

Commissioner Priorities	Map F	Map H	Map I	Map K	Commissioner Notes	Map Drawing Notes from Redistricting Partners
Goode: Keep Mills college and Millsmont together				X		Complete - D4 (3.32%), F6 (-3.87%)
Goode: Keep Eastmont and Seminary together				X		Those NH are already together in K
Goode: Do not use Fruitvale Ave below I-580 as a boundary line				X	https://districtr.org/edit/92299?event=oakland	Done
Achtenberg: •Expanding W. Oak border up north past I-580 at 40th Street and Mosswood Park or further north → to increase Black CVAP in West Oakland district	X					Half of Mosswood added to C3, increasing its deviation to 4.23%
Achtenberg: •Eastlake/ San Antonio district extends to 25th Ave → to increase Asian CVAP in that district	X					Move to 25th Ave increases the B2 deviation to 5.12%, this is reduced by a
Achtenberg: •Maximize the Hispanic CVAP in the Fruitvale district by insuring plurality with Black CVAP	X					Latino CVAP is already at 28% versus 26% for Black CVAP. There isn't a Latino NH to add to increase the LCVAP
Achtenberg: •Consider Dimond, Upper Dimond, Bartlett and Allendale as one area in hills or flats --> increase Black CVAP as part of a plurality in E5		X		X		These NH are already together in H & K.
Achtenberg: •Expanding W. Oak border up north past I-580 at 40th Street and Mosswood Park or further north → to increase Black CVAP in C3		X		X		Extending C3 into Mosswood will not increase the Black CVAP. Extending C3 to Telegraph would.
Achtenberg: •Mills and Millsmont together, Keep Oak Knoll together with King Estates Open Space		X		X	Districtr maps #92080 is a great reference***	This was accomplished in both maps and the district deviations were ok.
Miller: Keep Mills college and Millsmont together		X2	X3	X1	Please utilize these criteria on Maps K, H, or I, in that order. I like this map from DistrictR from Commissioner Goode:	Done in H, I, and K
Miller: Keep Eastmont and Seminary together		X2	X3	X1		Done in H, I, and K
Miller: Do not use Fruitvale Ave below I-580 as a boundary line		X2	X3	X1		Done in H, I, and K

Commissioner Priorities	Map F	Map H	Map I	Map K	Commissioner Notes	Map Drawing Notes from Redistricting Partners
Gangas: Undo redlining caused by freeways splitting communities in West Oakland by: "Expanding W. Oak border up north past I-580 at 40th Street and Mosswood Park"		X			Additional note: Can we aim to keep Westlake community (Broadway to 580 and above) to stay together to help West Oakland students who may be attending Westlake middle school	Done. There's too much population to shift the area into C3; also Mosswood is not contiguous with C3, but can move C3 north to McArthur to unify Hoover Foster NH
Gangas: Don't dilute the Latinx vote in Fruitvale while also not splitting up the San Antonio neighborhoods by looking at these 2 criteria that seem to be in conflict: - "23rd Ave (E 12th St to Foothill Blvd) should not be used as a district border and with San Antonio in one district, Eastlake/San Antonio moves to 25th Ave, concern with dilution of LatinX, Asians and others" - "Fruitvale Ave should not be used as a border from 580 to the Alameda border; keep neighborhoods east of Fruitvale Ave and south of 880, Proposed Dist E should extend to High Street"		X				Extended the district to 24th Ave, extending to 25th Ave was moving too much population. Fruitvale is not the border in Map H, the Eastern NH are already united in this map
Gangas: Keep Coliseum with neighboring community by: - "Keep Coliseum with the neighboring community so it is not split up (look at option of keeping as is ?) should not land lock district ?" Note: Some refinement is to define Coliseum neighborhood as Seminary to 85th Ave and from water to International (may be ok to be in D6)		X			and Mills College together; If possible keep Dimond, Upper Dimond, Bartlett and Allendale as one area in the flats or hills (or hybrid above the 580) ; If possible keep Keep Oak Knoll together with King Estates Park ; I'm ok with Lake staying as 2 separate districts. I used to live on Adams Point and the Lake has different communities across each side and so many people use the Lake that having it all under 1 district doesn't	Done
Chesmore: The Coliseum and the surrounding neighborhoods should be included in district F and NOT district G.	X					Done. This change was made, moving 52 people into F6. Move was to add the area bounded by 880, 66th Ave, and

Commissioner Priorities	Map F	Map H	Map I	Map K	Commissioner Notes	Map Drawing Notes from Redistricting Partners
Chesmore: District E should have the waterfront south of 880 extending to High St, but Hawthorne and Oak Tree should remain in District E. High St should NOT be used as a hard border for District E as it would eliminate communities of interest which belong in District E per the public's comments. (This is precisely why I mentioned to you that we needed to have included "at least" in the language in line 4. Please confirm you made this change in your spreadsheet per my last email.)	X					Done
Chesmore: Ensure non-dilution per line 1 of your spreadsheet (ie do not eliminate the AAPI plurality in District B or the Latinx plurality in District E).	X					Done
Gee: Insure existing plurality among community of interest groups ate maintained	X					Done
Gee: Consider keeping neighborhoods together where possible along Fruitvale Ave.	X					All Fruitvale NH are whole in E
Gee: Consider keeping Dimond, etc. neighborhoods together.	X					They are unified already in Plan F
Blackwell: advocating for district 3 lines to extend to 40th and MacArthur including mosswood park. Residents and my neighbors have expressed this desire.	X				I do not support an all hills district and I do not support removing the Coliseum for District 7.
