate resource, low resource, or high segregation and poverty on the most recent [CTCAC/HCD Opportunity Map](#), the City will schedule a Planning Commission hearing as an opportunity for public and commissioner feedback.
