Metal Jewelry Design

Wednesdays | 6:30pm - 9:30pm

Instructor: Anthony Stillman

This class emphasizes building basic/intermediate knowledge of jewelry design and construction. Beginning students will design their own jewelry and construct their design pieces using the fundamental techniques of soldering, sawing, filing, finishing, and basic bezel setting. Lectures, demonstrations, and handouts will provide the basis of any technique needed. Intermediate students will progress through more advanced techniques (forging, cold connections, etching, etc). Jewelry will be made from metal sheet and wire. Brass, copper, and tools are provided. *New students need to attend the first class for a safety discussion and a materials list.

Darkroom Printing

REFRESHER COURSE: One-to-One

Choose a time | Choose a date

Instructor: Moses LaSabra

This class will provide the student opportunity to “refresh” their skills in the darkroom. This will be a “one to one” instruction in various printing techniques necessary to produce a high quality black and white photographic print. Whether you’ve been out of the darkroom for 20 years or less, you’ll still know some of the basics. Learn about the various darkroom chemicals that are used; the various papers and films that are available and how to control the enlarger during the developing and printing process. This class will refresh your memory and get you to a **proficient level of printing where you can rent darkroom space at Studio One and print on your own.** Individual instruction should be scheduled in advance.

FEE:

RESIDENT FEE: **\$110** NON-RESIDENT FEE: **\$132** S/T FEE: **\$100**

Advanced Darkroom Printing Techniques

Choose a time | Choose a date (3 Hours)

Instructor: Moses LaSabra **One-to-One**

When your traditional black & white photographs don’t give you the impact you would like, consider taking a darkroom printing intensive. This is a “one to one” darkroom printing intensive with an instructor with many years of darkroom printing experience. Learn various techniques in the photo printing process: dodging and burning; masking, darkroom chemistry, toning, using correct printing filters, lens & filter choices and selecting the correct photo paper for your print. This is a 3-Hour Intensive. Select a time and day that will work for you and the instructor to meet. **Student provides their own photo paper. Darkroom printing experience required.**

Glass

Fusing and Slumping

Glass Tuesdays | 9:30am - 12:30pm

Instructor: Janet Hiebert

This class is an introduction to the wonderful world of kiln-formed glass. Layers of compatible glass are fused together to create artistic objects including jewelry, tiles, and picture frames. Glass can also be slumped into or over molds to create barrettes, small plates, and votive candle holders. Glass cutting, compatibility testing, use of "frits" (crushed glass) and metal inclusions are among the techniques presented and information on the use of kilns and firing processes is also offered. More advanced projects will be available to continuing students. A supply list will be given out at the first class meeting.

Stained Glass Lab

Thursdays | 9:30am - 12:30pm Instructor: Monitor

Participants who don't need instructions are welcome to work on their individual projects. A lab monitor is present for set-up/break-down and to ensure lab safety. New participants who have extensive knowledge of the safety and prep procedure can meet with the glass coordinator to waive the requirements. Once in the lab, it is important to follow any directions stated, posted, and respect other students artwork. There is no storage space. You must provide your own glass. There are Studio One stock tools. 

Fusing and Slumping Lab

Mondays | 6:30pm - 9:30pm

Thursdays | 9:30am - 12:30pm

Instructor: Monitor

Participants must be well versed on the process of fabricating glass pieces, the proper use and care of molds for slumping, and have taken 3 or more quarters of Glass Fusing and Slumping at Studio One. Or you can substantiate your skill and knowledge with the glass coordinator before the first lab session. Safety procedures on how to operate a kiln is important because the monitor does not offer instructions. Participants must have your own glass & tools. Please, no production work and there is no storage.

Ceramics

(Overview)

Ceramics classes are held workshop style, so if you have any ideas you have been thinking over, now would be the time to express them in clay. We will utilize our facility to the max, from the pottery wheel to hand-building to extruding, and even slab rolling to create reliefs. Fees cover the cost of your first bag of clay. It is important to attend the first class, where safety procedures and a material list will be discussed.
